# THE GREATEST KNOCK-OUT BARGAIN EVER OFFERED!!!

## Details of Construction

Handsomely constructed of finest materials, and is of best workmanship throughout. Faced with white porcelain enameled iron with nickel silver trim.

Work Board, sink and corrugated drain board are of best grade nickel silver. Sink has bottom inlet and removable overflow standpipe. Dish Vat is of white porcelain. Draft Stand is heavily silver plated, equipped with soda and plain water faucets, onyx ball handles. A single cylinder Plain Water Cooler and a double cylinder Soda Cooler are located under jars in tinned copper lined compartment. They are of the direct icing type. Two Crushed Fruit Jars are of white porcelain with nickel silver covers, heavily silver plated. Four Syrup Pumps are of standard, double stem, oval top style, made of block tin where they come into contact with syrup. Tops and exposed parts are heavily silver plated. They rest on white porcelain jars. Two Ice Cream Compartments, one for a 5 gal. can and one for two 3 gal. cans, are insulated with cork and lined with tinned copper. Heavy galvanized iron jackets for packer cans. Covers are insulated and lined on inside with tinned copper. Brass standpipe is furnished for drain outlets. Shelf under sink is white enameled. 8 ft. leader pipe is furnished.

Display Front is white enameled, enclosed by hinged glass doors, and fitted with adjustable 6 in. plate glass shelves mounted on nickel plated keyhole strips and brackets. Top Slab is white carrara glass 68 in. long by 12 in. wide and 1 in. thick. Width of body 66 in. Ht. overall 42 in. Ht. to working top 32 in. White porcelain enameled legs are 6 in. high. Shpg. wt., crated, 600 lbs.

Order by No. 18E2940

**Combination Soda Fountain and  
Display Case at the Lowest  
Price on Record!!**

**For Road Stands, Small Confectioneries,  
Billiard Parlors, Cigar and Delica-  
tessen Stores, etc., etc.**

Without a doubt the greatest value we have ever offered. This is a compact and practical 6 ft. Soda Fountain which contains everything necessary to do a real soda business. The front display can be used for bottled goods, candies, or anything you wish, and will hold practically as much as a regular display case. The glistening white beauty and unusual appearance of this combination fixture will attract attention and it will prove a great business getter for you.

We have only a very limited quantity of these fountains on hand and this price-smashing offer will be withdrawn when this stock is sold. Send us your order at once! They won't last long.

# Announcing~

~ The CONSOLIDATION of ALBERT PICK & COMPANY, Chicago, and L. BARTH & COMPANY, INC., New York—the Two Leading Soda Fountain, Hotel, Restaurant and Institution Supply Concerns in America!—NOW ONE GREAT NATIONAL ORGANIZATION!

GREATER RESOURCES! GREATER VOLUME! GREATER BUYING POWER! GREATER ORGANIZATION! GREATER FACTORIES! GREATER LINES OF MERCHANDISE! GREATER VALUES!—and GREATER SERVICE TO OUR CUSTOMERS! Albert Pick & Company, Chicago, and L. Barth & Company, Inc., New York, for years have been steadily growing along exactly the same lines, each in its own part of the country. They have the same type of customers, the same lines of products, the same organizations and the same objectives. What is more natural, therefore, than for these two companies—each unquestioned leader in its field—to unite in a single organization of far greater size and strength and of national scope? Such a move was more than merely natural—it was well nigh inevitable, and in harmony with the best principles of modern business. We are therefore pleased to announce this consolidation, effective at once—a great step in the march of progress!

## *No Change in Management, Policy, Personnel or Organization*

The new combined companies remain managed by the same experienced men who have brought them to their present growth—these two great groups being welded into one organization with the same progressive policies as in the past—and now able to render services to you that are greater than ever before.

## *Western Division Will Operate as Albert Pick & Company*

The two companies will continue to do business in their present territories as heretofore, Albert Pick & Company, Chicago, operating as the Western Division, and L. Barth & Company, Inc., New York, as the Eastern Division of the parent concern to be known as Albert Pick, Barth & Company, Inc.

## FOUNTAIN FRUITS, SYRUPS and FLAVORS of LUSCIOUS QUALITY

at the **LOWEST PRICES Offered on the  
Market for this Quality of Merchandise**

For many years the famous Pix line of Soda Fountain Foodstuffs has been recognized as the standard for uniform excellence and purity. From year to year our volume of business in this merchandise has been steadily growing until today it is one of the leading lines in the country—all because we have at all times striven to give our customers the best to be had at the lowest possible prices consistent with such quality.

From a standpoint of quality, our fruits, syrups and flavors are unsurpassed. Each item in the line is selected with the greatest of care. It is packed by the latest and most sanitary methods known to the industry. Because of our enormous volume and rapid turnover, it comes to you always fresh—just the way you want it. All of our foodstuffs are made in strict accordance with the U. S. Pure Food and Drug Act of 1906 as amended.

When you buy any of the Pix Soda Fountain Foodstuffs, shown on the pages that follow, you get the biggest value on the market and you increase your profits by giving increased satisfaction to your trade.

# Build up **YOUR** profits **SIREN** mild Bitter-Sweet

## The Richest and Most Delicious

**65% OF ALL ORDERS SERVED AT FOUNTAINS ARE CHOCOLATE.** Because of this great popularity for chocolate drinks, Chocolate Syrup is the most important thing at your Soda Fountain. Hundreds of our customers have doubled and tripled their total fountain business by featuring and using "Siren" Chocolate exclusively. This is because people enjoy a good, rich, chocolate drink and will consistently patronize the store that takes pride in serving them delicious chocolate.

Many of the large, individual and chain Soda Parlors and Drug Stores have built up a tremendous business with "Siren" Mild Bitter Sweet Chocolate. They realize and appreciate what good chocolate drinks can do for them. And now we have added two new wonderful "Siren" Mild Bittersweet Chocolate Products—"Siren" Mild Bittersweet Prepared Chocolate Syrup and "Siren" Mild Bittersweet Chocolate Fudge, both ready to serve. Both of these products are rich and delicious and will help you in building up an enviable reputation for your fountain. Let the entire line of wonderful "Siren" Mild Bittersweet Chocolate Products make your fountain famous for Chocolate drinks—let them increase your profits and insure a steady flow of patronage throughout the year—they can do it if you'll just give them a trial.

## **SIREN CHOCOLATE SYRUP POWDER** Will Make Your Fountain Famous—

"Siren" Mild Bittersweet Chocolate Powder is the answer to your chocolate problem. It will give you a better syrup than you can get in any other way. It will give you a chocolate syrup that is rich, dark, heavy and smooth—deliciously "chocolatey" in flavor, yet not too sweet. The kind that your customers like and will come back for.

"Siren" Mild Bittersweet Chocolate Powder is made of a high grade cocoa, specially treated by a pure food process. It is much easier to use than ordinary cocoa, and also much more economical. You just use a little over four pounds of sugar to one gallon of syrup. To prepare, just add sugar and water to the powder and then boil for one minute. That is all there is to it! And you get a better and more delicious chocolate syrup than you've ever had before. **Buy a 10 lb. can or a drum and convince yourself.**

Put up in various sizes from a 20 oz. can to 200 lb. barrels. A 20 oz. can will make 6 quarts of delicious syrup. Full directions with each package.

# "PIX" Supreme Quality CONCENTRATED FOUNTAIN SYRUPS

## No Finer Concentrated Syrup Produced!

Pix Concentrated Fountain Syrups are without an equal; 1 gallon will produce 4 gallons of single strength "ready-to-use" syrup. They will make drinks delicious in flavor and taste, and absolutely uniform from season to season. They will hold old customers and bring new ones. You will find that buying a high quality fountain syrup of known strength and dependability will prove more economical and profitable to you. Pix Concentrated Fountain Syrups are compounded by expert chemists from pure granulated sugar, filtered water and other pure ingredients. Every jug and jar is guaranteed to be exactly as represented.

All gallons are packed with 1-10 of one per cent of benzoate of soda. Half gallons are packed without preservative; they are not guaranteed to keep after being opened. Wt. not pkd., gallon jugs, 15 lbs.; ½ gallon jugs, 8½ lbs.

### TRUE FRUIT FLAVORS

The following flavors are made from the fresh, ripe, luscious fruit without adulteration of any kind. No finer fruit syrups than these are made anywhere at any price.

Peach 7E3388 1 gal. 7E3389 ½ gal.	Pineapple 7E3392 1 gal. 7E3393 ½ gal.	Cherry, Red, Tame 7E3380 1 gal. 7E3381 ½ gal.	Raspberry, Red 7E3396 1 gal. 7E3397 ½ gal.	Strawberry 7E3404 1 gal. 7E3405 ½ gal.
---	---	---	--	--

### ARTIFICIAL FLAVORS—Finest Selected Materials

These are made from the finest selected materials, properly aged, blended and colored. In its natural state the basis of such goods would be rather flat and insipid to the taste; therefore, sufficient artificial matter has been added to insure a rich flavor and the proper snap or tang.

Cherry, Wild 7E3304 1 gal. 7E3305 ½ gal.	Lemon 7E3328 1 gal. 7E3329 ½ gal.	Vanilla 7E3344 1 gal. 7E3345 ½ gal.	Ginger Ale 7E3320 1 gal. 7E3321 ½ gal.	Orangeade 7E3364 1 gal. jug. 7E3365 ½ gal. jug.	Root Beer 7E3348 1 gal. jug. 7E3349 ½ gal. jug.

# Announcing

## PIX DELICIOUS MALTED MILK

"THE UTMOST IN QUALITY"

### A Wonderful, New Tasty Malted Milk

High in Food Value—Rich in Taste

PIX DELICIOUS MALTED MILK is made of rich, sterilized milk combined with extracts of malted grains and has a wonderful, distinctive flavor. Its quality is unsurpassed and yet it costs less than any of the standard brands now on the market.

It will pay you handsomely to feature your malted milk drinks. It has become the public's favorite drink and thousands of fountains have built up a remarkable and profitable business on them.

One of the important reasons for this great popularity is the new way in which it is made and served. We have printed our tested recipe to the right. It is the work of an expert and is being used with great success by numerous soda parlors and drug stores.

Buy and serve PIX DELICIOUS MALTED MILK and increase your profits. Packed in three sizes: 5 lb. cans, 10 lb. cans and 25 lb. cans.

#### Try This Tested Recipe for Making Delicious Malted Milk Drinks:

**First**—Place 7 oz. milk in shaker.

**Second**—Add two No. 16 dippers of vanilla ice cream.

**Third**—Add 1½ oz. chocolate syrup or any flavor as ordered. (We recommend "Siren" Mild Bittersweet Chocolate Syrup for that real Chocolate taste.)

**Fourth**—Add 2 heaping soda spoons full of PIX DELICIOUS MALTED MILK.

**Fifth**—Place shaker on mixer and allow to mix for one minute.

**Sixth**—Take shaker from mixer and fill a 10 oz. glass in front of customer two-thirds full and leave shaker alongside of customer to finish.

**Ward's Orange-CRUSH**

**PREPARE THE FLAVOR YOURSELF**

WARD'S ORANGE CRUSH is a popular summer drink because its flavor is pleasing to the taste. It is made from the pure juice of oranges and cane sugar. The intensive magazine, newspaper, and outdoor advertising always reminds your customers to ask for it.

To prepare Ward's Orange Crush Syrup, ready for use, pour contents of both bottles into a gallon measure and fill with heavy sugar syrup.

To serve—To one ounce of Ward's ready to use Orange Crush Syrup add 5 ounces of ice water, plain or carbonated. Directions for use on every bottle. Shp. wt. per case of 24 units 000 lbs.

**7E1440** Per case of 24 units (2 six ounce bottles to a unit)..... Complete, **\$30.00**  
 Per single unit of 2 six ounce bottles..... **\$1.50**
**MAYBORN**
**"Orange True"**
**Fruit Juice Syrup**

No Sweetening Necessary  
 Orange drinks are always in large demand. "Orange True" Fruit Juice Syrup makes a drink so much like the natural, pure orange juice that it is hard to tell the difference. In appearance it has the same rich natural color, cloudiness and pulp as the true orange juice, which will create a desire for an orange drink, and the natural fruit flavor will win steady customers. It is not necessary to sweeten—just mix one ounce of the "Orange True" with six ounces of still or carbonated ice water and a thirst-satisfying, invigorating and wholesomely refreshing drink is made. Directions for use on every bottle. 128 drinks can be made from a gallon of "Orange True." Shpg. wt. per case about 85 lbs. **7E1502** Case of 6 one gal. bottles..... Case, **\$16.50**

# SPECIALS FOR THE ICE CREAM MAKER

**MELOINE  
Mellows  
and  
Thickens  
The Cream**

Meloine absorbs the watery portions of cream, thus preventing icy crystallization. Greatly improves the finished product by forming the mixture into one smooth, uniform, creamy mass. Prevents crumbling. One ounce produces the desired results in a 5 gal. can of ice cream.

7E2243 10 lb. can. .... Each, **\$12.00**

30 lb. lot (three 10 lb. cans). Per 30 lbs. **\$34.50**

60 lb. lot (six 10 lb. cans). Per 60 lbs. **66.00**

**SNOW  
Ice Cream  
Improver**

A purely vegetable preparation used in the cold mix. Thickens the milk and cream and helps beat up quickly in the freezer, keeping the batch smooth and creamy and preventing breaking down or becoming coarse and grainy. Its use is an economy, as it prevents shrinkage. About 10c worth used for each \$10.00 worth of ice cream.

7E2148 10 lb. can. .... Each, **\$5.90**

30 lb. lot (three 10 lb. cans). Per 30 lbs. **\$17.30**

60 lb. lot (six 10 lb. cans). Per 60 lbs. **33.60**

The best and most practical low priced straw jar and cover you can buy. This offer is just another proof of the nationally recognized quality of our Glassware. At present prices it will be well worth while to make your delayed purchases now. This jar is dust proof as well as fly proof, because the cover is kept on jar when not in use. It is made in the popular Colonial design of heavy pressed clear glass. The jar is durable and a handsome fixture for any soda fountain or table. Easy to keep clean. Take advantage of this offer and you will find that you will be more than satisfied. Capacity 200 straws.

**2E1762** Ht. 12½ in. Wt. not pkd.

3¾ lbs. each.....Each,

**60c**

## NEW STYLE SANITARY STRAW DISPENSER

Automatically Dispenses  
1, 2, or 3 Straws

Capacity  
150 Straws

**\$1.50**  
Each

This Automatic Straw Dispenser will make a hit with your customers. It's the latest and most sanitary jar on the market. The raising of one, two or three straws is operated by raising knob on the cover. See illustration showing how straws are raised. The metal foot and base are highly nickel plated. Jar is of heavy clear glass, highly fire polished, Colonial style design. Cap'y about 150 straws. Ht. 12½ in.

**2E1755** Complete, without straws.

**2E1755B** Glass jar only.....Each, **\$1.00**

## GILCHRIST SANITARY GLASS STRAW DISPENSER

For Table and Counter Use

Lifting cover raises straws automatically spreading them out in fan shape, metal lid drops tightly shut the moment it is released, making jar dust, dirt and fly proof. The stop shown in the illustration is fastened firmly to the glass and placed low so the straws cannot be thrown out by careless customers. The metal piece can instantly be removed for cleaning. Made of heavy Colonial glass with metal parts heavily plated. Cap'y about 125 straws. Ht. 12 in. Diam. 3¼ in. Shpg. wt. 4 lbs.

**2E1749** Complete.....Each, **\$1.50**

**2E1749B** Extra Glass Jars.....Each, **\$1.10**

## RUBBER BASE FOR STRAW JARS

Acts as shock absorber and prevents breakage of bottles or table tops where glass tops are used. Fits No. 2E1749 Straw Jars only.

**2E1750**.....(Doz. \$3.25) Each, **30c**

## COLONIAL STYLE STRAW JAR

Narrow style Colonial pressed glass straw jar for individual table service. Requires very little space on table. Fine quality bright pressed glass, finely finished. Ht. 6½ in. Wt. not pkd. 2¼ lbs. Capacity 150 straws.

**2E1730**.....Each, **40c**

## HORIZONTAL STRAW JAR

Each

**\$1.50**

Capacity  
300  
Straws

Straws can be removed only when picked up in center. Prevents fingers coming in contact with ends of straws. Colonial design. Extra fine quality polished pressed glass. Size 10¼x4¼ in. Wt. not pkd. 2¼ lbs.

**2E1737**.....Each, **\$1.50**

## SANITARY GLASS STRAW JARS

With Metal Lift-cover Automatic Dispenser

Capacity 150 Straws

**\$1.25**  
Each

A real bargain in an Automatic Straw Dispenser. Cover and base are connected so that by raising the cover, base and straws are automatically raised. When base is raised the straws

spread at the top, as shown in illustration at right, and are easily taken out. The high base prevents the straws from falling out as they are raised—a common fault with other dispensers of this type.

Made of good quality heavy pressed glass, highly fire polished, Colonial style design. Metal parts are highly nickel plated. Ht. 12½ in. Cap'y about 150 straws.

**2E1756** Complete, without straws.

**2E1756B** Glass jar only.....Each, **50c**

Showing Operation.

## TABLE STRAW DISPENSER

Each

**95c**

A neat and dainty straw dispenser adopted now by hundreds of restaurants, consisting of a clear glass receptacle fitted with nickel plated metal cup and cover. Small and especially made for use on individual tables. The metal cup, which holds straws, can be removed from glass container and passed around the table or among a party. Widely used and very popular. 12 in. high, diam. at bottom 3½ in. Cap'y about 60 straws.

**2E1743** Shpg. wt. 2 lbs.

Each, **95c**

**2E1743B** Extra glass jars.

Each, **60c**

## SANITARY SILVER PLATED STRAW HOLDER

Fingers  
Do Not Touch  
Ends of  
Straws

Each  
**\$3.25**

Straws are removed through openings on side, preventing the ends from being touched. Ends of straws protected from dust, dirt, flies, etc. Made of heavy gauge drawn seamless tubing, nickel plated, and then heavily silver plated. Lustrous Butler finish. Holds 125 straws. Ht. 10½ in. An exceedingly popular holder. Shpg. wt. 1½ lbs.

**3E1848** Each.....**\$3.25**

Chocolate  
Pineapple  
Cherry  
Lemon

Strawberry  
Coca-cola  
Vanilla

# ICE CREAM PAPER SERVICE

PAILS, BOXES, CONTAINERS  
SPOONS, DISHES AND PLATES

## "CONGRESS" BRICK ICE CREAM BOXES

Furnish good ice cream containers to your customers. Soggy, absorbent containers that give a flat taste to the ice cream, or that drip or leak, will mean the loss of patronage. The "Congress" Brick Ice Cream Box is made unusually strong and rigid. It cannot leak, as the sides are made of double layers of waterproof paper and the outer layer is made of one single piece of extra thick paper. Shipped in packages of 100. We do not break packages.

**15E2944** 1 pt. Wt. not pkd. per 100, 6 lbs. (Per 1,000, \$12.00) Per 100, **\$1.35**  
**15E2945** 1 qt. Wt. not pkd. per 100, 9½ lbs. (Per 1,000, \$15.00) Per 100, **\$1.65**

## "POLAR" ICE CREAM PAILS

High Grade Pails Priced  
Remarkably Low.

An attractive line of ice cream pails especially made to satisfy the most discriminating trade. They are made of high grade, heavy absolutely waterproof manila fibre. The tape handle is firmly secured and will not come loose in carrying. Attractively decorated with an appropriate design. Packed in dust proof, sanitary packages of 100 pails each. We do not break packages.

No.	Cap'y	Wt. per 100 not pkd.	Price per 100	Price per 1,000
<b>15E5572</b>	½ pt.	3 lbs.	<b>\$0.65</b>	<b>\$5.75</b>
<b>15E2455</b>	1 pt.	5½ lbs.	<b>.85</b>	<b>7.50</b>

<b>15E2457</b>	½ gal.	11½ lbs.	<b>1.40</b>	<b>12.50</b>

## CYLINDRICAL PAPER CONTAINERS

Made of heavy spruce pulp paper, properly treated to resist heat, cold or liquids. Cylindrical in shape. Can be used for any hot or cold liquids as well as semi-liquids such as ice cream, chop suey, etc. There is no wax or oil to spoil the taste; pores of the paper are specially treated, not merely coated. Splendid for ice cream. Shipped complete with covers.

**15E2460** ½ pt. 300 to carton. Shpg wt. 30 lbs. No less than 300 sold. (Per 1,000, \$16.00) Per 300, **\$5.00**  
**15E2459** 1 pt. 175 to carton. Shpg wt. 25 lbs. No less than 175 sold. (Per 1,000, \$18.60) Per 175, **\$3.40**  
**15E2458** 1 qt. 100 to carton. Shpg wt. 20 lbs. (Per 1,000, \$23.45)

## SANITARY "SANISPOONS"

FOR SODA FOUNTAIN SERVICE

Compressed Fibre. Used Once  
and Thrown Away

"Sanispoons" are made of pure fibre, vulcanized, with a smooth, hard surface like old ivory. Light, yet strong as a spoon need be. Impervious to moisture, capable of withstanding great heat; give off no chemical taste or odor. Keep in perfect condition in all sorts of climates. Hold their shape, quality and firmness indefinitely. You can afford to buy them and use them only once. They can be used with hot drinks as well as with ice cream, as they are entirely unaffected by either heat or water. Packed 1,000 in a carton.

**15E2472** Picnic Spoon size, 3½ in. long. Shpg. wt. per 1,000 3½ lbs. Per 1,000, **\$2.50**

**15E2473** Tea Spoon size 5 in. long. Shpg. wt. per 1,000, 5½ lbs. Per 1,000, **\$4.50**

# Use Paper Cups!—They are More

## Lily PAPER CUPS

### The Complete Soda and Sundae Service

**Speedy, Sanitary, Satisfactory.** "Lily" Cups and "Lily" Dishes form a complete sanitary service for the soda fountain. Their use eliminates breakage, washing and drying. Made of one piece of heavy paper, they are pressed into shape and triple pleated for strength. They are made sanitary by an outside coating of superfine paraffine. "Lily" Cups closely resemble the glass in cleanliness and rigidity. This makes them ideal for sending drinks from the fountain, as they require no holder. Stirring with spoon or even a malted milk mixer will not affect them.

#### New 6 Oz. "Lily Soda Cup"

**Paper Soda Cups**—For concessions, carnivals, etc. For Coca-Cola, orangeade, etc. Looks as large as the 7 or 8 oz. cup but holds only 6 oz.

# Sanitary and Much More Profitable

## Vortex

### SANITARY FOUNTAIN SERVICE

**The Last Word in Efficiency, Service and Cleanliness**

"Vortex" Service eliminates washing, sterilizing and breakage. It is the ideal sanitary service. Cups are used but once, then thrown away—no time wasted in washing or drying. "Vortex" is designed for speedy service. Paper sundae cups are kept inverted in the cup dispenser. To insert them, the holder is merely inverted over them and turned, and the slot in the holder engages the cup. Soda cups are also easily picked up from dispenser. More business, better business and increased profits come to the soda fountain employing the "Vortex" Sanitary Service. "Vortex" cups are made of heavy white paper, waterproofed and sealed with pure paraffine. Made in all necessary sizes. Come in packages, tightly sealed, ready for use. Silver holders are provided in several styles, for soda and sundae service. All are made in a high grade manner, heavily silver or nickel plated.

#### "Vortex" Sanitary Sundae Service

**Paper Sundae Cups**—Made especially for "Vortex" sundae cup holders. Fasten automatically into holders. Packed in sealed cartons of 1,000 of a size.

# WE PAY TRANSPORTATION CHARGES ON FAMOUS "ARNOLD" SANITARY AUTOMATIC MIXERS

## 100% CLEAN

The Most Popular Mixer on the Market

### \$28.50

The drink mixer that is 100% clean! In the "Arnold" Sanitary Automatic Mixer the exposed mixing rod, so long a challenge to complete sanitation, has been banished. The entire mixing apparatus—every part of the mixer that comes in actual contact with the beverage—is rinsed clean in an instant after each using. No parts remain sticky and dripping between drinks, to attract flies and gather dust. The entire "mixing department" of the Arnold Sanitary Automatic No. 16 is inside the container. By means of a novel clipping arrangement it is held tightly to the side of the container, yet removable in an instant for polishing if desired, at the end of the day.

The famous "one-hand-one-motion" principle is embodied in the new Sanitary Automatic No. 16. Clicking the container into place automatically starts motor—removing it stops the motor. No awkward mixing rod that has to be cleared when putting on or removing container—a frequent cause of spilling the beverage when using ordinary mixers.

All electric connections are so perfectly protected by the beautiful cream toned porcelain standard, and the motor itself is so completely shielded by its heavily nickeled casing that shocks and shorts are well-nigh impossible. All exposed metal parts of the "Arnold" Sanitary Automatic Mixer are of nickel silver, nickel or stainless steel. The patented large capacity containers are triple silver plated like fine table ware. Thus the "Arnold" requires the smallest possible amount of attention to keep it spotless and shiny.

We Pay Transportation Charges

"Arnold" No. 16 Sanitary Automatic Mixer. Complete with agitator No. 44 and Container No. 43, 6 ft. of rubber covered cord and plug and with complete directions for making Unit connection. **We pay Transportation Charges. 4E6865 Shpg. wt. 20 lbs. .... Each,**

### \$28.50

Each

## THREE-A-MINUTE "ARNOLD" AGITATOR

The remarkable mixing efficiency of the "Arnold" is due to the patented violent action agitator illustrated. Notice the double propeller used. Two sizes of lower propellers are furnished; one for ordinary use and a special large one designed to handle the extremely heavy malted milks demanded by many fountain patrons. Due to its larger motor and the increased mixing speed of this patented agitator, the "Arnold" No. 16 will whirl the stiffest ice cream which modern iceless refrigeration insures. Placing of the mixing assembly inside the container, in addition to achieving 100% cleanliness, gives the "Arnold" these valuable advantages: (1) Absence of all strain or vibration on motor bearings, because the connection between motor shaft and agitator is effected through a universal joint; (2) Bent mixing rods, the bugaboo of all them to the scrap heap than any one cause, as a bent mixing rod will quickly ruin a motor through vibration; (3) High efficiency propeller blades (made possible only because they are shielded completely) so greatly cut down the mixing time that slower motor speed is possible. Mixer motors for years have literally raced themselves to death. The bigger "Arnold" Motor, with no bearing strain, and running at slower speed, has a vastly longer life.

**4E6866 Extra No. 44 Agitators for "Arnold" No. 16 Mixers. .... Each, \$2.25**

## PATENTED SILVER PLATED AND NICKEL SILVER CONTAINERS

It requires no more effort to keep the new "Arnold" Container, No. 43, spotless and shiny than your finest tableware. The longitudinal ribs of the No. 43 Container give it great stiffness. Made of the best quality 18% drawn nickel silver, silver plated on the outside, satin finish inside. The double bottom is strongly reinforced, making it practically indestructible.

The No. 43 Container is absolutely seamless. This, with the round inside bottom, does away with all crevices wherein dirt might collect. More sanitation.

**4E6856** Container No. 43 only, same as furnished with the "Arnold" No. 16 Mixer. 7 in. high, diam. of base 2 3/4 in., diam. of top 3 3/4 in. Cap'y 28 oz. Shpg. wt. 1 lb.

Each,

**4E6857** Container No. 42 only, same as furnished with the "Arnold" No. 15 Mixer. Same as 4E6856 Container listed above, except silver plated inside only.

Each,

### \$300

### \$225

## WE PAY TRANSPORTATION CHARGES ON DRINK MIXERS

We will prepay transportation charges on all electric drink mixers shown on this page anywhere in the United States east of the Rocky Mountains. **If you order other goods** to be shipped with mixers and remit cash with your order you may deduct the cost of delivery at parcel post rates or we will credit you on your invoice in amount equal to the cost of delivering the mixer separately.

## BE SURE TO SPECIFY VOLTAGE AND CURRENT

The Electric Mixers shown on this page will operate on any 110 volt circuit; either alternating current (A. C.) or direct current (D. C.). If other voltage is required, \$2.00 extra will be charged for special motor winding. 30 days required to fill orders for special motor windings.

## GUARANTEE

We guarantee these mixers to be in perfect operating condition when shipped by us and will replace any that may develop electrical or mechanical defects within a period of 30 days, provided defects are not caused by neglect, abuse or failure to oil. Should any mixer bought from us develop trouble within a period of one year after shipment, return to us, charges prepaid for inspection. Should trouble be due to manufacturing defects, we will make repairs without cost to you. **If due to neglect, abuse or failure to oil, we will make repairs and charge you for the labor and material required. We cannot repair mixers not purchased from us.**

## THE "ARNOLD" AUTO-MATIC No. 15

We Pay Transportation Charges

For those who prefer the rod type mixers the "Arnold" No. 15 offers a splendid value. Sure, one-hand-one-motion convenience, automatic built in stop and start switch, high speed, quick action agitator, and white porcelain enamel base and standard. All wiring and connections of the "Arnold" No. 15 are housed inside the standard, assuring freedom from shocks and shorts. Patented, large capacity, nickel and silver plated containers are especially built to fit the violent-action agitators. Noiseless, perfectly balanced, over-powered motor with over-sized floating bearings, 1/2 in. armature shaft and speed of 14,000 r.p.m. Backed by a broad "make-good" one year guarantee that all "Arnold" No. 15's will operate faultlessly, free from mechanical and electrical defects.

**4E6860 "Arnold" Automatic Mixer, No. 15.** Complete with container No. 42, 6 ft. of cord and plug. Shpg. wt. 16 lbs. **We pay transportation charges. .... Each,**

## A Battery of "ARNOLDS" Are Big Profit Builders

Use the new "Arnold" connector units in laying out your battery. The day is past when it is necessary to clutter the fountain with dangling cords and switches. The handy out-of-sight cord connector system adds greatly to the neatness of your battery of "A nolds." Nothing in sight but the glistening mixers themselves. Each mixer is furnished with special wire connections to hook up "Arnolds" in compact units of two or more mixers. The unit connector is an exclusive "Arnold" feature, duplicated in no other mixer.

# WE PAY TRANSPORTATION CHARGES ON DRINK MIXERS AND FRUIT EXTRACTORS

## THE "GILCHRIST" MIXER

Never Before Has a Drink Mixer So Nearly Approached Perfection or So Nearly Eliminated Drink Mixer Trouble. Never Before Has a Drink Mixer Been So Well Built to Withstand Abuse, or So Skillfully Designed for Continuous Service

*A mixer on which bent and noisy agitators cease to be troublesome; a mixer which because of a flexible, resilient, upright operates practically without vibration; a mixer free from short circuits and other electrical trouble, a mixer with only four parts, any of them replaceable in two minutes time; such is the new Gilchrist.*

**Gilchrist's Mixer Resists Abuse.** Frequently in constant daily usage the agitator shaft of a mixer becomes bent and distorted. This is ruinous to the motor bearings, causing noise and vibration. In the Gilchrist a new type of self-aligning bearing permits the agitator shaft to resist abuse and to adjust itself if accidentally bent, making a mixer remarkably free from the most frequent of all mixer difficulties.

**Freedom from Vibration.** The upright column of the Gilchrist is made and mounted in a flexible and resilient manner. It absorbs the motor vibrations and together with the new style bearings makes a silent-running and long lived mixer.

**Simplicity of Construction.** Everything electrical in the Gilchrist Mixer is contained in the motor unit, which is instantly removable without disconnecting any wires, as a sliding contact carries the current directly from the feed wires into the motor. Shocks and shorts are entirely eliminated.

**Ease of Repair.** The entire mixer never need be sent for repairs. You simply remove the motor and send it only if adjustment or repairs are needed, saving both trouble and transportation expenses.

### ONE-HAND OPERATION—STARTING AND STOPPING PROPERLY TIMED!

**Initial upward movement of container starts the motor.** Agitator gains full speed before entering liquid, thus strain of starting motor under load is eliminated and motor's life is greatly prolonged. Rotation of agitator continues until container is fully lowered, thus cleaning agitator and greatly fluffing up the drink.

**Balanced Motor—Motor Universal type; speed 15,000 R. P. M.** Operates on either alternating or direct current, 105 to 125 volts. Self-cooling container or mixing cup—Each mixer furnished with 7 inch nickel silver mixing cup, with reinforced bottom and rolled edge top.

### TO INSURE CONTINUOUS SERVICE

**A spare motor on hand will give it to you.** You should have a spare motor whether you have one or a battery of mixers. It can be attached by anyone in two minutes and uninterrupted service is maintained.

## **NONIK** Fountain Glassware

The Bulge  
Prolongs the Life  
The Edge Prevents  
Chipping

**Absolutely Prevents  
Chipping!**

**Less Breakage! Lasts Longer!**

"No Nik" Glassware, with the famous shock-absorbing bulge, has become known throughout the world as the greatest improvement made in modern thin blown glassware. Scientific tests conducted by the Mellon Institute have proven it to be the strongest thin blown glassware made. The patented bulge feature, which absorbs all shocks and protects the edge, has demonstrated during ten years of service that it practically doubles the life of the glass.

Ever anxious to give our customers the best we can in any of the lines we carry, we have now further improved "No Nik" glassware with "Safedge"—a reinforcing bead on the edge of the glass which positively prevents chipping from contact with faucets or from direct blows upon a hard surface. This combination of the two great principles—"No Nik" and "Safedge"—produces the strongest and finest line of glassware that can be procured. They last longer and look better and are, therefore, the glasses you should buy.

5% discount in 4 carton lots.

## "NO NIK-Safedge" GLASSWARE Unusually Strong and Durable

"No Nik" Glassware has always been popular for its famous shock absorbing bulge. And since we have improved "No Nik" with **Safedge**—a reinforcing bead on the edge of the glass which positively prevents chipping—it has become the strongest thin blown glassware made. These "No Nik-Safedge" tumblers are used with entire satisfaction by some of the largest soda fountains and drug stores in the country. Made of best quality blown glass finely polished. **We guarantee "No Nik-Safedge" Glassware for 6 months.** See page 27.

#### FACTORY DIRECT SHIPMENTS

Of Soda Fountain Glassware

**BIG SAVINGS**—We want to save you all the money we can so we have arranged with the makers of these goods to ship them to you (barrel lots only), direct from their factories, thereby eliminating all unnecessary handling, office and warehouse expense. You will find by comparison that at these prices you will realize a handsome saving by having them come to you direct from the makers, otherwise you may order any of the items in any quantity you desire, shipped from our stock at the prices specified. Orders will be shipped promptly. No package charges for you to pay. No breakage loss for you to stand.

**NOTICE**—The 5% discount we allow on orders for barrel lots, shipped from our stock does not apply on factory direct shipments.

### SPECIAL COLONIAL TUMBLER

#### For Soda Service

These ice cream soda tumblers are now being used at a great number of the largest high class soda fountains.

Distinctive in design, they carry a touch of refinement not found in soda glasses that must be used with a soda holder. Better quality and finish than others offer in a similar glass. Made of best quality heavy pressed crystal glass. Ground bottom and highly fire polished. Large in appearance for its actual size.

**2E5642** 12 oz. Ht. 5 1/8 in. Doz. **\$1.50**  
5% discount in bbl. of 10 doz. Wt. 160 lbs.

# HANDSOME CRUSHED FRUIT & SUGAR BOWLS

The "Sanitaire" Crushed Fruit Bowl. This is the original "Sanitaire" Fruit Bowl, not to be compared in design, style or quality of glass with the many imitations on the market. Handle of ladle always rests on the glass edge on inside of bowl where it can easily be grasped. All drippings run down through the perforations in ledge, keeping outside of bowl always clean and bright. Ladle can never slip down into fruit. (See sectional view.)

Made of best clear crystal pressed glass. Colonial style. Is as handsome as it is sanitary. Takes 7 in. ladle. Ht. 9 1/2 in. Diam. 8 1/4 in. Cap'y about 2 qts. Wt. not pkd. 5 1/2 lbs.

**2E4115** (Without ladle) Each, **\$1.35**

Sectional View

Tall style Colonial design clear crystal glass bowl for fruit or crackers. Very desirable where economy of room is necessary, as it occupies less space than the low styles. Takes 7 in. ladle.

**2E4121** Cap'y about 2 qts. Ht. 9 1/2 in. Diam. at top 5 1/4 in. Wt. not pkd. each 3 1/4 lbs. . . . Each, **95c**

## SPOON HOLDERS

**2E5632** Colonial style spoon holder. Gracefully shaped. Made of fine quality clear pressed glass. Ht. 4 1/2 in. Wt. not pkd. 12 lbs. Doz. .... **\$3.00**

**2E1730** Colonial style tall spoon holder. Fine quality heavy pressed glass, fine finish, very heavy base, ground and polished. A spoon holder designed to withstand hard everyday wear and tear. Ht. 6 1/2 in. Wt. not pkd. 27 lbs. .... Doz., **\$4.75**

**2E5673** Tall Colonial style spoon holder. Has wide opening at top and will hold a great many spoons. Made of fine quality heavy pressed glass, fine polished all over. Ht. 6 in. Wt. not pkd. 24 lbs. .... Doz. **\$3.25**

## GLASS MIXING BOWLS

**2E6023** 3-piece mixing bowl set, consisting of a 5, 6 and 7 in. bowl. Very handy to have on the Soda Fountain work board. Made of heavy plain glass. Easy to clean. Set comprises 1 each of 5, 6 and 7 in. bowls. Set of 3, **45c**

## "Automatic" Sanitary Crushed Fruit Bowls

2E4143

2E4141

2E4119

We say "automatic" because handle of ladle automatically slides into the hollow of the cover when you put cover on the bowl. Prevents ladle from falling down into fruit. No muss—no sticky fingers. Biggest improvement in crushed fruit bowls. Made in 3 styles of heavy pressed clear crystal glass as shown. Highly fire polished. 8 in. ladle fits all styles.

**2E4143** "Prexy." 2 qt. Ht. 9 1/2 in. Diam. 5 1/2 in. (Without ladle.) Wt. not pkd. 5 lbs.

Each, **85c**

**2E4141** 2 qt. Ht. 9 1/2 in. Diam. 5 1/2 in. (Without ladle.) Wt. not pkd. 6 lbs.

Each, **\$1.00**

**2E4119** 2 qt. Beautiful Grecian Border design. Ht. 9 1/2 in. Diam. 6 1/2 in. (Without ladle.) Wt. not pkd. 5 lbs. .... Each, **\$1.40**

A plain pressed crystal glass bowl with inside glass rim and handle. Impossible for insects to enter when cover is on. Easily cleaned, and made for everyday service. Takes 7 in. ladle. Cap'y, 2 qts. Ht. 9 in. Diam. 9 1/4 in.

**2E4111** (Without ladle). . . Each, **\$1.45**

Handsome pressed crushed fruit bowl. Beautifully designed, made of finest clear crystal glass. Made without a notch, for the ladle rests on the inside rim of the bowl. Takes a 7 in. ladle. Cap'y about 2 qts. Diam. 8 in. Ht. 8 1/2 in. Wt. not pkd. 5 lbs.

**2E4110** . . . . . Each, **80c**

"Prexy", a classy unique covered fruit bowl, beautifully carried out in the narrow Colonial design. A fruit bowl that is sanitary and easy to clean. Made of extra fine quality clear crystal pressed glass, highly fire polished all over. Takes 7 in. ladle. Cover has no notch. Cap'y 2 qts. Diam. 8 in. Ht. 8 in. Wt. not pkd. each 4 1/4 lbs.

**2E4142** . . . . . Each, **75c**

Heavy imitation cut, Colonial style fruit bowl. Made of clear crystal pressed glass. A neat and attractive looking bowl.

**2E4102** Notched for ladle. Cap'y 2 qts. Takes 7 or 8 in. ladle. Ht. 8 1/2 in. Diam. 8 in. Wt. not pkd. each 4 1/4 lbs. Each, **\$1.10**

**2E4116** 6 in. nut or sugar bowl. Same style as No. 2E4102; holds 1 qt. No notch. Ht. 7 in. Wt. not pkd. each 2 1/4 lbs. Each, **55c**

## EXTRALARGE CRUSHED FRUIT BOWLS PRICED VERY LOW

## The New Improved Automatic Confectionery Scales

Price Complete **\$26.25**

Registers Accurately Each and Every Ounce Up to 20 Lbs. Guaranteed to pass inspection in any state. Weighs automatically and has 2 reading dials (one on each side), so that customer as well as dealer can read the weight at the same time. Dials are mounted on high column so that dials are level with the eye, obviating the necessity of stooping down to read the weight. Constructed of heavy steel, finished in oven baked white enamel. Furnished with double-action nickel plated scoop, making it possible to pour equally well from either end of scoop.

4E1876 Weighs to 20 lbs. by ozs. Base 6x17 1/2 in., ht. 17 1/4 in. Shpg. wt. 44 lbs. **\$26.25** Each

## Fairbanks Portable Single Beam Scale

Accuracy up to full capacity is the outstanding feature of these scales. The Arrow-Tip Beam, graduated in 1/2 lbs., is of heavy polished brass and will not bend under hard usage.

The new easy-reading poise does not cast shadows on the figures and shows the weight so plainly that it is impossible to misread it.

These scales are sturdily constructed throughout, which insures lasting accuracy and durability.

They fully meet all specifications and requirements of State and National regulations on weights and measures. Accepted everywhere as the standard.

# HIGH GRADE SODA AND SUNDAE SPOONS

## "ALBERT PICK & COMPANY" BRAND

MADE IN OUR OWN FACTORY

Brings to the soda fountain man that degree of silverware satisfaction which comes to the hotel or restaurant man employing this famous brand of hotel and restaurant silverware. Quality is built into each piece. The base metal is warranted 18% nickel-silver. The blanks (or bodies) are extra heavy, with heavy shanks and reinforced bowls. The silver plating is warranted more than 25% heavier than ordinary A1 quality, and in addition is reinforced by a sectional overlay of pure silver at the points of greatest wear. **Note:** All items starred (\*) have the sectional overlay or reinforcing silver deposit on the base of the bowls.

\*3E125 Sundae Spoon. Round bowl. 5 in. long. Shpg. wt. 16 oz. doz. \$1.75

3E100 Ice Cream Spoon. Pointed bowl. 5½ in. long. Shpg. wt. 16 oz. doz. \$1.75

\*3E123 Parfait Spoon. Pointed bowl. 7 in. long. Shpg. wt. 20 oz. doz. \$3.00

\*3E126 Soda Spoon. "Nu-Oval" bowl. 8 in. long. Shpg. wt. 24 oz. doz. \$3.00

**5% SPECIAL DISCOUNT**

allowed on items on this page bought in 12 dozen lots. We cannot give this discount on assorted orders for, say, 6 dozen soda spoons and 6 dozen sundae spoons. A full 12 dozen of one number must be ordered for shipment at one time.

## "COLONIAL" PATTERN

MADE IN OUR OWN FACTORY

An exclusive medium priced pattern, developed with a view of giving the refreshment parlor owner an opportunity to equip his place with a distinctive design of silverware. These spoons have unusual wearing ability because of their heavy blanks and heavy silver plating. The blanks are made of 18% nickel-silver. The plating is guaranteed to be "extra plate" quality, 25% better than standard A1 plate. Bright finish, easy to keep clean. Both in quality and design, this pattern is one of the best that is used in the ultra-modern soda parlor.

3E3875 Sundae Spoon. Round bowl. 5 in. long. Shpg. wt. 16 oz. doz. \$2.90

3E3850 Sundae or Ice Cream Spoon. Pointed bowl. 5½ in. long. Shpg. wt. 18 oz. doz. \$3.00

3E3864 Parfait or Iced Tea Spoon. Pointed bowl. 7 in. long. Shpg. wt. 2½ oz. doz. \$4.15

3E3876 Soda Spoon. "Nu-Oval" bowl. 8 in. long. Shpg. wt. 30 oz. doz. \$4.15

## "PORTIA" PATTERN

Formerly Pix "New Model" Pattern

MADE IN OUR OWN FACTORY

This is a distinctive pattern which will meet the exacting requirements of the higher grade fountains, although it is priced low enough to be practical for any fountain. The pattern is plain and simple, making the spoons very easy to keep clean as well as neat in appearance. The base metal is of the highest grade 18% nickel-silver, exceptionally heavy, with reinforced blanks. The silver plating is warranted more than 25% heavier than A1 quality.

3E1025 Sundae Spoon. Round bowl. 5 in. long. Shpg. wt. 16 oz. doz. \$2.10

3E1029 Ice Cream Spoon. Pointed bowl. 5½ in. long. Shpg. wt. 16 oz. doz. \$2.10

3E1023 Parfait Spoon. Pointed bowl. 7 in. long. Shpg. wt. 20 oz. doz. \$3.50

3E1026 Soda Spoon. "Nu-Oval" bowl. 8 in. long. Shpg. wt. 24 oz. doz. \$3.50

**SPECIAL DISCOUNT 5%**

## "KENILWORTH" HAMMERED PATTERN

MADE IN OUR OWN FACTORY

This beautiful hammered pattern is a modern modification of the hand hammered silverware of olden days. The graceful, "easy-to-keep-clean" lines, and beautiful finish give it a tone of quality found only in silverware of the highest grade, yet this pattern is priced low enough to be within reach of any establishment. Made on heavy weight blanks of best grade nickel-silver (containing not less than 18% nickel), silver plated in Extra or 5 Ounce Plate (25% heavier than regular A1 plate.)

**NOTE**—See page 46 for Hammered Soda Service to match.

3E725 Sundae Spoon. Round bowl. 5 in. long. Shpg. wt. 16 oz. doz. \$2.65

3E700 Ice Cream Spoon. Pointed bowl. 5½ in. long. Shpg. wt. 16 oz. doz. \$2.65

3E714 Parfait or Iced Tea Spoon. Pointed bowl. 7½ in. long. Shpg. wt. 20 oz. doz. \$4.00

3E726 Soda Spoon. "Nu-Oval" bowl. 8 in. long. Shpg. wt. 24 oz. doz. \$4.00

# Save Money!—Buy PIX “EXCEL” BRAND SODA AND SUNDAE SPOONS

This is your opportunity for a great saving if you need Sundae or Soda Spoons. The famous Pix “Excel” Sundae and Soda Spoons are here priced to you as low as most manufacturers charge the large wholesale dealer. You certainly will do no better from any other source or at any other time this year. These are all high grade spoons, silver plated on full 18% nickel-silver blanks. Do not confuse them with the inferior brass goods that may be offered you at about the same price. We do not handle brass base spoons because at best they give only a few months' wear before turning brassy and unsightly, and must then be thrown away.

## These Spoons Are Silver Plated Guaranteed 18% Nickel-Silver Base

All Soda and Sundae Spoons shown in this catalog are guaranteed to be silver plated on 18% nickel-silver base. They will not turn brassy or discolor and will give absolute satisfaction.

# SILVER SODA HOLDERS AND TUMBLERS, ETC.

ADJUSTABLE SODA HOLDER  
Nickel Plated

For use with 6 oz. straight mineral glasses, 6 to 11 oz. straight blown tumblers, 8 to 14 oz. bell blown, 9 to 14 oz. heavy taper and 12 oz. heavy bell glasses. Made of brass, nickel plated. Raised points on upper side of base, making glass rest evenly. Shpg. wt. doz. 3½ lbs.

**3E2362.....Doz. \$6.00**

SKELETON SODA HOLDER  
Silver Plated

A neat and practical design that shows the beverages being served to good advantage. Made of heavy Britannia metal, heavily silver plated. A low priced holder that will give excellent service. Fits 8, 10 and 12 oz. bell or "No Nik—Safedge" soda glasses. Shpg. wt. 5 lbs.

**3E2415.....Doz. \$8.50**

## "OUR SPECIAL" SODA HOLDER

Silver Plated on Nickel-Silver Body

Strength, durability and cleanliness are three big features of "OUR SPECIAL" Soda Glass Holder, that—combined with the unusual special low price—make it the all-around

favorite of the discriminating buyer—a best seller. It is made of tough nickel-silver, drawn (not spun) to shape. Both base and top are strongly reinforced, the base broad to prevent tipping.

The large handle is made from special composition metal, strong and warranted not to break or come loose. Silver plating, guaranteed not to peel or blister. Lustrous Butler finish, easily kept bright and clean. Plated and finished in our own shop under careful supervision. "OUR SPECIAL" Holder is sold at a price lower than other manufacturers usually charge the wholesale dealer. An offer of real merit and exceptional value. Fits 8, 10 and 12 oz. bell and "No Nik—Safedge" soda glasses.

**3E2418 Shpg. wt. 5 lbs. per doz.....Doz. \$9.65**

OUR IMPROVED SODA HOLDER  
Silver Plated on Nickel Silver Body

Same style as our famous No. 3E2418, described at left, but with a different style handle and heavier silver plating. Body is of heavy nickel-silver, noted for its durability. Serviceable and attractive. Fits 8, 10 and 12 oz. bell or "No Nik—Safedge" soda glasses. Shpg. wt. doz. 5 lbs.

**3E2479.....Doz. \$13.50**

PLAIN DESIGN SODA HOLDER

A skeleton or paneled holder designed for beauty and service. Made throughout of 18% nickel silver, heavily silver plated. Handle silver soldered to body. Fits 8, 10 and 12 oz. bell and "No Nik—Safedge" soda glasses. Shpg. wt. doz. 5 lbs.

**3E2522.....Doz. \$16.90**

## HAMMERED DESIGN SILVER SERVICE COMPLETE FOR THE FOUNTAIN

PARFAIT  
SERVICE

TULIP OR FANCY  
SUNDAE DISH

**3E2527** Ht. 5 in. Cap'y of bowl 5 oz. Shpg. wt. doz. 8 lbs. **\$39.00**

~ The Combining of Two Famous Brands of Silverware ~

# "ACORN-COOPER" Brand SILVERWARE

Formerly PIX "ACORN" BRAND and BARTH'S "COOPER" BRAND  
IDENTICALLY THE SAME IN QUALITY AND DESIGN

## DURABLE SILVER PLATE ON 18% NICKEL SILVER BASE

The Best Wearing, Low Priced Silver Plated Flatware on Today's Market!

Millions of pieces of this brand of silverware have been bought by the customers of Albert Pick & Company as ACORN BRAND and by the customers of L. Barth & Company as COOPER BRAND. The wonderful value these customers received for their money is best demonstrated by the large number who send in repeat orders again and again.

Due to the merger of Albert Pick & Company and L. Barth & Company, we are combining the two brands, which were identically the same in quality and design, under the name of "ACORN-COOPER" Brand Silverware. This silverware is guaranteed to be durably silver plated on a white metal base that is made of the best grade of 18% nickel silver, and is additionally guaranteed against blistering or any other defect.

This is a good time to discard worn out pieces and replace them with ACORN-COOPER Brand at a great saving in cost. Send us your order today.

# ALBERT PICK & COMPANY BRAND SILVERWARE

## AMERICA'S PREMIER RESTAURANT SILVERWARE

We recommend this silverware as the grade which will give the most satisfactory service for all practical purposes. Where silverware of a plain pattern and durable wearing quality is wanted, certainly no better buy can be made. This brand of silverware has for years been the standard among restaurants and other public service establishments. The blanks are extra heavy, made of the highest grade 18% nickel-silver, except the knife blanks which are of the best quality highly tempered steel. Shanks and fork tines are reinforced. Extra plate quality silver plating with reinforced silver deposit at the wearing points—the backs of the bowls and handles.

**Note:** All items starred (★) have the sectional overlay or reinforcing silver deposit on the base of the bowls or tines.

## Three Popular Priced Silverware Patterns

The patterns offered here have been leaders in their particular class for years and have built up a reputation for satisfactory wear. If your requirements demand the use of moderately priced silverware, these patterns will bring you satisfaction in every piece. Unquestionably the best buys on the market for the prices quoted.

### "Alton" Pattern

A quality of design and weight superior to that ordinarily found in a pattern of silver at this price. It is designed, like our other patterns, for Public Service. The design is simple and easy to keep clean. Spoons and forks are made on substantial 18% nickel-silver blanks and knives of good quality cutlery steel. The silver plating is durable, of medium quality, and finished in lustrous Butler finish.

**Note:** All items starred (★) have the sectional overlay or reinforcing silver deposit on the base of the bowls or tines.

### "Sherman" Pattern

One of our latest designs. It is a distinctive and exclusive pattern that will add dignity to any service without a greater expenditure than would be called for by perfectly plain ware of equal quality. Spoons and forks have blanks of 18% nickel-silver and are plated in extra plate quality, 25% heavier than A1 plate. The knives are made on best cutlery steel blanks and are silver plated full 12 dwt. to the dozen. All finished in lustrous Butler finish.

### "Kenilworth" Pattern

A pattern coming into wide use in tea rooms and luncheonettes, the design and graceful lines proving very popular. Design is a modification of the old hand hammered design. Blanks are extra heavy hotel weight, made of best grade nickel-silver (containing not less than 18% nickel). The silver plating is Extra Sectional, or 5 oz. Plate Quality, 25% heavier than A1 Plate. The points of greatest wear are reinforced by an overlay of pure silver. Knives are of best cutlery steel, plated full 16 dwt. to the dozen. Finished in lustrous Butler finish.

**NO CHARGE FOR STAMPING NAME ON FLATWARE PURCHASED OF US**

If we have never stamped silverware for you, we make a nominal charge on first order to cover the cost of a steel die. Charges for dies as follows:  
 3E98 Block Letter Die. Five letters or less in name.....\$3.00 3E99 Script Letter Die. Five letters or less in name.....\$4.00  
 (Extra charge of 50c for each additional letter.) (Extra charge of 75c for each additional letter.)  
 Prices for old English letters, monograms, crests, etc., on application. 4 days to make die and stamp silverware. If we have die, orders stamped and shipped within 48 hours.

# GILCHRIST'S FAMOUS ICE CREAM DISHERS

**OUR GUARANTEE:** If for any reason whatever one of these dishers should not give perfect satisfaction, mail it back and we will refund full purchase price, including postage.

No clogging, no lost motion, and no waste of time when you use the sanitary, easy to keep clean Gilchrist Automatic Dishers. They combine speed, simplicity, durability, and are economical to operate. The favorite with all soda fountain men.

## GILCHRIST'S AUTOMATIC WOOD HANDLE DISHER

The style which made the reputation of the Gilchrist Disher. Used in nearly all soda fountains.

Rapid, accurate, easy to operate, solidly constructed, and not likely to get out of order. Mechanical parts are positive in action and deliver a beautiful portion of cream without breaks. A slight pressure of thumb upon lever produces instant delivery. No exposed springs; they are entirely concealed so as to avoid injury, but new spring may be instantly inserted if necessary. Frame of bronze metal, nickel plated and polished, hardwood handle. Bowl and scraper of nickel-silver to prevent corrosion or contamination. Can be taken apart and put together quickly without tools. Made in following sizes: 6, 8, 10, 12, 16, 20, 24, 30 or 40 to quart. See list below for correct sizes for various services. Shpg. wt. about 3/4 lb.

	Each
4E6915 6 to qt.	\$1.75
4E6916 8 to qt.	
4E6917 10 to qt.	
4E6918 12 to qt.

4E6926—Spring clip, each, 9c.	4E6930—Wood handle, each, 6c.
4E6927—Wood handle screw, each, 6c.	

## HOW TO ORDER GILCHRIST ICE CREAM DISHERS

Do not order Ice Cream Dishers by guesswork. Select the style and size in accordance with the amount of profit you desire to make on ice cream. For instance: If you charge 5c for cones and order a "30 to quart" disher to fill them with, you know that every gallon (4 quarts) of ice cream will fill approximately 120 cones, bringing you \$6.00. If you sell ice cream soda at 10c, and order a "12 to quart" disher, each gallon of ice cream will serve approximately 48 sodas, bringing you \$4.80. Think of how much money you want each gallon of cream to bring before you order a disher.

### REPLACING DISHERS

Many customers wish to replace their dishers, but do not recall the size to order. The size is usually stamped on the scraper. If you cannot find it there, following is a table of dimensions of the bowls (inside measurement). Measure your present dishers and compare with this list, in order to assure receiving the correct size.

### ROUND BOWL DISHERS

Wood Handle	Width of Bowl (A to B)	Depth of Bowl (C to D)	Size of Disher
4E6915	3 in.	1 1/4 in.	6 to qt.
4E6916	3 1/2 in.	1 3/4 in.	8 to qt.
4E6917	4 in.	1 3/4 in.	10 to qt.
4E6918	4 1/2 in.	1 3/4 in.	12 to qt.
4E6919	5 in.	1 3/4 in.	16 to qt.
4E6920	5 1/2 in.	1 3/4 in.	20 to qt.
4E6921	6 in.	1 3/4 in.	24 to qt.
4E6922	6 1/2 in.	1 3/4 in.	30 to qt.
4E6923	7 in.	1 3/4 in.	40 to qt.

### PYRAMID BOWL DISHERS

	Width of Bowl (E to F)	Depth of Bowl (G to H)	Size of Disher
4E6935	3 in.	2 1/4 in.	6 to qt.
4E6936	3 1/2 in.	2 1/4 in.	8 to qt.
4E6937	4 in.	2 1/4 in.	10 to qt.
4E6938	4 1/2 in.	2 1/4 in.	12 to qt.
4E6939	5 in.	2 1/4 in.	16 to qt.
4E6940	5 1/2 in.	2 1/4 in.	20 to qt.

## SIZES OF DISHERS TO USE FOR VARIOUS SERVICES

The size disher that you select must depend upon character of your trade and cost of your ice cream. Sizes commonly used, however, are as follows:

### REGULATION SERVICE

6 or 8 to qt.—20c Plate and Sundae Service.  
10, 12 or 16 to qt.—15c Ice Cream Soda 12 to qt.—15c Plate Service.  
20 to qt.—10c Plate and Soda Service.  
24, 30 or 40 to qt.—Cone Service.

### HIGH CLASS FOUNTAIN SERVICE

6 or 8 qt.—25c Plate and Sundae Service.  
10 or 12 to qt.—20c Sundae Service.  
12 to qt.—15c Ice Cream Soda.

## RETINNED DISHER

**50c** and up

A low priced good quality disher that will give long and satisfactory service. Handle is electrically welded to the bowl and cannot come off. Reliable in operation. Bowl is made of steel, retinned inside and out. Comes in the following sizes: 4, 6, 8, 10, 12, 16 and 20 to the quart. State size wanted. Wt. not pkd. 6 oz.

	Each		Each
4E6925 4 to qt.	\$0.80	4E6929 12 to qt.	\$0.60
4E6926 6 to qt.	.75	4E6930 16 to qt.	.55
4E6927 8 to qt.	.70	4E6931 20 to qt.	.50
4E6928 10 to qt.	.65		

## GILCHRIST'S AUTOMATIC ALL-METAL DISHER

### THE FASTEST DISHER EVER PRODUCED

Simple mechanism, accurate action. A ratchet device turns knife in bowl at the slightest pressure. Handle and working parts of bronze metal, richly nickel plated and polished. Fits hand snugly, affording firm grip. Bowl and scraper made of nickel-silver. No aluminum parts to turn black. Can be taken apart and put together quickly without tools. Easy to keep clean and sanitary. No corners to retain cream or collect filth. Made in the following sizes: 6, 8, 10, 12, 16, 20 or 30 to quart. See list at left for correct sizes for various services. Shpg. wt. about 1 lb.

4E6900 6 to qt.	4E6904 16 to qt.	Each	\$1.95
4E6901 8 to qt.	4E6905 20 to qt.		
4E6902 10 to qt.	4E6906 24 to qt.

4E6943 Thumb piece and rack, each, 45c.	

## GILCHRIST ECONOMICAL DISHER SCRAPER

Stop losing valuable time leveling off SAVES 20% USELESS WASTE

the disher—perhaps taking away too much cream and having to fill disher again. Save time. Save money.

Use the handiest disher scraper on the market—Gilchrist—the scraper that is attached directly to the edge of ice cream can. The cream will not freeze to the wire, will not clog, and as it is all made of highly polished nickel-silver it will always retain a neat appearance. If the Scraper wire ever wears out, it can easily be replaced. Shpg. wt. 13 oz.

4E6948 Complete with clamp. Shpg. wt. 13 oz.	Each, 50c
4E6949 Extra wires	Each, 15c

## A PRACTICAL DISHER FOR ICE CREAM SANDWICHES AND PIE A LA MODE

Adjustable To  
3 Sizes—16, 18,  
20 to a Quart

**\$3.25**

Adjustable to 3 sizes

For Pie a la Mode

For Ice Cream Sandwiches

A new perfected Ice Cream Disher that molds flat pieces from tub ice cream. Dips into ice cream in the same manner as ordinary ball or cone shaped disher. Adjustable to 3 sizes: 16, 18, or 20 portions to the quart. This new sandwich and pie a la mode disher means less waste—more sales—greater profits. Substantially constructed, all working parts quickly removed for easy cleaning. Made of 18% nickel-silver throughout. Guaranteed to never rust or corrode.

4E6815 Wt. not pkd. 1 lb. 3 oz. Each, **\$3.25**

# Ice Cream Dishing Spoons, Shakers, Strainers

## ICE CREAM PAIL FORMS

**75c**  
and up

A great improvement over the old galvanized iron style that became rusty and unsightly after being in use a short time. You lose part of your profits when you fail to use our ice cream pail forms. Ordinarily when you fill a paper pail the sides bulge out, and thus you deliver more ice cream than is paid for. These forms prevent the bulging and the tearing of pails. The saving will quickly pay for the cost of the forms. Forms are made of 18% nickel-silver without bottoms so that pails can be easily removed.

Made to fit Pails of sizes below: Each Fits Wt. not pkd.

4E6800	1/2 pt. pail.	9 oz.	\$0.75
4E6801	1 pt. pail.	11 oz.	.80
4E6802	1 qt. pail.	12 oz.	1.25
4E6803	1/2 gal. pail.	18 oz.	1.60

## WOOD HANDLE RETINNED DISHING SPOONS

An extremely low priced and practical spoon for ice cream manufacturers. Its deep scoop shape enables you to do quick work. Bowl is made of steel, heavily retinned and very substantial. Heavy shank inserted in good wood handle, firmly secured by a rivet passing through entire handle.

4E6818	Length 10 in.	Wt. not pkd. 6 oz.	Each, 45c
4E6819	Length 12 in.	Wt. not pkd. 7 oz.	Each, 50c
4E6820	Length 14 in.	Wt. not pkd. 8 oz.	Each, 55c

## TINNED STEEL TRANSFER LADLE

An exceptionally durable article, built for long usage and for quickly transferring ice cream. Used to transfer ice cream from one can to another. Made of good steel, heavily tinned. Bowl is securely riveted to a handsome hardwood handle. Bowl 5 1/4 x 5 1/4 in., handle 5 1/4 in. Wt. not pkd. 1 lb.

4E6822.....Each, 75c

## AUTOMATIC SELF-ADJUSTING BOTTLE STOPPER

Keeps bottles containing charged water air-tight. Self-adjustable, may be used in any size bottle. Simply press down the pin; rubber is elongated and stopper may be easily inserted or removed. Made of pure rubber with nickel plated mountings. Wt. not pkd. 2 oz.

4E6837	Small size for pint bottles.....	Each, 20c
	(Doz. \$2.25)	
4E6838	Large size for quart bottles etc. Wt. not pkd. 2 oz.	Each, 20c
	(Doz. \$2.25)	

## PLAIN COMBINATION OPENER

Has blade for removing crowns from bottles and spur for lifting loop seals. The handle is pierced so that the opener may be carried on key ring if desired. Made of iron copper plated. Length 2 1/4 in. Wt. not pkd. 1 oz.

4E6840.....(Gros. \$1.75) Doz. 18c

## STATIONARY CROWN OPENER

Can be attached to edge of table, shelf or under counter, takes up little or no space. Slip the neck of the bottle into the opener and a jerk removes the crown. Made of cast steel. Wt. not pkd. 2 oz. each.

4E6841.....(Doz. 75c) Each, 7c

## NEW IMPROVED ALL-METAL DISHING SPOON

The curved handle and spade bowl of this New Improved All-Metal Dishing Spoon makes it easy to reach into the can to get the cream and easy to remove the cream off the inside of the can without scraping knuckles. Quickly dishes the hardest cream into paper pails or containers. The New Improved Dishing Spoon is cast in one solid piece, heavily nickel-silvered and highly polished. Will not tarnish or rust. Will always look bright, clean and sanitary, no matter how hard or frequently used. End of handle has opening which permits spoon to hang on wall or side of fountain when not in use. Length overall 11 1/2 in. Wt. not pkd. 12 oz.

Note curved handle making it easy to get into can

4E6810	New Improved All-Metal Dishing Spoon.	Each, \$1.75
4E6812	Dishing Spoon, as above, but with Wooden Handle.	Each
4E6813	Length overall 10 in. Wt. not pkd. 7 oz.	\$1.20
	Length overall 14 in. Wt. not pkd. 8 oz.	

## "KRASKEY" SANITARY DRINK SHAKERS OR MIXING CUPS

Pat. Apr. 15, 1919

Showing Reinforced Construction

are heavier than the ordinary shaker, yet are pliable and springy.

NOTE: 6 in. and 7 in. Shakers can be used with any Electric Drink Mixer.

4E6843	6 in. high, diam. at base 2 1/2 in., diam. at top 3 1/4 in. Cap'y 22 oz. Shpg. wt. 1 lb.	Each, \$1.25
4E6844	7 in. high, diam. at base 2 1/2 in., diam. at top 4 in. Cap'y 28 oz. Shpg. wt. 1 lb.	Each, \$1.40
4E6857	(For use with 4E6800 Arnold Mixer.) 7 in. high, diam. at base 2 1/4 in., diam. at top 3 1/4 in. Shpg. wt. 1 lb.	Each, \$2.25
3E4108	Same size as 4E6843, but made of finest 18% nickel-silver, quadruple silver plated inside and outside and highly burnished. The finest shaker made. Shpg. wt. 1 lb.	Each, \$4.40

## "KRASKEY" COMBINATION SHAKER AND STRAINER

Mixes, shakes, strains and pours from the same vessel. After shaking the cap is removed and contents poured out through the strainer fitted in the top. Same construction as other "Kraskey" shakers. Made of best quality heavy brass heavily nickel plated outside and silver plated inside, with heavy reinforced bottom. Fitted inside with egg and ice breaker. Ht. 8 1/2 in. Diam. at base 2 1/4 in. Diam. at top 3 1/4 in.

4E6848 Shpg. wt. 1 1/2 lbs. Each, \$2.25

## ALUMINUM COMBI- NATION SHAKER AND STRAINER

Strong, clean and convenient. Consists of 3 parts: body, strainer top, and cap, all strongly made of aluminum. Contents of shaker may be strained through the top by removing the cap. No mixing glass necessary. 7 1/4 in. tall, 3 1/4 in. diam. at widest part, 2 1/2 in. across bottom. Wt. not pkd. 5 oz.

4E6846.....Each, 75c

## "EUREKA" SHAKER

Durable construction, yet light in weight. Can be cleaned very easily. Meets the requirements of smaller soda fountains for mixing drinks. Made entirely of aluminum. Ht. 6 in. Diam. at top 3 1/4 in. 2 1/4 in. at bottom. Wt. not pkd. 4 oz.

4E6847.....Each, 40c

## CALIFORNIA FLORIDA

FREE WITH EACH MACHINE: A Stainless Steel Utility Fruit Knife, 5 1/2 in. Blade; Together With Oblong Fruit Cutting Board.

50% more juice from grapefruit, oranges and lemons. Extracts twice as fast as motor driven machines or old style devices. Aluminum funnel bowl, with removable aluminum strainer segregates pulp and seeds, delivering only clear juice. Cast aluminum reamers for grapefruit, oranges and lemons. Patented grapefruit reamer with hollow center leaves core intact and prevents bitter cells being broken. Frame made of cast aluminum. Reamers of highly polished aluminum; can be removed or exchanged instantly. With this machine a half grapefruit out of a case of 76 gives 4 oz. of juice; one orange out of a case of 150

Florida oranges gives from 4 to 6 oz.; making average amount of juice extracted 4 oz. Used and recommended by Lexington Hotel, Chicago; Clark's Restaurant, Chicago; Blackstone Hotel, Chicago; Drake Hotel, Chicago. Ht. overall 13 in.; diam. of funnel bowl 6 in. Wt. 4 lbs.

4E6540 Extractor complete with reamers for grapefruit, oranges, lemons.....Each, \$12.50

## THE "WHIRLPOOL" HAND-POWER MIXER

Beats eggs, whips cream and dressings and mixes drinks of all kinds easily, thoroughly and economically. Made of highly polished aluminum. Ht. 11 in. Base 3 in. in diam. Take off top, remove flanged plunger, and place ingredients in metal container. Replace plunger and top, and by moving plunger up and down, you create a swirl in the container that mixes with all the power and vitality of a miniature whirlpool. The flanged plunger also acts as a strainer.

4E6855 Shpg. wt. 1 1/2 lbs.

Each, \$2.75

## "CRYSTAL" SYRUP PERCOLATOR

Syrup making is a simple matter, will take very little of your time and provides simple syrup at the actual cost of the ingredients. Fill upper compartment with sugar, and syrup strains through into lower compartment. No heat required. No stirring. Seven pounds of sugar make a gallon of syrup, ready to draw off at the faucet.

Made in two sections, of heavy galvanized iron with cleanly baked-on white enamel finish.

The upper or sugar compartment, rests into the lower syrup storage tank. The strainer through which the syrup percolates is of non-rusting metal securely fastened to body. The syrup may be drawn off through a rapid-flow faucet supplied with each percolator. These percolators produce a simple syrup from molasses more than sugar and water, by a cold percolation process, without boiling, measuring or bother. Save freight and profit on syrup. Full directions with each.

4E6805 Produces about 5 gals. syrup daily. Ht. 27 in. Diam. 10 1/2 in. Shpg. wt. 12 lbs.

Each, \$6.60

4E6806 Produces about 10 gals. syrup daily. Ht. 33 in. Diam. 14 in. Shpg. wt. 17 lbs.

Each, \$9.00

4E6807 Produces about 20 gals. syrup daily. Ht. 43 in. Diam. 17 in. Shpg. wt. 50 lbs.

Each, \$15.95

## LINDLEY PATENT STRAINER

The most popular and universally used strainer made. The mesh stops everything but the liquid. Easy to clean, convenient to handle. Made of nickel-silver, heavily silver plated.

4E6850 Shpg. wt. 3 oz. Each, 80c

## "HANDY" STRAINER

Note the hooks—they prevent slipping. Made of nickel-silver, quadruple silver plated, cannot corrode. Favored by dispensers everywhere.

4E6852 Regulation size for mixing glasses. Width 3 1/4 in. Shpg. wt. 4 oz. Each, \$1.50

4E6853 Special size to use with metal shakers. Width 3 1/4 in. Shpg. wt. 4 oz. Ea. \$1.75

## "HOLDFAST" TOWEL HOLDER

Towel is held with a bull dog grip that never tears. Can be fastened to wall, workboard or counter. Made of steel, nickel plated. Length 4 in. Wt. not pkd. 1 oz.

4E6833.....(Doz. 95c) Each, 10c

## HAND POWER CORK PULLER

Made of crucible steel, nickel plated with hard maple handle. Self-puller type. Has a combination wire breaker, seal lifter and crown opener attachment. Length 6 in. Wt. not pkd. 8 oz.

4E6835.....Each, 45c (Doz. \$4.75)

### SILVER CREAM JUG

Improved process of manufacture enables us to produce this jug at a ridiculously low price. Heavily silver plated on substantial 18% nickel-silver body. Cap'y 1 oz.

**3E5139** Shpg. wt. doz. 1 1/2 lbs. Doz. **\$8.25**

### SILVERPLATED BUTTERCHIPS

**Use These and End Breakage.** Indestructible, made on 18% nickel-silver base, durably silver-plated. Will not wear brassy.

**3E5132** Diam. 2 3/4 in. Shpg. wt. doz. 1 lb. (Gross, \$15.95) Doz. **\$1.40**

## "EXCEL" SILVER PLATED CRUSHED FRUIT LADLES

**Standard Measure**  
The bowls of all sizes have the same capacity—exactly 1 1/2 oz. This is the standard measure—the amount of crushed fruit most dispensers serve with a soda or sundae. Made with 18% nickel-silver bodies, durably silver plated, highly polished. We recommend these practical long-wearing crushed fruit ladles. Easily kept clean.

**3E1383** Length 7 in. Shpg. wt. 4 oz. Each, **85c**

**3E1384** Length 8 in. Shpg. wt. 4 oz. Each, **95c**

**3E1385** Length 10 in. Shpg. wt. 8 oz. Each, **\$1.45**

**3E1386** Length 12 in. Shpg. wt. 16 oz. Each, **\$2.50**

## SILVER PLATED CRUSHED FRUIT BOWL LADLES

**THE "PEARL" LADLE**  
A low-priced fruit bowl ladle which is good size, good weight and neatly finished. A serviceable ladle for the money. Just the right size for soda fountain use. The durable brass base is first heavily nickel plated, then silver plated. Cap'y of bowl 1 oz. Shpg. wt. 4 oz.

**3E1350** Length 7 in. Each, **30c**

### "PORTIA" LADLES

Neat and distinctive design, will withstand hard usage and will give exceptional service. Easily kept clean. Base metal is the hardest, strongest 18% nickel-silver, exceptionally heavy. The silver plating is guaranteed to be 25% better than finest A1 plating.

**3E1011** 7 in. long, plain round bowl. Cap'y of bowl 1 oz. Shpg. wt. 8 oz. Each, **\$1.00**

(Doz. \$10.80) Each, **\$1.00**

**3E1012** 8 in. long, fluted bowl. Cap'y of bowl 1 1/2 oz. Shpg. wt. 12 oz. (Doz. \$14.50) Each, **\$1.35**

**3E1013** 10 in. long, fluted bowl. Cap'y of bowl 2 1/2 oz. Shpg. wt. 16 oz. (Doz. \$18.00) Each, **\$1.65**

**3E1014** 12 in. long, fluted bowl. Cap'y of bowl 3 1/2 oz. Shpg. wt. 20 oz. (Doz. \$22.00) Each, **\$1.95**

**3E1015** 14 in. long, fluted bowl. Cap'y of bowl 4 1/2 oz. Shpg. wt. 24 oz. (Doz. \$26.00) Each, **\$2.25**

**3E1016** 16 in. long, fluted bowl. Cap'y of bowl 5 1/2 oz. Shpg. wt. 28 oz. (Doz. \$30.00) Each, **\$2.55**

**3E1017** 18 in. long, fluted bowl. Cap'y of bowl 6 1/2 oz. Shpg. wt. 32 oz. (Doz. \$34.00) Each, **\$2.85**

**3E1838** Large size. Ht. 7 in. Shpg. wt. doz. 4 lbs. (Each, 45c) Doz. **\$4.75**

## CARD AND TICKET HOLDER

**3E5197-96**  
pkd. per doz. 6 lbs.

Convenient for announcing special prices, holding menus, table numbers, etc. Nickel plated and polished. No. **3E5196** 4 in. high, 2 in. base. Wt. not pkd. per doz. 1 lb. Doz. **\$2.50** (Each, 25c)

**3E5197** 8 in. high, 3 in. base. Wt. not pkd. per doz. 6 lbs. (Each, 30c) Doz. **\$3.00**

## MENU HOLDER

A neatly designed holder for menus, display cards, etc. Holds card up in readable position. Very strongly constructed, all parts riveted together. Heavily nickel plated and highly polished. Base 2 in. square, stand 4 in. high. Shpg. wt. per doz. 3 lbs.

**3E1829**  
Doz. **\$3.75**  
(Each, 35c)

## SILVER PLATED MENU HOLDER

This attractively designed menu holder makes an unusually neat table ornament as well as keeping the menu clean and out of the way. It is made of high grade cast Britannia metal, silver plated. The solid casting makes it heavy enough to keep its position on the table without tipping over. Holds any size card. Ht. 2 in. Width of base 2¼ in. Shpg. wt. 5 oz.

**3E1836** Doz. **\$8.75**  
(E h, 75c)

## CARD OR TICKET HOLDER

**3E1830**

An inexpensive price card or small ticket holder. Strongly constructed, nicely nickel plated and polished. Does not allow card to shift from one side to other. Ht. 2 in. Base 1½ in. in diam. Shpg. wt. per doz. 1 lb.

Each, 15c  
(Doz. \$1.65)

We Show Here Only A Very Small Part Of Our Comprehensive Line Of Merchandise. If You Do Not Find What You Want Here Write Us Fully Your Needs—We Will Be Glad To Furnish You Full Information.

## "PERFECTION" MENU HOLDERS

The Popular "Perfection" Used Everywhere

One of the most popular menu card holders ever marketed. The hundreds of establishments now using it testify to this. Plain in design, practical and of strong construction. Will hold one or two menu cards. Base weighted to prevent tipping. Carefully made in our own factory and warranted to give satisfaction. Choice of three finishes, as stated below. Shpg. wt. doz. 5½ lbs.

**3E1833** Oxidized finish... Each, 45c  
(Doz. \$5.00)

**3E1834** Nickel plated... Each, 45c  
(Doz. \$5.00)

**3E1835** Silver plated... Each, 55c  
(Doz. \$6.00)

## 5 IN. HIGH CARD HOLDER

Will hold any size card. Made of steel, all parts strongly riveted together. Base is 2¼ in. in diam. Finished in statutory bronze. Ht. 5 in. Shpg. wt. per doz. 1½ lbs.

**3E5200**  
(Each, 45c) Doz. **\$4.75**

## 7 IN. HIGH CARD HOLDER

For use on tables to hold "Reserved" signs or for waiters' numbers. Substantially constructed and neat in appearance. Base is 2¼ in. in diam. Made of stamped steel. Finished in statutory bronze. Ht. 7 in. Shpg. wt. doz. 2 lbs.

**3E5201**  
(Each, 50c) Doz. **\$5.50**

## 9 IN. HIGH CARD HOLDER

A tall card holder liked by many because it puts the card above the food on the table. It is 9 in. high and has a cast base 3¼ in. in diam. Finished in statutory bronze. Very neatly and strongly constructed. Holds cards 4¼ in. or wider. Shpg. wt. per doz. 4 lbs.

**3E5202**  
Doz. **\$8.00**  
(Each, 75c)

**4E3149** Cap'y 10 gal. Ht. 30 in. Diam. of base 17½ in. Shpg. wt. 48 lbs. Each, **\$6.75**

## LITTLE BROWN COOLER

### Keeps Liquids Cold

For restaurants, hotels offices and stores. Lined made of non-vitreous earthenware, heavily insulated, sealed in a steel jacket and seal-packed. Keeps water cooler and fresher than when constructed of glass. Will retain ice 48 hours. Scalding out with hot water will not cause injury or breakage. Has 3 in. opening which allows your hand to pass inside for washing. A valve in the stopper automatically allows air to take the place of the water when drawn out. The 5 gal. size takes only 12 lbs. of ice a day. About 10 gal. of water may be run through to one filling of ice. The 2 gal. size is provided with a bail handle for carrying. Six pounds of ice placed in water will last about 24 hours. Both sizes equipped with detachable drinking cup. Shipped from factory in Central Illinois.

# LEMON SQUEEZERS, FRUIT KNIVES, TRAYS

## GLASS ORANGE

### JUICE EXTRACTOR

Made of extra heavy glass, fluted cone. Juice flows into receptacle at bottom and is poured through lip. Diam. 6 in. Wt. not pkd. 2 lbs. Each, 20c

2E4261.....Each, 20c

### LIME

### SQUEEZER AND STRAINER

Made of aluminum perfectly finished. Strainer cast solid with one of the jaws, high tension phosphor-bronze spring. Length, 7 in. opening of jaws 2 1/4 in. Wt. not pkd. 4 oz.

4E6575.....Each, \$1.20

### "RAPID" LEMON SQUEEZER

Has the advantage over all others in simplicity of construction and ease of operation. One motion of the handle or lever presses and revolves the lemon on the cone and extracts all the juice. The cup and cone are lined with aluminum, the metal less affected by acid than any other. Cup and cone can be removed for cleaning, and the glass holder is adjustable to any height of glass. Clamps securely to table. The machine is made of cast iron, heavily nickel plated. The plunger and cup are finished with heavy coating of black enamel. Handle has large hardwood grip. Ht. about 9 in., with handle turned down. Shpg. wt. 9 lbs.

4E6571.....Each, \$4.50

## GLASS LEMON AND LIME JUICE EXTRACTOR

One piece clear crystal glass, fluted cone. Juice flows into receptacle at bottom and is poured through lip, seeds and pulp remain in the six pockets. Diam. 5 1/2 in.

2E4260 Wt. 8 oz.....Each, 10c

### STAINLESS STEEL LEMON AND ORANGE KNIVES

Not Affected by Acid Juices—Will not Rust or Stain

Used widely and highly recommended. Highest grade, stainless and rustless steel. Length, 9 1/2 in.

3E148 Shpg. wt. 2 oz. each, 50c

### STAINLESS STEEL SABATIER FRUIT KNIFE

Stainless steel blade ground to a keen edge. Ebonized wood handle, with 3 brass rivets. Length over all 7 1/4 in.

4E5065 Wt. 2 oz.....Each, 45c

### STAINLESS STEEL CURVED GRAPEFRUIT KNIFE

Finest stainless steel blade, 3 1/4 in., tempered and ground to keen edge. Cuts grapefruit cleanly and quickly into segments. Round end prevents blade from going through rind. Handle of black rubberoid.

4E5672 Wt. 1 oz.....Each, 50c

### AUTO SERVICE TRAYS

A Convenience Appreciated By Your Customers

The greatest boon to the refreshment business since the perfection of the soda fountain. You can't afford to be without it. Many of your customers like to be served sitting in their cars, but they dislike holding dripping glasses in their hands. The AUTO SERVICE TRAY answers the problem. It hooks firmly to the side of all automobiles and glass door panels of sedans by means of an adjustable bracket. The Auto Service Tray looks so attractive as it serves your customers at the curb that it's bound to win new patrons to your store. It's light, easy to handle, made of aluminum with all contact points rubber tipped.

Auto Service Tray, as illustrated above. (Oblong shape.)

Size Wt. not pkd. Each  
4E2355 11x14 in. 2 lbs. \$3.50  
4E2356 12x17 in. 2 1/2 lbs. 4.00

Build up a curbstone trade for those hot summer nights. Order enough trays. You'll need them.

Auto Service Tray, as shown above. (Round shape.) Contains 4 and 6 cups fastened to the tray which serve as glass holders.

Cups Wt. not pkd. Each  
4E2352 4 1 1/2 lbs. \$2.50  
4E2353 6 1 1/2 lbs. 2.75

### SERVING TRAYS

Nickel Plated—Has a heavy rolled edge which makes it easy to handle. Made of heavy brass, nickel plated and highly finished, plain center.

4E2387 Diam. 12 in. Wt. not pkd. 1 lb. (Doz. \$14.50) Each, \$1.25  
Silver Plated—Heavily silver plated on 18% nickel-silver body of substantial weight, reinforced by rolled edges. Lustrous Butler finish. 3 sizes listed; prices of other sizes on request.

Diam. Wt. not pkd. Each  
3E2194 10 in. 1 lb. \$3.50  
3E2195 12 in. 1 1/4 lbs. 4.50  
3E2196 14 in. 1 1/2 lbs. 5.95

### CIRCASSIAN WALNUT FINISH SODA TRAY

This strong, durable tray is of very attractive appearance. It is made of steel and is finished in Circaasian walnut, with a heavy coating of water-proof varnish. The use of this tray together with our "No Nik" glassware will make an ideal table service outfit for lunch-ettes and soda parlors. Wt. 3/4 lb. each.

4E2365 Size 10 1/4 x 13 1/4 in. (Doz. \$3.40) Each, 30c

## SANITARY LEMON SQUEEZER

Japanned iron frame, porcelain cup. Plunger of seasoned wood. Length 10 in. Will last indefinitely.

4E6556 Wt. not pkd. 2 lbs. Each, 65c  
4E6558 Extra cup. Wt. 5 oz. Each, 18c

### "NEVER-STAIN" FRUIT AND PARING KNIFE

White Enamel Handle

4E5670 Stainless steel blade, 3 in. long, ground sharp, 6 1/2 in. overall. Fruit or vegetables will not stain blade. Each, 25c (Doz. \$2.75)  
4E6552 Extra large fruit knife. Blade 5 1/4 in. long, 10 in. overall. Each, 75c

## "YANKEE LIDON"

### LEMON SQUEEZER

The lid drops down, covers up the lemon in the cup, and thus prevents the juice from squirting out and being wasted. All parts that come in contact with the lemon—the cup, the plunger and the lid—are made of solid cast aluminum and will not rust. Strong frame of black japanned iron, highly polished. Total length 9 1/4 in. Each in box. Shpg. wt. 2 lbs.

4E6589.....Each, \$1.35  
4E6590 Extra cover. Wt. 1/4 lb. Each, 45c  
4E6591 Extra crusher. Wt. 1/4 lb. Each, 40c  
4E6592 Extra cup. Wt. 1/4 lb. Each, 95c

## GILCHRIST'S ROTARY LEMON SQUEEZER

Lemon is squeezed and rotated against ribs of the perforated aluminum cup. Juice runs into glass, and seeds and pulp remain in the aluminum cup. All metal parts that touch the lemon are cast aluminum. All sliding parts have roller bearings, making it operate with ease and speed. Cut cogs and cut gears. Heavy malleable iron handle with turned hardwood knobs. 50 lbs. pressure on the handle will give 3,500 lbs. pressure on the lemon. Ht. about 9 in., with handle turned down. Wt. not pkd. 9 lbs.

4E6586.....Each, \$5.75

## THE "EIGHT NINETY" PAPER NAPKIN AND HOLDER

Actual comparative tests have proven that the "Eight-Ninety" paper napkins when dispensed from this dispenser really cut down the amount of paper napkins used in any establishment from 25% to 40%. The "Eight-Ninety" napkin is a patented eight fold napkin which allows only 1 napkin to be taken at a time because of the manner in which it is folded. When dispensed from special dispenser, it stops the patrons' customary habit of taking 3 or 4 napkins at one time. Napkins also may be dispensed from regular napkin stand or tumbler if desired. **Pure White, full size, 13½ in. square.** Put up 250 napkins in a package, and in shipping cartons containing 40 packages or 10,000 napkins. Wt. per carton 65 lbs. No less than 1,000 napkins sold.

# Our Most Popular Duck Coat and Vest

You men who run Soda Parlors, Cafeterias, Restaurants, etc., can figure costs and profits just as well as large business institutions. You know your rent and light and other fixed expenses are just about the same when you serve a thousand customers a day as when you serve three thousand. And you know that if you serve three thousand a day you can not only buy your products cheaper, but you are perfectly satisfied with a smaller profit on every sale. It works exactly the same with us. Our tremendous volume of sales in Duck Coats and Vests—selling thousands every year—not only cuts the original cost to us, but it also cuts our cost of doing business, so that we need but a very small margin on each garment. That is the whole reason why we are able to sell you better Duck Coats and Vests at most attractive prices.

## White Duck Dispenser's Coat

This is a military style, good quality white duck coat. It is well fashioned and carefully sewed, with double cuffs, 3 pockets, and has detachable buttons. Sizes carried in stock, 34 to 44 in. chest. **State size wanted.**

Lots of 500 and more Each, 3 1/2c

### TURKISH COUNTER TOP WIPER

Very closely woven  
from the best grade  
yarn, with good nap.  
It is hemmed at  
both ends and has  
fast selvedge edge.  
The advantages of  
Turkish cloth in  
wiping counters or  
polished surfaces  
are apparent. Being  
of a very soft finish  
it will not scratch  
and it possesses greater absorbent  
properties than any other. Size 17x27 in.

SE5002 Wt. not pld. 2 1/2 lbs. Doz. \$2.35

### GLASS TOWELS

A well woven red striped  
cotton toweling with a hard  
finish that prevents towel  
from becoming quickly satu-  
rated. Gives excellent  
wear and service.

### ABSORBENT COUNTER TOP-WIPER

A very heavy  
woven cotton  
cloth, especially  
designed with a  
view to securing  
the greatest ab-  
sorbent qualities  
possible, which is  
attained to such  
a degree that this  
cloth will take up  
water and dry a  
surface almost as  
rapidly as a  
sponge. The fine-  
ness of texture  
and weave renders it so soft and pliable  
that it is suitable for use on finest wood-  
work or most expensive mirrors. Size 18x30  
in. Wt. not pld. 2 lbs.

SE5001 Doz. \$2.00

## Fountain Specialists Help You Answer These Questions:-

*What is the exact fountain to fit my needs?*

*What is the most efficient room arrangement to use?*

*How can I make the most use of my space?*

*What other fixtures and furniture do I need and what kind should I buy?*

*How can I get the most out of my investment?*

*How can I best finance my deal with the money I have?*

*How can I make money all the year 'round?*

*Can light lunches be served with a small investment?*

*Shall I specialize on any particular drinks, and if so, which are the most advisable?*

The above questions and scores of others like them form problems which you have to solve every day. Let us help you with the answers. We CAN help you! We have a staff of thoroughly experienced soda fountain specialists who are here for no other purpose than to help and advise you in any way you may desire. In our position as one of the leading Soda Fountain Supply Houses in the country, we can see how others are meeting their problems. Our business acts as a clearing house for ideas which we can pass on to you, if you wish them. Write to us freely, give us all the information which will assist us in solving your problems, send floor plans and all data if you are opening a new establishment, and we will be glad to help you in every way we can. Of course, this will not obligate you in any way.

**Our Experienced Men Are at Your Service!**  
**Write Us and We Will Be Glad to Help You**

*These Easy Terms Will Help You Finance Your New Equipment and Make it Pay for Itself as it Earns!*

# **SMALL CASH PAYMENT**

**—Balance in Easy Monthly Installments, Will Buy any Soda Fountain Listed in this Book!**

**Y**OU can start in business!—you can re-equip your business— you can enlarge your business! Only a small amount of capital is needed because our liberal partial payment plan helps you finance your deal and allows you to pay as you earn.

If you are starting a new Soda Fountain, use our terms to help you buy the very finest equipment possible. Better equipment will far more than repay its higher cost.

If you now have old equipment use our terms to help you re-equip on an up-to-date basis. You will make enough extra profit to pay the small monthly payments and have a handsome margin for yourself.

Select the fountain and any other fixtures or equipment you will need, and write us. We will immediately write you, giving amount of initial payment required, also giving full information concerning payment of monthly installments.

You can then mail your order, together with check, draft or money order for cash payment required, and we will make prompt shipment.

# THE SODA FOUNTAIN

## "Bilt-Rite" Mechanically

### The Greatest Forward Step Ever

*Illustrating a "Bilt-Rite" Interior for an 8 Foot Counter, with Covers Removed to Show the Compressor and Cooling System.*

The "BILT-RITE" was the first entirely mechanically refrigerated fountain on the market and it is the only fountain of this character which can boast of a two years record of satisfactory service. It was mechanically perfect when first introduced to the trade—this is proven by the fact that after two years of highly successful performance, it is still essentially the same in the application of mechanical refrigeration. It is the only mechanically refrigerated fountain sold as an integral unit—tested thoroughly at the factory—shipped as a complete outfit, with one company taking full responsibility for both fountain and refrigerating mechanism.

**Here are some reasons why you should buy a "Bilt-Rite" Mechanically Refrigerated Soda Fountain:**

#### **Saves Icing**

Because the fountain is mechanically refrigerated it requires no ice. It eliminates the work of icing and the work of cleaning up after it. Replenishing of the supply of ice cream can be done in a very short time, and without interfering with the dispenser's work.

#### **Saves Loss Through Ice Cream Shrinkage**

The perfect temperature of this fountain reduces shrinkage losses (which on the average run from 1 to 4 quarts on a 5 gal. can) far below that of the old style ice and salt fountain.

#### **Inexpensive to Operate**

Requires no ice. Connects with regular light circuit and uses less than one-half as much current as any other refrigerating system to accomplish the same result. Alcohol solution which takes the place of brine, is inexpensive and need not be replenished until after a period of 3 years. Refrigeration mechanism should give no trouble during that time.

#### **Maintains Ideal Temperature**

Automatic temperature control can be set from 5 to 15 degrees or as desired, it is positive in action, when maximum temperature of fountain is reached, automatic temperature control cuts in electric current and reduces temperature until the correct degree of temperature has been reached, then current is cut off automatically.

No current is used when refrigerating machinery is not running. Ice cream is always in perfect condition for serving. Because the fountain requires no ice, there is no change in temperature caused by ice running low.

#### **Automatically Controlled**

Every function of the refrigerating system is automatically controlled. No attention from the dispenser is required. "Overnight" packing and extra icing are eliminated because fountain requires no ice.

#### **Insures Quality**

The fresh, full flavors and smooth texture of the ice cream is perfectly preserved. This will make a good impression upon your trade.

#### **Sanitary**

The most sanitary fountain on the market. No ice or salt to muck up or corrode the fountain or to contaminate or spoil the taste of the ice cream.

#### **Saves Space**

Service can be made from double the number of ice cream cans provided by the old style fountains of the same length, because the refrigerating unit takes up only a small part of the fountain as compared with the space taken up by the icing compartment of the old style fountains.

### **Details of Construction**

**Nizer Refrigerating Mechanism**—Designed specifically for this use and adopted, first, because it offers maximum refrigerating capacity; second, produces refrigeration at the minimum unit cost. The Nizer Compressor used is well known; it is the same machine that is now in successful use in thousands of electric ice cream cabinets. It has ample capacity and operates at maximum efficiency. It connects with the regular lighting circuit, and cuts in and out automatically, at desired predetermined temperatures, being governed by a simple method of control, positive in action and without use of thermostats. Sulphur dioxide, the refrigerant used, is the best for this type of unit. It carries no danger from explosion, is non-inflammable, and will last almost indefinitely without deterioration. The Nizer Refrigerating Mechanism has greater refrigerating capacity per unit of electrical consumption than any other on the market. It has fewer working parts and requires no oiling because it is internally lubricated, all moving parts running in a bath of oil. A universal motor operating on either A. C. or D. C. current is used.

**Walker Thermo Syphon System**—Requiring no pumps or mechanism for operation, it is the simplest method possible of circulating super-cooled brine from the ice cream cabinet to the cooling coil, and refrigerating compartments. Cold

brine solution circulates from the large brine tank in the ice cream cabinet through pipes to the cooling coil compartment, where it enters a small thermal tank which is surrounded completely by sweet water and so located as to be considerably lower than the level of the brine in the brine tank in the ice cream compartment. The brine in the thermal tank being at a much lower temperature than that of the surrounding water takes up heat from the water, slightly increasing the temperature of the brine. This causes the brine in the thermal tank to rise to its highest level and automatically sets up circulation. Continuous cooling of the water in the coil compartment quickly brings the temperature to the freezing point, causing an ice formation to form which maintains a temperature of approximately 32 degrees in the water surrounding the coils. Hand valve located above the thermal tank controls ice formation, requiring only a seasonal regulating. The refrigerator compartment receives its refrigeration through a thermal loop on the same principle as described above. The temperature normally being between 35 degrees and 40 degrees.

**Interiors**—Built only of the highest grade  $\frac{3}{4}$  in. cypress. Tongue and groove and panel construction prevents all possibility of warping or strain due to expansion.

**See Pages 70 and 71 for Sizes and Equipment Specifications.**

# SENSATION OF THE AGE!

## Refrigerated Soda Fountains

### Made In Soda Fountain Manufacture

#### Special "Bilt-Rite" Soda Fountain Features

- 1—Nizer Refrigerating Mechanism. All gas lines valved for easy servicing. Compressor may be located alongside fountain under counter; in basement or rear room; or built into fountain.
- 2—Adjustable brass legs for leveling fountain.
- 3—Vitreous Enameled ARMCO Iron used for all facings. Rust-resisting; impervious to stain or discoloration.
- 4—First grade Cypress removable floor-rack and shelf in refrigerator.
- 5—Extra large refrigerator for bottle storage. Dry cold produced by thermosiphon system. Lined with 16-ounce heavily tinned copper.
- 6—Six sheets of extra heavy, waterproof, odorless, refrigerating paper. Two sheets on each side of both courses of cork.
- 7—Three-inch thickness of Armstrong Nonpareil pure corkboard.
- 8—Two-section, hinged refrigerator cover, made of 16-gauge, 18 per cent Nickel-silver, insulated with celeron.
- 9—Keystone edge, reinforced.
- 10—Heavy porcelain syrup and fruit jars, exposed tops.
- 11—Twin-packers, permitting service from both cans.
- 12—Breaker strips of celeron sheeting used wherever required to break contact between inside and outside metal, preventing conduction of heat.
- 13—Large, drained compartment below hinged drip-plate, for chipped ice. Drip-plate drained separately so that drip does not reach ice. Can be used also for limes or eggs.
- 14—Solid Bronze draft arms, heavily Silver plated.
- 15—One-piece, die-stamped top, 18 gauge, 18 per cent Grade "A" Nickel-silver.
- 16—Non-rusting, rigid, cast Nickel-silver draft station.
- 17—Ice Cream Container Cover, with piano hinges, 16 gauge, 18 per cent Grade "A" Nickel-silver, backed with Bakelite for insulation, and lined with Monel Metal.
- 18—Patented dripless syrup pump. All parts in contact with syrup of block tin. Exposed surface heavily Silver-plated.
- 19—Sleeves of ice cream containers made of 24-ounce copper sheet, heavily tinned.
- 20—Bottom of can containers so designed that brine leakage is impossible in case of puncturing. Cans set in a removable pan which makes easy cleaning.
- 21—Brine tank of 24-ounce copper.
- 22—Heavy galvanized iron pan reinforces bottom of brine tank, and protects cork.
- 23—Cooling coil compartment automatically iced by Walker Thermo-Siphon System. Cold soda and drinking water at all times.
- 24—Cooling coils, block tin for soda, tinned copper for water.
- 25—Removable corrugated Nickel-silver drainboard, backed with waterproof composition sheeting for insulation.
- 26—Lime container, interchangeable with three syrup or crushed fruit jars, or a whipped cream container.
- 27—Interlocking joint between workboard and fountain unit insures rigidity equal to one-piece construction.
- 28—Nickel-silver Running Water Dishwasher Vat, with strainer bottom easily removable for cleaning.
- 29—Tumbler washer—simple, and positive in operation.
- 30—Waste Chute.
- 31—New style quarter-turn hot and cold water faucets.
- 32—Side overflow in sink, with removable screen for cleaning.
- 33—Kettle-bottom Nickel-silver Sink. Easily cleaned. No corners or seams.
- 34—Corrugated Nickel-silver drainboard.
- 35—Capping of 18-gauge, 18 per cent, Grade "A" Nickel-silver.
- 36—Porcelain Towel Rail with Nickel-silver brackets.
- 37—Side overflow in cooling coil compartment maintains correct water level and prevents any possibility of flooding.
- 38—Fountain cabinet of first grade Red Cypress, thoroughly seasoned. Resists moisture and affords maximum insulation.

#### Details of Construction

**Insulation**—Heavily insulated with 6 layers of waterproof heavy odorless paper, one 2 in. and one 1 in. layer of pure cork board. Breaker strips used wherever necessary.

**Linings**—Heavy double lining 32 oz. to the square foot. Between the inner lining of 16 oz. copper, tinned on the inside, and the cork, is a second lining of 16 oz. rust resisting ingot iron. All joints are double-seamed, interlocked and soldered.

**Ice Cream Can Compartment**—Heavy cold-rolled sheet copper, with containers tinned on the inside. Containers of special construction with water-tight bottoms, strengthened to resist impact of cans.

**Surfaces**—All facings of rust-resisting Armco iron with 3 coatings of baked white enamel.

**Covers, Lids, Drainer Sections, Wall Capping**—Made of 18% nickel-silver.

**Equipment**—Porcelain syrup jars, exposed type, deep and narrow. Pure block tin syrup pumps, with nickel-silver tops and silver plated trimmings. Porcelain crushed fruit jars with nickel-silver covers. Bronze draft arms, lined with block tin, heavily plated and burnished, with hard rubber seats and nozzles, and onyx ball handles. Large compartment under draft arms, easily accessible by sliding back drip plate.

**The Complete Fountain**—The "BILT-RITE" Fountain is delivered ready for use without the delays and uncertainties that must follow where a refrigerating machine and fountain are delivered to the purchaser as separate units to be assembled and tested together after delivery. Before shipment every fountain is placed in operation at the factory and given an intensive three-day working test, with the same compressor that is to be used with it in the owner's establishment. Thus the correct fountain temperatures are established, and all necessary adjustments made before the outfit leaves the testing rack. Whether of the self-contained or remote type of machine, the "BILT-RITE" is shipped to the purchaser as a complete outfit. When installed it is a synchronized unit ready to give immediate service.

See Pages 70 and 71 for Sizes and Equipment Specifications.

Showing the Model "P" Compressor furnished with interiors for "remote installation" only. Water cooled.

# "Bilt-Rite" Fountain Interiors

## Standard Interiors With Self-Contained Compressors

All Standard Interiors shown on this page have the compressor built into the interior as an integral part of the interior. (See page 68 for illustration.)

### Standard Equipment For All Interiors Listed on this Page.

**Compressor Compartment—**  
Nizer Compressor, Model "N" with automatic electric cut-off switch.  
Corrugated lift cover.  
Removable front panel.  
**Refrigerator and Cooling Coil Compartment—**  
Hinged lift cover, insulated.  
Cypress floor rack.  
Walker Thermo-Syphon System.  
1 Copper water coil, tinned.  
1 block tin soda coil.

**Frame—**  
All of these interiors can be furnished complete with frame attached, ready for glass or marble counter, or used with separate marble counters.

### "BILT-RITE" STANDARD INTERIOR—For 8 Ft. Counters

Equipped as follows: Ice Cream Compartment with 2 copper containers fitted with 4 insulated hinged covers and holding four 5 gal. ice cream cans, copper tank for brine, Nizer Refrigerating Mechanism with Automatic temperature control. Pump Rack with 8 syrup pumps in jars, 4 crushed fruit jars with covers, 1 soda and 1 water draft arm, chipped iced pan under drip plate. Workboard with sink with hot and cold water controls, tumbler washer, disher vat and towel ring. Leader pipe not included.

18E804 Shpg. wt. of interior 1300 lbs., of jars 150 lbs. ....PRICE ON APPLICATION

### "BILT-RITE" STANDARD INTERIOR—For 10 Ft. Counter

Equipped as follows: Ice Cream Compartment with 3 copper containers fitted with 6 insulated hinged covers and holding six 5 gal. ice cream cans, copper tank for brine, Nizer Refrigerating Mechanism with Automatic Temperature Control. Pump Rack with 10 syrup pumps in jars, 4 crushed fruit jars with covers, 1 soda and 1 water draft arm, chipped ice pan under drip plate. Workboard with sink with overhead hot and cold water faucets, tumbler washer, disher vat, waste chute and towel ring. Leader pipe not included.

18E1006 Shpg. wt. of interior 1,400 lbs., of jars 150 lbs. ....PRICE ON APPLICATION

### "BILT-RITE" STANDARD INTERIOR—For 12 Ft. Counter

Equipped as follows: Ice Cream Compartment with 4 copper containers fitted with 8 insulated hinged covers and holding eight 5 gal. ice cream cans, copper tank for brine, Nizer Refrigerating Mechanism with Automatic Temperature Control. Pump Rack with 10 syrup pumps in jars, 6 crushed fruit jars with covers, 2 soda and 1 water draft arm, chipped ice pan under drip plate. Workboard with sink with overhead hot and cold water faucets, tumbler washer, disher vat, waste chute and towel ring. Leader pipe not included.

18E1208 Shpg. wt. of interior 1,600 lbs., of jars 150 lbs. ....PRICE ON APPLICATION

Note: Illustrations show standard equipment. Changes and additional equipment may be obtained if desired.

## Unit Constructed Interiors for Remote Installation

Standard Interiors  
For All Interiors Listed on this Page.

**Compressor**—Model "1," for remote installation, water cooled in steel cabinet, with three 20 ft. lengths of copper tubing.  
**Refrigerator Compartment**—Hinged lift cover, insulated. Cypress sliding shelf. Cypress floor rack.  
**Thermo-Syphon refrigeration.**  
**Cooling Compartment**—Walker Thermo-Syphon System.  
 2 copper water coils, tinned.  
 2 block tin soda coils.  
 1 expansion and cooling chamber.  
 Insulated corrugated lift cover.  
**Frame**—All of these interiors can be furnished complete with frame attached, ready for glass or marble counters, or used with separate marble counters.

All Unit Interiors shown on this page are for remote installation, that is, all units are provided with a compressor of the remote type, the compressor being a separate and detached unit in itself to be located in the basement or adjacent room.

### "BILT-RITE" 6 CAN UNIT INTERIOR—For 10 Ft. Counter

Equipped as follows: Ice Cream Compartment with 3 copper containers fitted with 6 insulated hinged covers and holding six 5 gal. ice cream cans, copper tank for brine, Nizer Refrigerating Mechanism with Automatic Temperature Control. Pump Rack with 9 syrup pumps in jars, 4 crushed fruit jars with covers, 1 lime container, 2 soda and 1 water draft arm, 1 chipped ice pan under drip plate. Workboard with sink with overhead hot and cold water faucets, tumbler washer, waste chute, disher vat, towel rail. Leader pipe not included. 18E06 Shpg. wt. of interior 1,420 lbs., jars 150 lbs., compressor 430 lbs. .... PRICE ON APPLICATION

### "BILT-RITE" 8 CAN UNIT INTERIOR—For 12 Ft. Counter

Equipped as follows: Ice Cream Compartment with 4 copper containers fitted with 8 insulated hinged covers and holding eight 5 gal. ice cream cans, copper tank for brine, Nizer Refrigerating Mechanism with Automatic Temperature Control. Pump Rack with 10 syrup pumps in jars, 6 crushed fruit jars with covers, 1 lime container, 2 soda and 1 water draft arm, 1 chipped ice pan under drip plate. Workboard with sink, hot and cold water faucets, tumbler washer, waste chute, disher vat and towel rail. Leader pipe not included. 18E08 Shpg. wt. of interior 1,620 lbs., jars 150 lbs., compressor 430 lbs. .... PRICE ON APPLICATION

### "BILT-RITE" SPECIAL 8 CAN "NEW YORK" UNIT—Length 11 Ft., 11 $\frac{3}{4}$ In.

This unit is especially adapted to fountains which have to have the ability to deliver cold drinks at peak loads such as the noon hour rush on some fountains which serve light lunches in busy localities. This unit has two separate water cooling compartments operated by one compressor. This is the only type of construction making this possible. Ice Cream Compartment with 4 copper containers fitted with 8 insulated hinged covers and holding eight 5 gal. ice cream cans, 2 copper tanks for brine, Nizer Refrigerating Mechanism with Automatic Temperature Control. Pump Rack with 14 syrup pumps in jars, 8 crushed fruit jars with covers, 2 hooded metal disher vats, 4 soda and 2 water draft arms, 2 chipped ice pans under drip plates. Refrigerator Compartments—Two, one at each end. Cooling Coil Compartments—Two, both located in center of unit below corrugated covers, 4 tinned copper water and 4 block tin soda coils. Workboards—This interior with a 12-8-1 workboard at each end makes an ideal interior for an 18 ft. counter. This workboard is shown on No. 18E08, illustrated above. Leader pipe not included. 18E100 Shpg. wt. of interior 2100 lbs., of jars 200 lbs., of compressor 430 lbs. .... PRICE ON APPLICATION

Note: Illustrations show standard equipment. Changes and additional equipment may be obtained if desired.

# Still the Greatest Values in High Quality Soda Fountains at Low Prices

## PIX "CHALLENGE" SODA FOUNTAINS

*With Vitrolite Glass  
Counters Attached*

Without a doubt this is the biggest fountain value of the year—dollar for dollar, the biggest buy on the market today! And it is made possible only because manufacturing in tremendous quantities, we have forced production costs down to the lowest figure. The Pix "Challenge" Soda Fountains are everything that fountains of the highest class should be. They are beautifully designed, with a clean and neat appearance that will add greatly to the attractiveness of your room. They embody all the best features of scientific soda fountain construction. All three sizes are of the same high grade materials and workmanship throughout. They are equipped with the iceless system of refrigeration,

whereby the ice used for packing the ice cream, also serves to refrigerate the syrups, crushed fruits and draft arms. The counter and interior are built into one strong, durable unit which makes the fountain very easy to install.

You will make no mistake in buying a "Challenge" Soda Fountain to replace your old one. It will bring a new attractiveness and new life to your business, and that, you know, means more dollars and cents in your pocket. It will bring to you all the advantages of improved construction, at prices so unbelievably low that they are beyond all competition. And note particularly that our prices are the same on time payments as for cash!

### Specifications for Pix "Challenge" 6 Ft., 8 Ft., and 10 Ft. Soda Fountains

**INTERIOR** is of cypress construction throughout. This, with 2 in. of processed cork which lines the ice cream cabinet and cooler compartment gives it in reality 3 in. of insulation. The interior together with the cypress constructed workboard, are faced on the rear with snow white porcelain enameled steel, trimmed in nickel-silver.

**LININGS** are of 16 oz. cold rolled tinned copper with a heavy, corrugated copper partition between the ice cream compartment and the tempering chamber for coolers. A chipped ice compartment is located in the top of the tempering chamber. The upper parts of the cabinet, called the syrup enclosure, is lined with galvanized armco steel.

**CAPPING.** The tops of the ice cream cabinet, the chipped ice compartment, the workboard and the sink are of the best grade nickel-silver which is also used for trimming on all exposed corners of the interior.

**COOLERS.** The soda and plain water are cooled by the standard iceless system of refrigeration which is adjacent to the ice cream compartment.

**SYRUP PUMPS** are of the best quality pure block tin, silver plated, with nickel-silver tops which are heavily silver plated. The pumps rest on white vitreous china jars of about 3 qt. capacity. The crushed fruit bowls are of 2 qt. capacity with nickel-silver covers, heavily silver plated.

**FAUCETS** are of our highest quality solid bronze, heavily silver plated, furnished with onyx ball handles and hard rubber nozzles.

**COUNTER** is of snow white vitrolite glass, trimmed in marble. The pilasters are ornamental and fastened with artistic silver plated caps and corbels. Top slabs are of 1 1/4 in. white Italian marble, 10 in. wide. The counter frame is attached to the interior so that it is only necessary to put in the glass panels and lay on the top slab and the fountain is completely installed.

# Pix "Alaska" Soda Fountains

8, 10 and 12  
Foot Lengths

Pix "Alaska" Soda Fountains are first class in every respect. They are beautifully designed, with attractive glistening white vitrolite glass counters trimmed in black marble. They are durably built, according to latest ideas of cleanliness and sanitation. The "Pix Economy" Cooling system with which they are equipped and their exceptional amount of insulation make the fountains very economical to operate. Pix "Alaska" Fountains are, without a doubt, a good buy and have proven very popular with the trade.

**25% More Insulation**—The frame work is of 1 in. cypress which is faced on the rear with snow white porcelain enameled steel, nickel-silver trimmed. The bottom ends and back are covered with specially painted metal to prevent the frames from absorbing moisture from without. The ice cream cabinets and cooling units are insulated with pure cork board 3 in. thick, making a total insulation wall of 4 in.

**32 Oz. Metal Lining**—Linings are of 16 oz. cold rolled retinned copper, reinforced between copper and cork with 16 oz. galvanized iron to prevent perforation of copper linings when packing ice cream.

**Cooling System**—All fountains are equipped with "Pix Economy" iceless cooling system. This system has demonstrated its efficiency beyond a question of doubt. Coolers can be iced directly, if desired.

**Arrangement**—The ice cream cabinets are placed in the left end of the interior, allowing us to build a cabinet for three 5 gal. ice creams in an 8 ft. fountain and still have a large drainboard for glasses in the right hand end.

**Extra Drain**—Instead of the usual lift or hinged cover over the refrigerator compartment, we have an insulated corrugated nickel-silver drain for a cover which can be used for extra glasses. This drain slides over the sink when access is desired to the refrigerator.

**Counters**—Counters are of white vitrolite glass panels which are held in place by white vitrolite glass pilasters and handsome art bronze caps and corbels. The base and frieze are of black York fossil marble. Base is 10 in. wide, frieze is 4 in. wide. Top slabs are of white Italian marble, 12 in. wide and 1 1/4 in. thick. Ends of counters are built up, as illustrated.

**Nickel-Silver Work Board**—Ice cream covers and workboards are faced with best grade of nickel-silver by skilled workmen who are unsurpassed in this line. Covers over the ice cream cans are of the latest improved, hinged type and rest on raised edges which prevent liquids spilled on ice cream cabinet from running into the cans.

**Syrup Pumps** are of the latest improved, double support, under-feed type, of pure block tin, silver plated. Top plates and crushed fruit bowl covers are of solid nickel-silver, heavily silver plated. Syrup jars and crushed fruit bowls are of the improved, exposed type, made of vitreous china.

**Sinks** are of nickel-silver and are made with rounded bottoms. They are equipped with undercirculating hot and cold water valves and furnished with overflow standpipes.

## Pix "Alaska" 10 Ft. Soda Fountain

### Equipment Consists of

- 3 Ice cream cabinets
- 1 Refrigerator compartment
- 10 Syrup pumps
- 4 Crushed fruit bowls
- 2 Clear counter soda water faucets
- 1 Special rapid flow plain water faucet
- 1 Chipped ice compartment
- 2 Dipper well
- 1 Refuse chute
- 1 Nickel-silver sink
- 1 White enameled towel rail with nickel-silver brackets
- 1 Large capacity cooler for plain water
- 1 Large capacity cooler for soda water

# Pix "Improved Senior" 8 Ft. Soda Fountain

Complete with  
8 ft. "Saratoga"  
Back Bar, as  
Illustrated

A first class, high grade soda fountain designed to meet the needs of those who desire a fountain separate from the ice cream cabinets. It can be used with the ice cream cabinets already on hand or with those furnished by the ice cream manufacturer. Cabinets for one or two ice creams and a soda tank can be used, but if a cabinet for three ice creams is to be used, the tank or carbonator must be located elsewhere. We are pricing this fountain with or without the ice cream cabinets. The "Improved Senior" consists of a handsome paneled counter, a refrigerator, a cooler compartment, syrup pumps, faucets and all the requisite parts of a high class soda fountain.

Counter is handsomely finished in quarter-sawed oak, golden finish, with a white marble top slab 10 in. wide and 1 in. thick. Refrigerator and Cooler Compartment is substantially constructed of cypress, the everlasting wood. It is metal lined and thoroughly insulated with nonpareil cork. This compartment can be used for storage of bottled goods, as well as for the coils for soda and plain water. Faucets are two in number, one for soda water and one for plain water. They are made of the highest quality bronze, heavily silver plated and equipped with onyx ball handles and hard rubber nozzles. Six Syrup Pumps are of 94% pure block tin, silver plated. They are of the adjustable type, double support and under-feed, and will dispense from  $\frac{1}{2}$  to  $1\frac{1}{2}$  oz. of syrup. The syrup pumps rest in exposed white vitreous china jars of 3 qt. capacity. The jars are highly sanitary and are very easy to clean. These same jars and pumps are used on our highest grade soda fountains. Five Crushed Fruit Bowls and One Dipper Well for ice cream dishes are made of white vitreous china and are countersunk in a wood rack, back of the space provided for ice cream cabinets. Drip Plate is silver plated and is placed directly under the faucets. Workboard is of hand corrugated nickel-silver and forms a cover for the refrigerator compartment. Workboard can be slid over the sink when access to the refrigerator compartment is desired. Sink—A large, round bottom, nickel silver sink is located at end of refrigerator compartment, under the faucets. Sink is equipped with an under-circulating valve and an over flow standpipe. Coolers are of the horizontal, direct icing type, and are located in the refrigerator compartment. We furnish a large cooler for soda water and also one for plain water. Coolers are attached to the faucets with heavy block tin pipe. A block tin leader is furnished to connect the soda tank or carbonator to the soda cooler.

Pix "Saratoga" Back Bar is eight feet long. Effective design, yet, inexpensive and simple. Has a mirror 44 in. long and 28 in. high. There is a 9 in. pilaster at each side of mirror for decorative purposes. The base is 8 in. wide at top, including the shelf. The bottom is solidly made with 5-ply veneer panels and with wooden brackets on both ends which act as supports for the shelf at top. One electric light fixture, with globe, furnished in center of mirror. Furnished only in oak, golden finish. Total height 7 ft. 4 in. May be bought separately at price shown below.

18E2920 With quarter sawed oak, golden finish, counter without ice cream cabinet or back bar. Shpg. wt. 400 lbs. Each, **\$295.00**

# Our Popular Soda Outfits

These outfits have been built to take up little space, yet have sufficient equipment for serving ice cream and fountain drinks. They have been specially designed for use in Picnic Stands, Hot Dog Counters, Etc. The popularity of the roadside stand is conclusive proof of the profit to be made in serving ice cream and fountain drinks. The outfits shown here will enable you to get your share of this profitable business with only a modest investment.

Showing Pix  
"Ever-Ready"  
Soda Outfit

## PIX "EVER-READY" SODA OUTFIT

A Small Investment in This Outfit Will Bring You More Business and Bigger Profits

Built for those who want to start in the soda dispensing business with the least possible expense, and at the same time have a suitable and practical outfit. It can be used with or without a counter. If the height is not satisfactory you can lower by cutting down the legs or make it higher by building up the legs.

Nothing has been overlooked as to the necessary working parts of this soda outfit. We have included 6 syrup bottles with inlaid enameled labels bearing a variety of names of syrups. These bottles are set in a nickel-silver rack with separate pocket for each bottle. Two Glass Crushed Fruit Jars countersunk in top of cooler and ice compartment. Large pure block tin soda cooler is supplied with block tin pipe for connecting to soda tank. Soda faucet is of latest pattern, made of bronze, highly silver plated and block tin lined, has onyx ball handle and dispenses coarse and fine streams of soda water. Cooling chamber holds about 25 lbs. of ice. Furnishes cold soda water and keeps syrups and crushed fruits properly refrigerated. The woodwork is cypress, lined on inside with galvanized iron. Ht. 39 in., exclusive of soda arm; length 29 in.; width 20 in. Shpg. wt. about 120 lbs.

18E2835 "Pix Ever-Ready" Soda Outfit.....Each, **\$75<sup>00</sup>**  
For Steel Tanks to use with this outfit see page 83

**Our Easy Terms Will Help You Finance Your New Equipment and Make it Pay for Itself as it Earns! See Page 65 for Our Partial Payment Plan.**

## PIX "COMPACT" SODA OUTFIT

Can be conveniently placed underneath a counter or used without one; may be lowered or raised by cutting down or building up the legs.

Exterior of "Pix Compact" is of cypress, the everlasting wood.

**Ice Compartment** lined with galvanized iron, insulated to retain ice for a considerable period, holds about 35 lbs. of ice. A single cylinder of block tin is placed in the bottom of cooler so that ice cold soda water may be obtained at all times. Waste connections for plumbing are provided, or a bucket may be placed underneath the drain.

**Six Syrup Pumps** of 94% pure block tin. Adjustable type, dispense from  $\frac{1}{2}$  to  $1\frac{1}{2}$  oz. of syrup. Tops heavily silver plated. Porcelain name plates of a variety for syrups may be had. Pumps rest in exposed white porcelain jars of  $\frac{1}{2}$  gal. capacity. This is a highly sanitary feature.

**Two Crushed Fruit Jars** are countersunk in the ice compartment.

**Soda Faucet** is silver plated, latest clear-counter type, with onyx ball handle. Dispenses fine and coarse stream. Underneath faucet is a nickel-silver drip plate with removable wire tray. Ht., exclusive of soda arm, 39 in., length  $3\frac{1}{2}$  ft.; width, 20 in.

**WITH ONE SODA WATER FAUCET**  
18E2860 1 faucet outfit, without tank. Shpg. wt. **\$126<sup>00</sup>**  
about 235 lbs. ....Each,

**WITH TWO FAUCETS**—One for Soda and One for Plain Water  
Same style and construction as above, but is provided with two faucets, each having a cooler.

# Special Soda Dispensing Outfits

DESIGNED FOR USE WITH ICE CREAM CABINETS OR SPECIAL MECHANICALLY REFRIGERATED ICE CREAM BOXES

In view of the large demand for special soda dispensing outfits for use in connection with ice cream cabinets or special mechanically refrigerated ice cream boxes we have designed these outfits. They are constructed along the lines of our best soda fountain interiors. The frame is of cypress, which is insulated with pure corkboard. The linings are of 16 oz. cold rolled tinned copper, double seamed and soldered. The rear facing of the cooler box, as well as the aprons of the workboard, are of snow white porcelain enameled steel, nickel-silver trimmed. All working parts are the same as those used in our high grade soda fountain interiors. One of these outfits furnishes complete equipment for dispensing soda water, syrups, and crushed fruits, and also a refrigerating compartment for the storage of bottled goods; in fact, everything needed for the soda fountain with the exception of the compartments for ice cream. These outfits can be used in making up soda fountain interiors of different lengths.

## SPECIAL 4-FOOT DISPENSING OUTFIT

Illustrating  
Right Hand  
Outfit

This outfit in combination with an ice cream cabinet approximately 5 ft. 6 in. length makes a very practical interior for a 10 ft. counter, and it was designed for use with mechanically refrigerated ice cream Cabinets. Height of outfit 40 in. with adjustable legs. Length 4 ft. Width of outfit 30 in. Covers over the refrigerator compartment, cooler compartment and all trimmings are of Grade "A" Nickel-Silver.

### EQUIPMENT CONSISTS OF

- 1 Large Refrigerator Compartment, the cover of which is a corrugated nickel-silver drainboard. This cover slides over the sink when access is desired to the refrigerator compartment.
- 1 Cooler Compartment with a Lift-Off Cover.
- 6 Crushed Fruit Bowls with Hinge Covers.
- 6 Syrup Pumps.
- 1 Round Bottom Nickel-Silver Sink with
- Hot and Cold Water under Circulating Valves.
- Refuse Chute.
- Disher Vat.
- Soda Water Draft.
- Soda Water Cooler.
- City Water Draft.
- City Water Cooler.
- Towel Ring.
- Nickel-Silver Removable Draft Arm Drip Plate.

# Buys Itself With the Money It Saves!

Here is a carbonator that will increase your profits and will prove to be the source of such great savings, that it will pay for itself in a very short time. With it you can make soda water much cheaper and better than by the old, expensive rocker method or by buying it in tanks outside. It will require no attention on your part—it will cost practically nothing to operate,—and it will give you soda water with the pep and sparkle that your customers like, **IT IS PRICED LOWER THAN ANY CARBONATOR OF SIMILAR TYPE ON THE MARKET!**

## PIX "SUPREME" AUTOMATIC ELECTRIC CARBONATOR

The Pix "Supreme" Automatic Electric Carbonator is on the job every minute, producing sparkling soda water,—automatically. As soon as the supply of water gets low, it starts in to work, stopping automatically when a sufficient quantity is made. It is very simple to operate. It cannot explode, as an efficient safety device relieves any excess pressure in the body. There are no tanks to connect up or charge. It will save you from 90c to \$1.25 on every 10 gallons of soda water bought outside, consuming only 2 cents worth of electricity per 25 gallons.

The automatic agitator with which this carbonator is equipped is revolved by a chain attached to the pump shaft. It causes a violent agitation and a thorough mixing of water and carbonic acid gas and produces a high quality, live soda water,—the kind that puts pep into the drinks and satisfies the customers.

### SPECIAL FEATURES

**STARTS AUTOMATICALLY** when supply of soda water falls to a certain point.

**STOPS AUTOMATICALLY** when sufficient supply of carbonated water is produced.

**NO SWITCHES** to turn on or off.

**ALL PARTS** located on the outside, easy of access.

**PRACTICALLY NOISELESS**, simple in construction.

**NO EXPERIENCE** required to operate, just follow the simple instructions furnished with each machine.

**CANNOT EXPLODE**; provided with efficient safety device.

**TESTED TO 500 LBS.** pressure per square inch.

**ALL PARTS** coming in contact with soda water lined with pure block tin.

**GAUGE TELLS** at a glance the quantity of soda water on hand.

**ECONOMICAL** in operation.

**SMALL AMOUNT OF ELECTRIC CURRENT** required—25 gallons for 2 cents.

**MATERIALS REQUIRED:** Ordinary city water and a drum of carbonic acid gas, obtainable almost anywhere, and electric light attachment.

### CONSTRUCTION AND MATERIALS

The body and base are made of high grade cast iron, lined with pure, heavy block tin, which is unaffected by soda water. All other parts which come in contact with the soda water are also lined with the same material. Tested to withstand 500 lbs. pressure per sq. in. A reliable safety device is provided to relieve any excessive pressure in body and prevent the tank or parts from bursting. The automatic agitator, revolves on a shaft driven by an endless chain attached to the pump shaft.

An emergency crank handle is provided to operate the carbonator by hand in case the electric current should be temporarily shut off. The motor is of the enclosed type, 1-10 h. p., the best and most efficient kind obtainable. Consumes only about 2 cents' worth of current for every 25 gallons of soda water made. A set of wrenches, gas regulator and connections for gas drum are supplied with each machine.

Ht. 30 in. Floor space required, 24x27 in. Shpg. wt. 350 lbs.

### REPLACEMENT PARTS FOR PIX "SUPREME" CARBONATORS

#### GEAR FOR CARBONATOR MOTOR

Made of famous Bakelite composition that produces a noiseless motor as well as giving extraordinary wear. Wt. 3 oz. Will fit carbonators of our make only.  
**18E1430.....Each, \$2.25**

#### CARBONATOR PUMP WASHERS

A complete set of washers for water pump of carbonator. Includes all washers for water inlet valve and pistons. Wt. about 4 oz.  
**18E1433...Set, 35c**

#### BALANCING TANK FOR CARBONATOR

Made of heavy steel stampings with pure block tin lining. Complete with connections for hose couplings. Wt. about 6 lbs.

**18E1412.....Each, \$12.00**

#### WATER PRESSURE REDUCER

To be used on city water inlet to carbonator when supply has high pressure. It assists check valve on carbonator to prevent gas from getting into water supply system.  
**18E1495 Wt. not pkd. 2 lbs. Each, \$4.90**

#### GAS CHECK VALVE

This is attached to carbonator where hose from gas drum connection is made.  
**18E1494 Wt. not pkd., 1/4 lb. Each, \$1.90**

#### Spring and Valve Insides for Check Valve

**18E1493.....Each, 70c**

Same as above, but without spring. Fits both inlet valves on water pump.

**18E1496.....Each, 60c**

# SODA-MAKING APPARATUS & ACCESSORIES

## MAKE YOUR OWN SODA WATER AND INCREASE YOUR PROFITS

Every soda fountain owner should carbonate his own soda water. He should not run the risk of getting inferior soda water, when at a small cost he can produce his own supply. Our carbonators require a comparatively small investment, are economical to operate, reliable and guaranteed to give absolute satisfaction.

### HIGH PRESSURE GAS REGULATOR AND GAUGE WITH GAS GUARD

**\$6<sup>45</sup>**  
EACH  
GAS GUARD ONLY

**\$10<sup>95</sup>**  
EACH  
GAS REGULATOR ONLY

#### GAS GUARD

Guards against sudden shortage of gas. By simply connecting this gas guard between the gas drum and gas regulator it is possible to tell at all times the amount of gas and pressure in the drum. Eliminates the necessity of having a number of idle drums on hand for future use. Also guards against wasteful leaks—by showing decreasing pressure when gas is not being used. Well made of brass, having tested gauge and fitted with 1/2 in. connections for use with any gas drum or regulator. Can be installed in a minute with a gas drum wrench. Wt. not pkd. 3 lbs.

18E1490....Each,

**\$6.45**

#### GAS REGULATOR AND GAUGE

Absolutely reliable and perfectly made, yet offered by us at an extremely low price. Body and gauge are made of polished brass. Guaranteed absolutely accurate. Each complete with a 300-lb. pressure gauge, couplings, and check valve which prevents the water from backing up into the regulator. For use with 1 drum.

18E1221 Wt. not pkd. 6 1/2 lbs. ... Each,

**\$10.95**

### SPECIAL GUARD AND REGULATOR OFFER

18E1222 One No. 18E1221 Gas Regulator and Gauge and one No. 18E1490 Gas-Guard complete as illustrated with washers and a No. 18E1297 Wrench. Shpg. wt. 12 lbs. .... Complete,

**\$16<sup>95</sup>**

### CHARGING OUTFIT FOR SODA TANKS

If you cannot buy a carbonator you can effect a big saving by making your own soda water with this Charging Outfit. The soda you buy costs about \$1.50 per tank; with one of these charging outfits you can make it for about 50c.

#### OUTFIT WITH STEEL TANK

Outfit consists of one No. 18E1212 Steel Fountain Tank, No. 18E1221 high pressure Regulator, No. 18E1214 Wood Rocker, 6 ft. Charging Hose and connections, including No. 18E1290 Clamp and necessary washers, etc., with No. 18E1293 Drum Clamp (drum gas not included).

Wt. not pkd. 95 lbs.

18E1210 Outfit complete, .....

**\$41<sup>45</sup>**

Note—Purchasers of this Outfit usually buy an extra steel tank, so that more water can be carbonated at a time, thus enabling them to keep an extra tank of soda on hand at all times.

#### OUTFIT WITHOUT STEEL TANK

Outfit consisting of all parts, same as No. 18E1210 but without No. 18E1212 Steel Fountain. Wt. not pkd. 35 lbs.

18E1211 Outfit,

**\$16<sup>45</sup>**

#### Outfit Complete

**\$41<sup>45</sup>**

#### Outfit With-out Tank

**\$16<sup>45</sup>**

### DIRECTIONS FOR OPERATING

First, fill the tank with drinking water to within 6 in. of top. This space permits the thorough mixing of the carbonic gas and water. Next, attach the tank to the charging outfit. The gas regulator should be set to indicate 150 lbs. pressure. Open the valve of the gas drum about 1 turn of the wrench—no further, as the gas will then flow too fast and freeze, necessitating waiting for the regulator and gauge to thaw. The tank should be rocked back and forth till the hand on the gauge cannot be forced back of the 150 mark. The water and gas are now thoroughly mixed. The tank is ready to be removed from the rocker and attached to the leader pipe of the soda fountain.

### STEEL FOUNTAIN TANK

The lowest price at which a new and strictly reliable steel fountain tank can be bought. Tested to a pressure of 500 lbs. per square in., absolutely safe. Lined with heavy block tin, which will not affect the soda water, and eliminates the danger of giving your customers lead poisoning. Body of best quality steel, painted blue. Fitted with non-leaking, gas-tight fountain cock. Charging capacity 10 gal. Ht. 32 in., diam. 14 in. Shpg. wt. 60 lbs.

18E1212  
Each, .....

**\$25.00**

### FOUNTAIN COCK

For steel soda fountains. Solid bronze, heavily tinned. Guaranteed not to leak. Made to order and not returnable. To prevent mistakes, send us a good wood impression of thread, or old fountain cock. 4 or 5 days required to make. Wt. not pkd. 4 1/4 lbs.

18E1216P.....Each, **\$6.50**  
Tin Washer for Fountain Cock  
18E1403 Wt. not pkd. 2 oz.

Each, 20c

### WRENCH—For Fountain Cock

The proper article for removing cocks from steel soda tanks, and for placing them in position. Fits all standard makes of cocks. Made of cast gray iron. Wt. not pkd. 2 1/4 lbs.

18E1294.....Each, 75c

### 8 FT. LEADER PIPE, CLAMP JOINT AND COUPLING

Includes No. 18E1281 clamp joint on one end and No. 18E1270 coupling on the other end. Leader pipe fits Pix and "Bilt-Rite" Soda Fountains. If for other makes of fountains, it is best to send in old coupling for the end next to the fountain. Wt. per length 3 1/2 lbs.

18E1482.....Each, **\$5.45**

(Extra lengths can be furnished at 35 cents extra for each additional foot.)

### THE "ECLIPSE" FILTER

Every Carbonator Must Be Equipped With a Water Filter

Water used in a carbonator should always be filtered, as a matter of hygiene and economy, and it carbonates much more readily. The "Eclipse" is easily taken apart, easily cleaned, and will not get out of order. Filtering stone retains all impurities of the water. Made of heavy galvanized cast iron, finished in aluminum bronze.

4E296 Stone 3x10 in. Cap'y per hour 20 to 30 gal. Wt. not pkd. 17 lbs. .... Complete, **\$13.00**  
4E298 Stone 4x14 1/2 in. Cap'y per hour 40 to 50 gal. Wt. not pkd. 30 lbs. Complete, **\$19.50**

#### Filtering Stones

4E284 Size 3x10 in. Wt. not pkd. 2 1/2 lbs. .... Each, **\$1.80**  
4E286 Size 4x14 1/2 in. Wt. not pkd. 3 1/2 lbs. .... Each, **\$3.20**

### BLOCK TIN PIPE, CHARGING HOSE AND CONNECTIONS FOR SODA FOUNTAIN USE

Block Tin Pipe We carry 3 sizes in stock. The sizes indicated are for inside measurements. 1/4 in. is the correct size for

all soda fountain use as the walls are heavier to withstand the high pressure of soda water. 3/8 in. pipe and 1/2 in. pipe are only used for special purposes of cooling near beer or city water.

18E1390 Opening 1/4 in. ... Per ft. **35c**  
18E1391 Opening 3/8 in. ... Per ft. **40c**  
18E1392 Opening 1/2 in. ... Per ft. **45c**

Charging Hose and Connections—For connecting gas drum to carbonator. Consists of 6 ft. of hose with a No. 18E1286 swivel and nut on each end. Wt. not pkd. 2 1/2 lbs.

18E1432.....Each, **\$2.25**

Charging Hose and Connections. For use with charging outfits for connecting gas drum to soda tank. Consists of 6 ft. section of 5-ply charging hose with black center, with No. 18E1283 clamp joint in one end and No. 18E1286 swivel and nut in other. The hose is securely fastened by means of No. 18E1287 clamps. Wt. not pkd. 2 1/2 lbs.

18E1397.....Complete, **\$2.25**

Clamp and swivel shown on page 85.

Charging Hose—For connecting gas regulator and steel soda tank of charging outfit. Will withstand pressure of carbonic acid gas.

Heavy 5-ply material, 3/8 in. bore. Wt. not pkd. 6 oz. per ft.

18E1395 Black center, .... Per ft. **30c**

# IMPROVED LEVER HANDLE ORANGE DRINK OR MILK PUMP

Pump With Agitator

## With or Without Agitator

This pump is equipped with adjustable top that can be fitted to any size opening from 7 in. to 10 in. in diam. It is so constructed that it is easily taken apart for cleaning. The ratchet gear principal and lever movements make it easy to operate. All parts of pump that come in contact with the liquid are pure block tin, heavily plated. The exposed parts of pump are nickel-silver and heavily silver plated. This pump can be used in any 5 gal. ice cream packer. Length of tube extending below cover 21 in. The nozzle is of special design, so as to prevent dripping. Wt. not pkd. 18 lbs.

**18E1332** With Agitator... Each, **\$40.00**

**18E1330** Without Agitator. Each, **35.00**

**18E1331** Without Agitator. With top to fit hole  $5\frac{1}{8}$  in. diam. when used in refrigerator cover of 1926 Model "Bilt-Rite" Mechanical Fountains. .... Each, **\$35.00**

Pump Without Agitator

## Milk Can

Very heavily constructed of copper, tinned inside and out. Size  $6\frac{1}{2}$ x- $9\frac{1}{4}$ x $21\frac{1}{2}$  in. For use in refrigerator section of 1926 Model "Bilt-Rite" Mechanical Fountains when No. 18E1331 Milk Pump is installed.

**18E1387** Wt. not pkd. 10 lbs. Each, **\$7.50**

## MOTOR BRUSH

For Nizer Compressor used on 1926 "Bilt-Rite" Mechanical Fountains.

**18E615** Per Pair, **\$1.00**

## Our Easy Terms Will Help You Finance Your New Equipment and Make It Pay for Itself as It Earns

A small cash payment—the balance in easy monthly installments, will buy any soda fountain listed in this book!

You can start in business—you can re-equip your business—you can enlarge your business. Only a small amount of capital is needed because our liberal partial payment plan helps you finance your deal and allows you to pay as you earn.

**See Page 65 for Details of Our Partial Payment Plan**

# IMPROVED AUTOMATIC TUMBLER RINSER

The Ideal Tumbler Rinser. Both Sanitary and a Time Saver

By placing tumbler inverted in rinser, a slight downward pressure releases water against inside of glass with revolving motion. At same time outside is thoroughly rinsed with a spray which comes from the top and sides. Upon releasing pressure on glass, water instantly stops. Made of heavy copper, finely nickel plated. The automatic device contains durable spiral spring. All connections with nipples. This rinser can be installed in any work board where there is room to cut a hole  $6\frac{1}{2}$  in. in diam. Outside diam. of rinser is  $6\frac{1}{2}$  in. and fits flush to top of drain board. Will accommodate any size glass. Shpg. wt.  $4\frac{1}{2}$  lbs.

**18E578** ..... Each, **\$14.95**

## Parts for Improved Tumbler Rinser

**18E605** Spray Tube Complete. Part with 3 tubes which spray glass from sides. .... Each, **\$3.75**  
**18E606** Bumper Plate. Complete with the 3 rubber cushions. .... Each, **1.50**  
**18E607** Complete Set. Spray nipple and valve with washers. .... Set, **2.00**  
**18E608** Complete set of washers for valves. .... Set, **.45**

# COOLING CYLINDERS

Made of heavy copper tubing, tinned on the outside and lined with seamless block tin tubing. The heads at either end are cast from pure block tin and sweated to copper tubing. Carbonated water does not come in contact with any metal other than block tin. Soda and Mineral cylinders are provided with valves to allow venting of any accumulation of gas

## SINGLE-CYLINDER VERTICAL ICE WATER COOLER

Size of cylinder 12 in. long by 2½ in. in diam. Wt. not pkd. 4 lbs.

**18E1450**..... Each, \$5.95

## TWO-CYLINDER VERTICAL SODA WATER COOLER

Size of cylinders 12 in. long by 2½ in. in diam. Wt. not pkd. 7 lbs.

**18E1452**

Each ..... \$11.75

## THREE-CYLINDER VERTICAL SODA WATER COOLER

Size of cylinders 12 in. long by 2½ in. in diam. Wt. not pkd. 12 lbs.

**18E1453**

Each ..... \$14.75

## SINGLE-CYLINDER HORIZONTAL ICE WATER COOLER

Size of cylinder 12 in. long by 2½ in. in diam. Wt. not pkd. 4 lbs.

**18E1451**..... Each, \$5.95

## SINGLE-CYLINDER HORIZONTAL SODA WATER COOLER

Size of cylinder 15 in. long, 2½ in. in diam. Wt. not pkd. 4 lbs.

**18E1454**..... Each, \$7.35

## TWO-CYLINDER HORIZONTAL SODA WATER COOLER

Size of cylinders 12 in. long, 2½ in. in diam. Wt. not pkd. 7 lbs.

**18E1457**..... Each, \$9.25

## FOUR-CYLINDER HORIZONTAL SODA WATER COOLER

Size of all cylinders 12 in. long by 2½ in. in diam. Wt. not pkd. 16 lbs.

**18E1458**..... Each, \$20.50

## SIX-CYLINDER HORIZONTAL SODA WATER COOLER

Large cylinder 16 in. long by 2½ in. in diam. Small ones 16 in. long by 1½ in. in diam. Wt. not pkd. 22 lbs.

**18E1459**..... Each, \$34.50

## THREE-CYLINDER HORIZONTAL SODA WATER COOLER

Size of cylinders 12-in. long, 2½ in. in diam. Wt. not pkd. 12 lbs.

**18E1480**..... Each, \$13.50

## SODA AND WATER COOLERS

For 1926 Model "Bilt-Rite" Fountains

Soda Water Cooler. Made of coiled block tin. 34 ft. long.

**18E1491** Wt. not pkd. 15 lbs. .... Each, \$18.00

Water Cooler. Made of coiled copper tubing, tinned, 34 ft. long.

**18E1492** Wt. not pkd. 15 lbs. .... Each, \$12.00

Expansion Chamber. Insures uniform flow of soda water without sputtering. Prevents back pressure knock.

**18E1335** Wt. not pkd. 5 lbs. .... Each, \$7.50

# SHUT-OFFS, CLAMPS, JOINTS, WASHERS AND COUPLINGS

## WOOD ROCKER

Used for charging portable steel fountains. Made of seasoned wood, finished in oak. Fitted with 3 ft. wood handle.

**18E1214**

Each, \$3.50

## WRENCH FOR GAS OUTFIT

Fits all connections and nuts on ordinary charging outfit and regulator. Malleable iron. Length 6 in. Wt. not pkd. ½ lb.

**18E1297**..... Each, 50c

## DRUM WRENCH

For opening and closing gas drums. Fits the standard makes. Made of malleable iron. Length 5¾ in. Wt. not pkd. 2 oz.

**18E1292**..... Each, 25c

## LEADER PIPE SHUT-OFF

To be placed along the line of leader pipe as a cut-off. Made of pure block tin. Wt. ½ lb.

**18E1467**..... Each, \$2.50

## TWO WAY LEADER PIPE SHUT OFF

For attaching two fountains to one draft arm or one draft arm to two fountains. A convenience where water is rapidly drawn. Adjusted by set-screw on top, and either outfit can be immediately shut off by shifting the lever. It never leaks. Made of brass, block tin lined. Complete with couplings as shown.

**18E1468** Wt. not pkd. 2¼ lbs. .... Each, \$3.00

## BRASS HOSE CLAMP

An ingenious little device for holding hose tightly in position on various styles of hose couplings. Made of brass. For ½ in. charging hose. Wt. not pkd. 1 oz.

**18E1287**..... Each, 10c

## SPRING CLAMP

Screws to wall and holds gas drum in position. Made of steel, black japanned. Size 9 in. long, 6 in. wide.

**18E1293**

Wt. not pkd. 1 lb. .... Each, 75c

## BLOCK TIN PIPE UNIONS FOR SOLDERING

For making soldered connections with male and female couplings. For block tin pipe measuring ¾ in. outside. Made of brass. Length over all 3 in. Wt. not pkd. 4 oz.

**18E1295**..... Each, 75c

## BLOCK TIN PIPE UNIONS FOR FLANGING

Consists of a male and female coupling arranged for making a connection by flanging our 18E1390 ¼ in. block tin pipe. Furnished complete with leather washers.

**18E1270** Wt. not pkd. 4 oz. .... Each, 75c

## FLANGE COUPLING SODA TEE For ¼ in. Block Tin Pipe

Two connections very often found useful in connecting two soda faucets to the same block tin soda water supply pipe. Made of brass, block tin lined. Connections are standard ½ in. flange couplings. Wt. ½ lb.

**18E1304** Soda Tee, complete with couplings as shown ..... Each, \$1.75

## "Y" FOR PIPE

A block tin "Y" which can be used as a branch between leads of pipe, connecting a soda tank to two faucets, etc. Fits ¼ or ¾ in. block tin pipe. Wt. not pkd. 1 oz.

**18E1291** ..... Each, 50c

## OPEN CLAMP

Used to hold clamp joint tightly to its position on cock of steel soda tank. Made of heavy malleable iron. Wt. not pkd. 12 oz.

**18E1290**

Each ..... \$1.25

## CLAMP JOINT FOR HOSE

Tail-piece is threaded for attaching to charging hose, while head is fastened to fountain cock with an open clamp which makes a gas-tight connection. Made of brass, block tin lined. Wt. not pkd. 4 oz.

**18E1283**..... Each, 50c

## CLAMP JOINT WITH CHECK VALVE

Used on tank end of leader pipe. The rubber ball check valve prevents the wasting of soda water which is in the coolers when the soda tanks are changed. The thread is ½ in. standard; will fit carbonator leader pipe when tank is used for emergency or can be attached to carbonator—the threads are the same. It is a simple matter to make a flange connection; sleeve the pipe through the hollow tail-piece and hammer the edge over smoothly to fit against a leather washer—no solder needed. Made of brass, lined with block tin. Complete with flange connection. Wt. not pkd. ½ lb.

**18E1281**..... Each, \$1.25

## CLAMP JOINT FOR SOLDERING

Tail-piece is smooth for soldering to block tin leader pipe, while head is fastened to fountain cock with an open clamp which makes a gas-tight connection. Made of brass, block tin lined. Wt. not pkd. 4 oz.

**18E1282** ..... Each, 60c

## LEATHER WASHERS

For ½ in. Couplings. Diam. ¾ in., ¾ in. hole. Used for ½ in. couplings on leader pipe and coolers.

**18E1309**..... Doz. 80c

## HARD FIBRE WASHERS

For ½ in. Couplings. Diam. ¾ in., ¾ in. hole. Used for ½ in. couplings on carbonators and gas regulators.

**18E1310**..... Doz. 40c

**18E1393**..... Doz. 40c

## LEATHER WASHER FOR CLAMP CONNECTIONS

For attaching clamp connections to portable steel fountains.

**18E1311**..... Doz. 90c

## PIPE COUPLING

Coupling with standard ½ in. thread. Hollow tail-piece for flanging ¼ in. block tin pipe. No solder necessary. Fits all our coolers, carbonator and leader pipe connections to our fountains.

**18E1306**..... Each, 50c

## COUPLING WITH CORRUGATED TAIL-PIECE

½ in. Coupling with Corrugated Tail-Piece. For attaching to hose. Used on charging hose and hose from carbonator to regulator.

**18E1286**..... Each, 60c

## SPECIAL ADAPTER

Special coupling to be used as an adapter. Will connect leader pipe which has a ½ in. coupling to a cooler or leader which has a ¾ in. thread. Male end of this coupling is standard ½ in. thread and female end is ¾ in. old style cooler thread.

**18E1462**..... Each, 50c

# DRAFT ARMS, SYRUP PUMPS, SINK FAUCETS

**NOTICE**—All draft arms are made of cast bronze, heavy silver plated, burnished and block tin lined. Shanks are ½ in. iron pipe size.

**2-WAY PLAIN WATER DRAFT ARM**  
11½ in. and 7½ in. from bottom of nozzle to center of shank. Shpg. wt. about 9 lbs.  
**18E1325**.....Each, **\$33.75**

**PLAIN OR SODA DRAFT ARMS**  
Made in 2 sizes. **Low draft** measures 5 in. from end of nozzle to center of shank. **Tall draft** measures 7 in. from end of nozzle to center of shank.

**Low Style Clear Counter**  
**18E2626** Soda draft. Shpg. wt. about 9 lbs. Each, **\$15.00**  
**18E2650** Plain water draft. Shpg. wt. about 9 lbs. Each, **\$15.00**

**Tall Style Clear Counter**  
**18E2628** Soda draft. Shpg. wt. about 9 lbs. Each, **\$16.50**  
**18E2629** Plain water draft. Shpg. wt. about 9 lbs. Each, **\$16.50**

## DRIP PLATES

Made of heavy nickel-silver with outlet to drain into drip plate below draft arms. For use with 18E1325 Two-Way Water Arm.

**18E2631** 12x18 in. Wt. not pkd. 6½ lbs. Each, **\$15.00**  
**18E2632** 14x18 in. Wt. not pkd. 7 lbs. Each, **\$19.75**  
**18E2630** 16x18 in. Wt. not pkd. 7½ lbs. Each, **\$22.50**

## SODA DRAFT STAND

Perfect in action. Has double spray faucet of the most improved pattern. Both fine and coarse streams obtained through the same outlet by simply swinging handle backward and forward. Fitted with an onyx ball handle. Lined with block tin, and has heavy silver plating, which will retain its brilliancy for years. Ht. 16 in. Length of shank, which goes through counter top, 4 in. Diam. of shank, 1½ in. Furnished complete with couplings.

**18E1313** With one faucet, as shown in illustration. Wt. not pkd. 7½ lbs. Each, **\$19.80**

## GOOSE NECK DRAFT ARMS

Used on 1925 and 1926 "Bilt-Rite" mechanical fountains. 7 in. from nozzle to center of shank.

**18E2633** Soda draft. Wt. not pkd. 6 lbs. Each, **\$14.25**

**18E2634** Plain water draft. Wt. not pkd. 6 lbs. Each, **\$14.25**

## GOOSE-NECK TYPE PLAIN WATER DRAFT ARM

For use in connection with clear counter service. Can be attached to any fountain of this type. Especially designed to dispense plain water rapidly. Very easily operated by simple turn of handle. Made of brass, silver plated, with small porcelain handle. Total height 6 in. Length 7 in. Furnished with coupling and flange. This "Goose-Neck" faucet is designed especially to be used with soda fountain equipment sold by us. Be sure of the correct size before ordering. Wt. 2½ lbs.

**18E2627**.....Each, **\$7.50**

# FAUCET REPAIR PARTS

## ONYX BALL HANDLE FOR SODA OR PLAIN WATER FAUCET

A perfectly round ball made of beautiful onyx. Note that there is a threaded attachment fastened into this ball to screw into metal lever of faucet. Thread size ¼ in. Wt. 4 oz.

**18E1473**.....Each, **\$1.00**

## BENT TAIL PIECE AND COUPLING FOR SHANK

Coupling is ½ in. thread and made of brass. Tail piece is of tin and projects from coupling so as to make possible soldering of leader pipe from faucet to cooler.

**18E1469**.....Each, **50c**

## HARD RUBBER NOZZLE FOR SODA OR PLAIN WATER FAUCET

Made of a hard composition rubber, black in color. Standard thread to fit faucets on soda fountain or as an extra faucet. Wt. 1 oz.

**18E1470**.....Each, **50c**

## HEXAGON WASHERS (Actual Size)

Made of a specially selected leather to withstand the carbonic acid gas contained in soda water. Size 1½ in. Wt. 1 oz.

## For Soda Faucets

**18E1471**  
Doz....**\$1.00**  
Each....**10c**

## For Plain Water Faucets

**18E1472**  
Doz....**\$1.00**  
Each....**10c**

## SEAT VALVE OR TUMBLER FOR FAUCETS (Actual Size)

Made of bronze, carefully machined and drilled. This valve is very efficient and makes possible a faucet that is as near leak proof as possible. 1½ in. Wt. 5 oz.

**18E1475** For Soda Faucets.....Each, **\$1.25**

**18E1476** For Water Faucets.....Each, **1.00**

## PIX AND "BILT-RITE" SODA FOUNTAINS ONLY

## SIDE BOLT FOR FAUCET HEAD

Made of bronze, silver plated. Used for holding handle and side cap of faucet head. Wt. 2 oz.

**18E1477**.....Each, **50c**

## ADJUSTING THUMBSCREW

Made of bronze, silver plated. Used for holding seat valve handle and side cap of faucet together. Also serves as a regulator of flow of liquid and to stop leaking, etc. Wt. about 2 oz.

**18E1415**.....Each, **35c**

## SPANNER WRENCH FOR FAUCETS

Made of malleable iron. Has sharp projections to fit into side cap of faucet which is removed in order to insert new washers. Wt. 4 oz.

**18E1474**.....Each, **50c**

## SINK FAUCETS

**Overhead Style.** High grade, heavily nickel plated. Full opening on ¼ turn. White porcelain handle. Used on 1926 "Bilt-Rite" mechanical fountains. Wt. not pkd. 1½ lbs.

**18E1225**.....Each, **\$3.75**

**Bottom Inlet Style.** High grade. Globe valve and iron pipe fittings. Will fit ½ in. iron pipe. Wt. not pkd. 1½ lbs.

**18E1226**.....Each, **\$2.75**

## STANDING OVERFLOW PIPE For Sinks

Brass, nickel plated. 8 in. high. Fits ¾ in. waste plug. Has rubber gasket on bottom end.

**18E1488**.....Each, **75c**

**Rubber Gasket for Above**

**18E1489**.....Each, **15c**

**IMPORTANT**—All items on this page are made for Pix and "Bilt-Rite" fountains only. If ordered for use on other fountains, be sure they will fit.

## NEW STYLE SYRUP PUMP

For 1926 "Bilt-Rite" Mechanical Fountains

## EXPOSED TYPE SYRUP PUMP

1925 Mechanical Fountain Style Oval Top

Syrup comes in contact only with pure block tin. Oval cover and exposed parts silver plated and burnished. Pump easily taken apart and thoroughly and quickly cleaned. Dispenses all of the syrup in the container. Pump does not agitate syrup. Pump is adjustable to serve 1 to 1½ oz., adjustment is positive and quickly made and cannot be disturbed. Pump is instantly responsive in action, 1 full stroke of plunger for required amount of syrup. Fits only our No. 18E1503 jar. Wt. not pkd. 2½ lbs.

**18E1487**.....Each, **\$13.50**

## EXPOSED TYPE SYRUP PUMP

Syrup pump is of exceptionally heavy construction. The supporting and plunger rods are reinforced with nickel-silver tubes. No syrup can come in contact with any metal other than pure block tin, as tubes are lined inside and out with pure block tin. The upper part of pump showing above jar is heavily silver plated. Pump is adjustable to serve from ½ to 1½ ozs. Fits our No. 18E1503 jar only. Shpg. wt. 5 lbs.

**18E1486**.....Each, **\$12.00**

## SYRUP PUMP OR CRUSHED FRUIT BOWL LABELS

Made of vitrified china. Can be supplied with the following names:

Pineapple	Maple
Strawberry	Raspberry
Cherry	Coca Cola
Banana	Root Beer
Green River	Gingerale
Nectar	Blackberry
Chocolate	Peach
Lime	Marshmallow
Lemon	Plain
Vanilla	

Specify which is wanted when ordering.

**18E1530**.....Each, **10c**

# SYRUP & CRUSHED FRUIT JARS, DISHER VATS, ETC.

**IMPORTANT** Items on this page are for use on Pix and "Bilt-Rite" fountains only. If wanted for use on other fountains be sure they will fit before ordering.

**EXPOSED TYPE SYRUP JAR**

Made of vitreous china. Used in jar rack on our "Bilt-Rite" mechanical fountains only. Wt. not pkd. 5 1/2 lbs. Oval opening.

**18E1503**  
Each, \$2.25

**EXPOSED TYPE SYRUP JAR**

Syrup jar is made of vitreous china, will not craze on check. Used with our No. 18E1434 pump. Fits our fountains only. Note measurements given on illustration and avoid errors in ordering. Cap'y 3 qts. Wt. not pkd. 3 1/2 lbs.

**18E1440**.....Each, \$2.25

**SYRUP JAR**

Syrup jar is made of the same vitreous china as all our jars. Used with either No. 18E1435 or 18E1436 pumps. Fits our fountains only. Note measurements on illustration and avoid errors in ordering. Cap'y 3 qts. Wt. not pkd. 3 lbs.

**18E1441**.....Each, \$2.25

**ENCLOSED TYPE CRUSHED FRUIT JAR**

This crushed fruit bowl is also made of vitrified china. Used with our No. 18E1437 cover. Fits our fountains only. Note measurements on illustration and avoid errors in ordering. Cap'y 2 qts. Wt. not pkd. 2 1/2 lbs.

**18E1443**  
Each, \$2.25

**EXPOSED TYPE CRUSHED FRUIT JAR**

Made of vitreous china. Used in jar rack on our "Bilt-Rite" mechanical fountains only. Wt. not pkd. 5 lbs.

**18E1501**  
Each, \$2.25

**Covers for Above Jar**

**18E1502** As shown on above jar.  
Each, \$3.50

**EXPOSED TYPE CRUSHED FRUIT JAR**

Crushed fruit jar. Made of vitreous china. Used with our No. 18E1438 cover. Fits our fountains only. Note measurements given on illustration and avoid errors in ordering. Cap'y 5 pts. Wt. not pkd. 3 1/2 lbs.

**18E1442**.....Each, \$2.25

**EXPOSED TYPE CRUSHED FRUIT COVER**

Hinged crushed fruit bowl cover used on exposed type jars. Stamped from one piece nickel-silver, heavily silver plated. Fits our No. 18E1442 crushed fruit jar only. Shpg. wt. 1 lb.

**18E1438**.....Each, \$2.25

**COUNTERSUNK CRUSHED FRUIT CONTAINER**

To be countersunk in refrigerator cover. Requires opening 6 1/2 in. in diam., extends 9 in. below rim. Made of vitreous china with cover. Cap'y 2 qt. Wt. not pkd. 3 lbs.

**18E1508** With china cover.  
Each, \$2.75

**18E1333** Spun nickel-silver cover only.  
Each, \$1.25

**COUNTERSUNK CRUSHED FRUIT BOWL**

Made of vitreous china, complete with cover. Diam. at top 5 1/2 in. Requires an opening of 5 1/2 in. in diam. Extends 6 1/2 in. below rim. Cap'y 3 pts. Wt. not pkd. 2 1/2 lbs.

**18E1444** With china cover.....Each, \$2.25

**18E1334** Spun nickel-silver cover only.....Each, \$1.00

**COUNTERSUNK GLASS CRUSHED FRUIT BOWL**

Glass fruit bowl complete with glass cover. Diam. of top 5 1/2 in. Requires an opening 5 1/2 in. in diam. Extends 6 1/2 in. below rim. Used in bottle and pump boxes. Cap'y 3 pts. Wt. not pkd. 2 lbs.

**18E1447**  
Each.....75c

**WHIPPED CREAM CONTAINER**

To be countersunk in refrigerator cover for mechanical fountain. Requires opening 6 1/2 in. in diam., extends 9 in. below rim. Monel metal can with spun nickel-silver cover. Wt. not pkd. 2 lbs.

**18E1509** Cap'y 1 gal.  
Each, \$15.00

**LIME OR CHIPPED ICE BOX**

Top frame and removable cover of nickel-silver. Lower part of tinned copper. Used in jar rack of "Bilt-Rite" mechanical fountains only and requires the same space as 3 of our No. 18E1503 syrup jars. Wt. not pkd. 5 lbs.

**18E1511**.....Each, \$22.50

**SPOON VAT**

Made of vitreous china. Compartments for 2 sizes of spoons. Used in jar rack on our "Bilt-Rite" mechanical fountains only. Requires same space as our No. 18E1503 syrup jar. Wt. not pkd. 0 lbs.

**18E1510**.....Each, \$3.75

**HOODED DISHER VAT**

Used in jar rack of our "Bilt-Rite" mechanical fountains. Exposed part is nickel-silver, unexposed part is tinned copper. Requires same space as our No. 18E1503 jar. Wt. not pkd. 2 lbs.

**18E1512**  
Each, \$2.50

**RUNNING WATER DISHER VAT**

The strongest disher vat on the market. Made entirely of metal, highly finished, side overflow. 1 in. soldering nipple on outlet, 3/8 in. threaded nipple on inlet. Made to be countersunk in drainboard. Requires opening 6 1/2 in. in diam. Wt. not pkd. 5 lbs.

**18E1507**  
Each, \$13.50

**VITREOUS CHINA DISHER VAT**

Made to be countersunk in work board. Requires an opening 5 1/2 in. in diam. Extends 5 in. below rim. Wt. not pkd. about 2 lbs.

**18E1449**  
Each.....\$1.75

**VITREOUS CHINA WASTE CHUTE**

Made to be countersunk in work boards. Requires an opening 5 1/2 in. in diam. Extends 5 in. below rim. Has no bottom. Wt. not pkd. 2 lbs.

**18E1448**  
Each.....\$1.75

## LOOK THROUGH THIS CATALOG CAREFULLY

We are headquarters for soda fountain equipment. We handle everything necessary for the operation of the soda parlor or soda fountain department. Thousands of dollars worth of soda fountain equipment and supplies are sold by us yearly all over the country, and this is due simply to the fact that we sell dependable products at low prices consistent with their quality. Our Soda Fountains represent the results of years of experience and effort in the development of design and manufacture.

# IMPROVED HIGH GRADE POWER ICE CREAM FREEZERS

## IMPROVED 20 QT. GEAR DRIVE FREEZER

### EXTRA HEAVY BASE

For Steam, Gas or Electric Power

An efficient, practical freezer extremely well suited for making ices, sherbets, and small batches of fancy ice cream. Made of cast iron, firmly fitted to a heavy base. Small gear and pulley run on a stud which is screwed into place, and locked with a lock nut. The can is made of copper, heavily tinned on the inside. The dasher is made of heavily tinned malleable iron, while the dasher scrapers are of the best flexible sheet steel, tinned. The tub is of Virginia seasoned cedar, with heavy galvanized iron hoops and two well riveted handles. The wall of the tub is absolutely solid as the staves are tightly dovetailed into each other. This machine can be run direct from a motor without countershafts. All gears are guarded. Equipped with an 18 in. diam., 3 in. pulley, the speed of which is 350 R. P. M. Floor space is 33x20 in. Ht. 36 in. Shpg. wt. 250 lbs.

9E4430F Cap'y 20 qts., Each, **\$84.00**

### IMPROVED ICE CREAM FREEZERS As Above But With Tight and Loose Pulley

9E4433F Cap'y 40 qts., Each, **\$125.00**  
9E4432F Cap'y 20 qts. Has 12x3 in. tight and loose pulleys, the speed of which is 125 R.P.M. Requires 1 H.P. Motor. Shpg. wt. 250 lbs., Each, **\$84.00**

## IMPROVED MOTOR DRIVEN FREEZER AND ICE CRUSHER

An ideal freezer and ice crusher, made of heavy cast iron, united on one base. The freezer and crusher may be operated separately, thus saving power and wear and tear on the machine. A 2 H. P. motor which is supplied in either Alternating or Direct Current is securely bolted on the machine with a guard to protect it from the ice. It is provided with a noiseless fibre pinion running into cut gears, all well guarded to prevent accident. Operating cost about 5c per hour.

The freezing can is made of heavy copper with a brass bottom and is heavily tinned on the inside. The beater is specially designed to whip up the contents. The cream is prevented from crusts on the sides of the can by flexible sheet steel scrapers. The cover is of cast iron, galvanized inside for viewing contents.

Inside and out equipped with two heavy plate glass windows. Glass is fastened in with a salt-resisting cement. The dasher, which is of copper, moves in opposite direction to that of the can. The can revolves about 125 R. P. M. and will turn out 250 gals. of cream daily. The tub is of Virginia seasoned cedar, equipped with two galvanized handles and bung hole protector. A block of ice 12x12 in., and of any length, need be lifted only 2 1/2 ft. from floor to be placed in the crusher. It will crush about 3 tons of ice per hour. Pegs are made of steel, cast into the cylinder so they cannot fall out and break other parts of machine. Complete Ice Cream Freezer, Ice Crusher and Motor in one machine furnished for either alternating or direct current.

With 20 Qt. Freezer. Floor space 26x32 in. Ht. 43 in. 1 H. P. motor. Shpg. wt. 500 lbs.

## IMPROVED MOTOR DRIVEN POWER FREEZERS

CAPACITY 40 QUARTS

**\$227<sup>00</sup>**  
and up

This freezer is of the same reliable construction as the one described at the left. The can, tub, beater and cover are the same. The motor is firmly bolted to the bracket and is equipped with a noiseless fibre pinion running into a cut gear. This freezer has no ice crushing attachment. A 2 H. P. motor—either Alternating or Direct current is required, costing about 5c per hour to operate. The can revolves about 125 R. P. M. and will turn out about 250 gallons of cream daily. All gears are guarded. Space required 42x32 in. Ht. over all 56 in. Cap'y of freezer 40 qts. Shpg. wt. 330 lbs.

## 20 QT. FREEZER WITH MOTOR ATTACHED

This machine is used in hospitals, or other places where it is desirable to make a small amount of cream at one time. The construction is similar to the 10 gallon motor driven freezer. All gears are guarded to prevent accident. It is equipped with a 1 H. P. motor and costs 3c per hour to operate. The tub is made of Virginia cedar. The can is made of heavy copper with brass bottom, well tinned inside. The cover has two small glasses to view the cream. The beater is well made and heavily tinned. Floor space 42x20 in. Ht. 36 in. Shpg. wt. 430 lbs.

## "CHAMPION" COMBINED ICE BREAKER AND ICE CREAM MACHINE

Ice Breaker and Freezer Operates Together or Independently. Patented clutch arrangement similar to that on an automobile. Enables the ice breaker and the freezer to operate either independently of each other or together. A swing of a lever sets either section in operation.

There is a twofold advantage in this clutch. First, the saving in power; second, the saving in wear and tear. It is quite evident that it takes more power to operate both sections together than it does to operate only one. The same applies to the wear and tear on the motor and the working parts. Very often only one section is used at a time and for such purposes there is no better and more economical machine than the "Champion" No. 5.

The frame is absolutely rigid and free from vibration. Bearings have ample provision for lubrication, resulting in maximum resistance to

wear. The gears are permanently set into correct position and therefore need no further adjustment and cannot slip out. The gears run in oil making action smooth and eliminating friction. The tub is of very heavy selected Virginia White Cedar, painted on inside and outside with acid resisting paint. The ice cream can is made of heavy copper, and is of 40 quart capacity. The ice breaker is of heavy construction. Diamond pointed teeth are set in sockets on drum. Ice can be cut fine, medium, or coarse by turning a thumb screw. Shipped from Factory in New York City.

Made only for motor drive. Size of motor, 2 H. P. Floor space, 60x32 in. Machine is 61 in. high. Breaker hopper, 16x17 in. Shpg. wt. 1,650 lbs.

# WHAT IS QUALITY

Quality in merchandise is that which represents excellence in workmanship and durability in materials, and which indicates the degree of their worth. It is the one thing, and the **only** thing, by which you should judge the merchandise you buy.

The shrewd buyer of today does not buy on price alone because he knows that a low price in itself is not a correct indicator of the value he is receiving. He knows that true value in merchandise is based on how much he gets for the money he pays—not on how little he pays for what he gets. It is service, **actual service**, which finally proves which is the cheapest merchandise to buy. Quality merchandise is always cheaper because it gives more satisfactory service, because it looks better, and, what is most important, because it lasts longer.

Use this thought as your yardstick when you are buying and bear it in mind when you look through the pages of this catalog.

**Our Merchandise Is  
Quality Merchandise.**

# ICE BREAKERS, CRUSHERS AND FREEZERS

## ICE BREAKERS OR CRUSHERS—Built for Service and Durability

**Small Ice Crusher**—For counter and individual service. Splendid to crush ice for cooling drinks. Also suitable for restaurants, confectioners, hospitals and private homes. Cuts ice evenly and eliminates waste. The price is so low that any kind of establishment that uses crushed ice can afford to put several of these in service. Strongly built for real service. The strong driving wheel exerts considerably more power than does the direct connected plain handle type. Made of strong cast iron, heavily retinned throughout.

Ht. over all 13 in. width including handle 12 in. Fly wheel 12 in. diam. Hopper 5x5 in. Shpg. wt. 25 lbs.

**9E3028** Ice Crusher only. Pan not included.....Each, **\$8.00**

**"New Rapid"**—Extra heavy cast iron body, thoroughly galvanized, round steel cylinder with eight perfectly tempered removable steel picks. Heavy fly wheel makes operation easy. Floor space 12x12 in. Takes ice 6x8 in., any length. Size of hopper 7 1/2 x 9 in. Ice pan 8 1/2 x 12 1/2 in. Ht. 6 1/2 in. Fly wheel 13 in. diam. Ht. over all 17 in.

**9E3027** Shpg. wt. 46 lbs. Each, **\$18.00**

### THE JACK FROST ICE SHAVER

**MAKES A POPULAR 5c SELLER**

Made especially for making Snow Ice Balls, which with flavor added make a fast-moving popular 5c seller. Used by confectioners, concession men at Ball Parks, Amusement Parks, Summer Resorts,

etc. To operate, pack ice into opening of hopper and turn driving wheel. The heavy cast iron arm which fits into hopper acts as a pressure bearing down on and forcing the ice into two sharp steel knives, which work as slicers in cutting the ice evenly into regulation size. Glass or receptacle placed under knives, receives the ice as it drops through. Made of heavy cast iron, painted aluminum finish. Ht. to top of hopper 15 1/2 in., length of base 14 1/2 in. Shpg. wt. 67 lbs.

**9E3029** Ice Shaver only. Glass not included.....Each, **\$21.00**

**"Creasey" Medium**—A very popular size for operators who need a somewhat larger hand machine than No. 4E3054. Ice opening 9 1/2 x 14 1/2 in. Floor space 14 x 25 in. Complete with 7 tooth fine comb and 4 tooth coarse comb. For hand operation, **9E3055** Wt. 225 lbs. Each, **\$55.00**

**"Creasey" Midget**—A small size which is widely used. Floor space 12x15 1/2 in. Ht. 17 in. Hopper 7x9 1/4 in. Japanned finish. Complete with wooden baseboard, galvanized ice pan and agate handling scoop. For hand operation. Complete with 8 tooth fine comb and 4 tooth coarse comb. **9E3054** Wt. 100 lbs. Each, **\$34.50**

**New Model Motor Driven "Creasey"**—For hotels, restaurants and institutions. Cap'y 1 to 2 tons per hour. Made of best materials and will give long service. Floor space 16x24 in. Ht. 34 in. Hopper 9 1/2 x 14 1/2 in. Drum 12x8 1/2 in., fitted with 8 picks. 2 combs for regulating size of broken ice; a fine comb with 7 teeth and a coarse comb with 4 teeth. Shipped completely assembled with motor, chain protected by steel casing and cast iron base for storage of broken ice. **Shipped from factory in Pennsylvania.** Shpg. wt. about 500 lbs.

**Direct Current**—1/2 H. P. Motor. **9E3018F** 110 volts. **9E3019F** 220 volts.

### THE NEW DESIGN TRIPLE MOTION "WHITE MOUNTAIN" ICE CREAM FREEZER

The triple motion produces excellent results. The can moves from right to left, scrapes the frozen cream from the inside of the can and throws it to the center. At the center the floats of the inside beater, which move in the opposite direction, return the contents to the outer edge. This keeps the cream in constant motion, thoroughly mixes it, and produces a smooth and delicious cream. This is the only freezer on which the speed can be regulated to conform with the formula for perfect ice cream. The freezer should start slowly and the speed be gradually increased as freezing commences; after freezing is started the speed should be increased until the greatest degree of swelling is accomplished. The cream instead of absorbing air, expels it, producing a cream that will stand up and be of a richness and tastiness that is unsurpassed.

Every part of the freezer that comes in contact with the cream is heavily plated with block tin, making it rust proof and sanitary. The tub, can and all parts of the freezer are made of the best materials and are guaranteed satisfactory in every respect.

#### TRIPLE MOTION HAND FREEZER WITH CRANK

# ICE CREAM TUBS, CANS, MOULDS

PAILS, CYLINDERS,  
TANKS and TRUCKS

## ICE CREAM PACKING TUBS

Made of Selected Everlasting White Cedar

These practical, strongly made tubs combine utility, cleanliness, economy and service. Made of seasoned close-grained white cedar, treated to resist water absorption and to stand hard usage. In actual experience, white cedar outlasts all other woods for ice cream packing tubs. The tubs are tightly bound by heavy galvanized hoop bands. Staves and bottoms tongued and grooved. Extra thick bottoms on 8 and 12 qt. sizes; double bottoms on 20 and 40 qt. sizes. All have galvanized drop handles.

## CREAM OR MILK STRAINER

Made of XX charcoal tin with a heavy wire edge. Handles soldered to side. Has a fine brass wire mesh with detachable rim at bottom for putting on cheese cloth. Top 12 in., bottom 5 in. Ht. 8 1/4 in.

4E6320 Wt. 3 lbs. Each, \$1.85

## CEDAR CARRY-OUT PAILS

62c For  
Each 2 Qts.

Made of everlasting aromatic Virginia white cedar, the best known wood for resisting moisture. Carefully constructed and bound with heavy steel wire. Heavy wire bail handle with large hardwood grip.

2 qt. Diam. inside; top 9 in., bottom 7 in., depth 9 in. Wt. not pkd. 3 lbs. Each, 62c (Doz. \$6.90)

4E2084 Cap'y 4 qt. Diam. inside; top 11 in., bottom 9 in., depth 11 in. Wt. not pkd. 5 lbs. (Doz. \$10.00) Each, 93c

## "IXL" TRUCK WITH CHAIN

Made entirely of iron and steel. A handy truck for handling packers, freezers, barrels, boxes, ash cans, etc. The chain is clamped around the object to be trucked, and draws the load towards the truck from the opposite side. Also makes it impossible for a barrel to roll off. The double bars have sliding clamp so chain can be raised or lowered to any position. Size axle 17 in.; wheels 4 in.; length 36 in. Wt. about 17 1/2 lbs.

4E3954

Each, \$3.75

## ICE CREAM MOULDS

The lead ice cream moulds shown here are very strongly made. They embody the latest and most popular designs. Prices on styles and sizes not shown here quoted on application. Shpg. wt. about 10 oz. each.

## AXES, SAWS, CREAM BEATER ICE CREAM MAKERS' NEEDS

### SPEAR ICE PICK

Solid Construction—Low Price

A splendid pick of tempered steel with a 2½ in. taper and needle point. Nickel plated blade. Has a hardwood handle, fitted with a heavy tinned cap for cracking purposes. Total length 9½ in. Wt. not pkd. 5 oz.

4E6544.....Each, **18c**

### RAPID ICE CHIPPER

Very Efficient, Saving Time and Labor

A strong, well made tool with hardwood handle and six fine steel picks. Works easily and quickly. 9½ in. long and 2½ in. wide.

4E6547 Wt. not pkd. 6 oz.....Each,

**35c**

### "LEADER" ICE SCOOP

Price Is Very Special

Our heaviest and most substantial low priced ice scoop. Made of heavy brass, highly nickel plated and polished. Shank extends entirely through polished hardwood handle. Securely fastened by a lock-nut. Nickel plated ferrule. Length 11 in. Wt. not pkd. 8 oz.

4E6535.....Each, **95c**

### NEEDLE ICE PICK

An excellent pick for the money. Has a fine tool steel blade, and hardwood knob handle. Total length 9½ in. Wt. not pkd. 2 oz.

4E6545.....Each, **10c**

### ICE SHAVER

One of our best values. Blade made of specially tempered polished steel, with sharp, well formed teeth. Shaped hardwood handle varnished and topped with a heavy polished metal cap. Total length 9 in. Wt. not pkd. 8 oz.

4E6508.....Each, **35c**

### SPADE ICE SHAVER

Convenient and easy to use. Four-point blade of finely tempered steel, handle and shank of hardwood, joined firmly together. Length over all 42 in. Wt. not pkd. 2½ lbs.

4E6512.....Each, **\$2.50**

### ICE AXE WITH PICK

A fine axe with a blade of good Bessemer steel, 2½ in. wide. Handle of hardwood. Total length, 27 in. Wt. not pkd. 3¼ lbs.

4E6522.....Each, **\$3.00**

### ICE SHOVEL

Galvanized steel perforated ice shovel. Best hardwood handle, securely and firmly riveted together. Popular, practical and useful to those who handle broken and small pieces of ice. Size of ordinary scoop shovel. Total length 41 in. A very splendid value. Wt. not pkd. 6 lbs.

4E6524.....Each, **\$2.75**

### ICE RAMMER

For packing ice cream cans. Made of hard maple. Head measures 2½x8 in. Total length 35½ in. Wt. not pkd. 2 lbs.

4E6523.....Each, **75c**

### ICE AND SALT SCOOP

For packing tubs. Strongly made of galvanized iron with hardwood back.

4E2091 Cap'y 4½ lbs. Size, 4½x6½x12½ in. Wt. 16 oz.....Each, **35c**

### "KRUSTY KORN" BAKER

Turn to page 94 and see Our New Money Maker. Cooks Frankfurters and Hamburger in Corn and Molds them like an Ear of Corn. They're going to be a Big Hit.

### "ECONOMY" CREAM AND TOPPING BEATER

Simple Construction. Easy to Operate. Easy to Keep Clean. Low Prices

Because of its simplicity of construction, ease of operation and durability the "Economy" is one of the most popular cream and topping beaters made. It is an item which will interest every soda fountain proprietor, because of its economical and service-giving qualities. It beats cream and marshmallow topping efficiently and quickly, doing it more satisfactorily than by any other means yet discovered. It is easy to keep clean because of the simple construction and small number of parts. All interior parts are covered with tin to insure sanitation. We call particular attention to the prices which are exceptionally low for an article of this high quality.

4E2558 Cap'y 6 pts. Size 10x6x5½ in. Wt. not pkd. 2½ lbs. Each, **\$2.10**

4E2559 Cap'y 9 pts. Size 10½x6½x6¼ in. Wt. not pkd. 2½ lbs. Each, **\$2.35**

4E2560 Cap'y 16 pts. Size 12½x7½x8¾ in. Wt. not pkd. 4 lbs. Each, **\$5.00**

### PARKER ICE CRUSHER

A heavy powerful tool for smashing cakes of ice. Has 5 extra strong steel points securely fastened in malleable iron head. These points can easily be replaced. Hardwood handle 40 in. long. Shpg. wt. 8½ lbs.

4E6519.....Each, **\$2.50**

### FAVORITE ICE SAW

Specially made for rapid and smooth ice cutting. Best quality steel blade, handle of cast iron. It will do its work indefinitely. No. 4E6525 Total length 34 in. Wt. not pkd. 4 lbs. Each, **\$3.00**

### "HANDY" ICE PLANE

Simply push the tool over your cake of ice, and the shavings are collected inside. Will cut fine or coarse as desired. Strongly made of retinned iron and fitted with an adjustable blade. Length 6¼ in. Wt. not pkd. 1¼ lbs.

4E6507 Each, **50c**

### ICE CREAM TRUCK

For moving packing tubs. Made of poplar, in cross layers, to prevent splitting. 18 in. Strong and durable. A very necessary article. Wt. about 14 lbs.

4E2086.....Each, **\$3.75**

### RUST PROOF STEEL ICE TONGS

Valuable to all who handle ice in blocks. Made of the best quality hand forged steel. The points, being specially tempered, make its grip strong and reliable. Securely riveted. Opens 16½ in.

4E6533 Wt. not pkd. 4 lbs. Each, **\$2.25**

### EXCELSIOR" ICE SCALE

Made strong and extra heavy. Is fully guaranteed and warranted. Has hook upon which to suspend ice tongs.

4E1800 To weigh 200 lbs. by 5 lbs. Wt. not pkd. 5¼ lbs. Each, **\$5.25**

### IMPORTED CZECHO-SLOVAKIA WHITE ENAMELED MEASURES AND FUNNELS

Highest grade pure white enamel ware. Heavy steel body. Texture of enamel extra firm. With ordinary care will not chip or scale. Will give complete satisfaction.

#### Seamless Measures

4E2155 11	4 lbs.	3.95
4E2156 12	4 lbs.	3.95

# ICE CREAM CABINETS AND ICE CHESTS

## MAHOGANY FINISH ICE CREAM CABINETS

These Ice Cream Cabinets are of standard size and construction and are made especially for us.

Made of first quality ceiling cypress, rich mahogany finish with waterproof varnish. Ht. 34½ in., width 22½ in. Top flush with rim, hence no exposed wearing surface. Sides securely fastened to hardwood corner posts, which are saturated in oil to prevent decaying.

**Insulation:** Ground cork between 1 in. wood outer wall and wood inner wall. Cork insulation all around, being 3 in. thick on bottom and tapering on sides to 2 in. thick at top. Insulating paper between walls and cork. **Lining:** "Armco" rust-resisting iron, may be taken out by removing four small strips inside rim and loosening faucet and lock-nut. Improved nickel plated brass faucet. **Shipped from factory in Wisconsin.**

**NOTE—Prices include heavy galvanized iron packing can cylinders only. For packing cans see index.**

<b>29E4250F</b> Cap'y one 5-gal. can. Length 21 in. Shpg. wt. 129 lbs. Each,	<b>\$22.00</b>
<b>29E4251F</b> Cap'y two 5-gal. cans. Length 35½ in. Shpg. wt. 200 lbs. Each,	<b>30.00</b>
<b>29E4252F</b> Cap'y three 5-gal. cans. Length 50 in. Shpg. wt. 255 lbs. Each,	<b>39.75</b>

## BRINE WELL CABINETS

Requires ¼ less ice and salt for first filling and ¼ to ½ less for refilling.

Illustrating 29E4267F

No ice or brine comes in contact with cans. Main holder or compartment tank is removable, easily kept clean. Ice cream cans are set into compartments, or bricks piled into them. Compartments can be used for either bulk cans or brick packages. Cabinet made in walnut finish, smooth panel, insulated with asphaltum paint, 2 slabs of 1½ in. cork board, and 2 sheets of asphaltum paper. Insulation is 3 in. in upper ¾ of cabinet, 6 in. in lower ¼, and 4 in. in bottom, and is triply sealed by the asphaltum paint and paper. Gasket is inset around the inner edge of cabinet and insures a tight fitting cover. Ice-pack is decreased ¼, but lower part of compartment tanks are surrounded by the brine which drips down from the ice pack. From Wisconsin factory.

<b>29E4265F</b> One 20 qt. cap'y compartment. Outside dimensions 26x25x36 in. Each,	<b>\$43.50</b>
<b>29E4266F</b> Two 20 qt. cap'y compartments. Outside dimensions 36x25x36 in. Each,	<b>58.50</b>
<b>29E4267F</b> Three 20 qt. cap'y compartments. Outside dimensions 46x25x36 in. Each,	<b>72.00</b>
<b>29E4268F</b> Four 20 qt. cap'y compartments. Outside dimensions 56x25x36 in. Each,	<b>90.00</b>
<b>29E4269F</b> Five 20 qt. cap'y compartments. Outside dimensions 66x25x36 in. Each,	<b>110.00</b>

**NOTE—No. 4E2016 Steel Ice Cream Packing Cans will fit above Cabinets. See page 91.**

## IMPROVED BRICK ICE CREAM CABINETS

Top may be removed for icing without disturbing tanks or their contents. A metal sleeve extends down over tank with tight-fitting cover.

Two wood strips on side of sleeve fit into top of cabinet, holding tanks firmly in place while icing; also, sleeve and cover prevent ice and salt from falling into tank. Cabinet made of first class cypress, rich mahogany finish, waterproof varnished. Insulation consists of 2 in. thick corkboard all around set between 1 in. wood outer wall and wood inner wall. Thick insulating paper between corkboard and walls. Lining of "Armco" rust-resisting iron, may be taken out by removing four strips inside rim and loosening faucet and lock-nut. Improved nickel plated brass faucet.

**Shipped from factory in Wisconsin.**

**NOTE—Prices include heavy galvanized square tank for holding brick ice cream and special metal sleeve for holding tank in place.**

<b>29E4260F</b> 1 compartment. Cap'y 20 qt. Length 22¼ in., width 20¼ in., ht. 34½ in. Wt. 135 lbs. Each,	<b>\$32.50</b>
<b>29E4261F</b> 2 compartments. Cap'y 20 qts. each. Length 30½ in., width 22¼ in., ht. 34½ in. Wt. 160 lbs. Each,	<b>42.75</b>

**IMPORTANT—Write for prices on Combination Bulk and Brick Ice Cream Cabinets.**

## ICE CHESTS

### Double Hinged Cover

A solid oak chest that will give long and satisfactory service. Golden finish. Just the thing for storing and cooling bottled soda water, grape juice, syrups and all bottled goods. Well insulated. Two adjustable corrugated galvanized iron shelves. Corrugated galvanized iron ice tray in bottom. Drip attachment has special overlapping cap to exclude hot air.

**Shipped from factory in Michigan.**

**29E5222F** Outside dimensions: Width 32¼ in., depth 21 in., ht. 32 in. Inside dimensions: Width 26¾ in., depth 15½ in., ht. 20 in. Shpg. wt. 142 lbs.

Each, **\$16.50**

## ICE CHESTS

### Sliding Top Cover

Substantially built. Lids slide easily. Made of selected ash, with raised panels finished in golden oak. Smooth rolling casters. ### KRUSTY "KORN DOG" BAKER

Something  
New in  
Money  
Makers

**\$10<sup>50</sup>**  
Each

It's new, novel and delicious to eat. The Krusty "Korn Dog" is a corn bread waffle, shaped like an ear of corn, with a "hot dog" baked inside. All done in one baking. IT'S ALL THE GO AND MAKING BIG MONEY FOR OPERATORS ALL OVER THE COUNTRY. The "hot dog" is baked inside the corn batter, which, as it bakes, moulds itself to resemble an ear of corn. When broken open it looks exactly like an ear of corn with the golden kernels on the outside and the red cob of sausage in the center.

THEY'RE EASY TO MAKE! Heat both sides of the "Korn Dog" Pans and grease lightly. Fry small "hot dogs" in the fryer pan. Half fill each section of the lower "Korn Dog" pan with the batter, put a "hot dog" in the center and spread a little batter lightly over the "hot dog." Close the pans, bake seven minutes, then turn the pans and finish baking for about seven minutes. You will be surprised at the savory, tasty result. Recipes for making batter with each Baker. ORDER YOUR KRUSTY "KORN DOG" BAKER NOW! THE PRICE IS SMALL! THE PROFITS BIG! GET IN ON THIS MONEY MAKER!

The Krusty "Korn Dog" Baker is made of cast iron, smoothly japanned finish. The pan handles are made of heavy, sturdy wire coils and are always cool. Heavy wire handles on each end.

Dimensions of Baker are: Bottom of frame is 10½ x 21¼ in. Ht. of frame 2½ in. Size of fryer pan 8½ x 8½ in. Depth of each fryer pan ¾ in. Total depth of both fryer pans 1½ in. Size of Krusty "Korn Dog" 6½ in. long and 1½ in. in diam.

**4E3432** Krusty "Korn Dog" Baker. Wt. not pkd. 29 lbs. .... Each, **\$10.50**

**4E3436** Krusty "Korn Dog" Baker. Complete with Gas Burner. Wt. not pkd. 46½ lbs. .... **\$33.50**

**4E3434** Krusty "Korn Sausage" Dog Pans. Wt. not pkd. 4 lbs. Pair, **\$1.00**

**4E3435** Fry Pans. Wt. not pkd. 8½ lbs. .... Pair, **\$1.80**

### GAS OR ELECTRIC FOOD WARMER

**14E926** Completely nickel plated and with 1 gal. tank. Wt. 4½ lbs. Attached to urn, Each, **\$12.00**  
Not attached, Each, **10.00**

## BOUILLON AND FUDGE WARMER

Illustrating 4E4685, Electric Fudge Warmer

Designed for heating chocolate, bouillon, soups and dressings for sundae such as chocolate fudge, caramel fudge, etc.

Body of heavy copper, heavily nickel plated outside. Water compartment tinned inside. 2 qt. vitrified stone jars, lined nickel plated removable covers with openings for ladles.

### TO USE WITH ELECTRIC CURRENT

Complete with cord and plug. Water heats to proper temperature in about 30 minutes. Has a high, low and medium 3-heat switch. Ruby light shows when current is on. Will operate on 110 volt current only, either A. C. or D. C.

Note: These electric warmers must be attached to separate circuit as they will not operate satisfactorily when used on same circuit with other appliances.

**4E4685** With 2 jars. (As illustrated.) Size 18½ in. long, 12½ in. high, 9½ in. wide. Shpg. wt. 33 lbs. Each, **\$23.45**

Extra Fuses for above. Each, **15c**

### TO USE WITH GAS—Burner Included

Same as electric current warmers shown above, but with gas burner for use with gas, instead of electric heating element.

**4E4674** With 2 jars. Size 18½ in. long, 12½ in. high, 9½ in. wide. Shpg. wt. 28 lbs. Each, **\$15.00**

**4E4676** With 3 jars. Size 24 in. long, 12½ in. high, 9½ in. wide. Shpg. wt. 40 lbs. Each, **\$18.00**

### EXTRA JARS—For Above Fudge Warmers

**4E4895** Jar complete with cover. Each, **\$1.75**

**4E4896** Jar only, without cover. Each, **60c**

## ELECTRIC HEATERS FOR FUDGE WARMERS

Can Be Attached to Light Socket. Comes Complete with Cord and Attachment Plug.

Base, 6 in. diam. with rod in center for adjusting. One-piece porcelain disc heating plate, diam. 8½ in. set in heavy iron casting which protects disc and prevents breaking. 3-heat snap switch, low, medium and high, securely attached to iron wire housing which covers all wiring. Operates on either A. C. or D. C. current. Shpg. wt. 14 lbs.

	Watts	Volts	Wt.	Each
<b>10E4525</b>	1,000	110	14 lbs.	<b>\$13.50</b>
<b>10E4526</b>	1,000	220	14 lbs.	<b>13.50</b>

**\$14.95**

Hot Water in 90 Seconds

Serve hot drinks quickly and at a low cost

ALL-METAL HOT WATER URN

For Soda Fountain or Luncheonette

Pays for itself in a few weeks

Three heat switch—high, medium and low. Ruby pilot light indicates when current is on. Reservoir has capacity of 11 pints. Made of brass, heavily nickel plated and polished. Ht. 18 in., diam. at base 10 in. Shpg. wt. 15 lbs.

**4E4925** Complete with 5 ft. cord and combination attachment plug. Each, **\$19.45**

The above urn is operated on 110-125 volt current, either alternating or direct. Can be especially wired for higher voltages at an extra cost of \$2.00, but cannot be wired for Delco or other low voltage systems. Current consumption 660 watts per hour.

## ELECTRIC HOT WATER HEATER

For Soda Fountains and Luncheonettes Large Heating Capacity

The heating element will bring entire contents to nearly boiling in about 45 or 50 minutes, after which "low heat" can be used. Automatic cut-off switch shuts off current. Body of urn and cover of cold rolled copper, heavily nickel plated and highly polished, reinforced by rolled edges at top and bottom. With gauge glass and quick-turn faucet. 3-heat switch, ruby pilot light to indicate if current is on or off. Ht. over all 17 in., diam. 17 in., cap'y 2 gal. Shpg. wt. 19 lbs.

**4E4926** Complete with 5 ft. of cord and combination attachment plug. Each, **\$18.95**

The above urn is operated on 110-125 volt current, either alternating or direct. Can be especially wired for higher voltages at an extra cost of \$2.00, but cannot be wired for Delco or other low voltage systems. Current consumption 660 watts per hour.

# STEAM TABLES AND LUNCHEONETTES

## OUR LEADER LUNCHEONETTE

Showing 14E693 Luncheonette with 14E852 Urn

An ideal starting outfit with which to build a light luncheon business. It contains everything you will need to begin with. When your business warrants expansion we can furnish a larger luncheonette outfit or one of our excellent steam tables.

**This Luncheonette** contains 1 meat pan with roll cover, 4 jars for soup or bouillon, and space for a 2, 4 or 6 gal. coffee and hot water urn. The water pan is of heavy galvanized steel and rests in a Wellsville black polished steel stand with nickel trim. Meat pan is of tinned copper with roll cover of heavy tin. Luncheonette is furnished with gas burner for water pan and gas burner to heat urn. Urn shown in illustration is our popular "Great Eastern." Overall length of luncheonette 46 3/4 in., width 18 3/8 in., ht. 17 in. to main top. Shpg. wt. about 100 lbs.

**14E693** Complete without urn.....Each, **\$54.50**

**14E852** "Great Eastern" Urn only. Cap'y 4 gal. Shpg. wt. 80 lbs. (See illustration and description of urn on page 97.) Each, **\$37.50**

## HIGH GRADE LUNCHEONETTE

The standard in perfect equipment. Very complete and handsome pieces of equipment. They will add to the appearance of the finest establishments. **Tops** of polished nickel-silver. **Trimings** nickel-silver or nickel plated. **Covers** of meat pans and jars are nickel plated. **Meat pan** 10x17 in., copper, tinned inside. **4 jars**, 3 qt. cap'y., vitrified china. Meat pan may be used for keeping meats, entrees and other foods warm or may be used for warming rolls. **Water pan** of heavy tinned copper. **Hardware** nickel plated. Luncheonettes have two storage compartments and 3 drawers, two of which have compartments for silver, and bread cutting board. There is ample space for any of our 2, 4 or 6 gal. Urns. The urn shown is our 14E832 Combination Coffee, Chocolate and Water Urn.

# There's a Big Profit in Toast!

**WE PAY TRANSPORTATION CHARGES  
ON ALL "STRITE" TOASTERS**

There is nothing more appetizing, nourishing or wholesome than golden brown toast served hot! It is a food that is universally popular when toasted right. Many establishments have built up a profitable business and established a reputation by serving delicious toast. Toast is economical to prepare if you have the right equipment and profitable to serve when the trouble and waste occasioned by old fashioned methods have been eliminated.

"Strite" Automatic Electric Toastmasters end forever that "hit-or-miss" method of "toast-making." By using a "Strite" Toastmaster every patron is assured uniformly perfect toast—evenly browned and crisp. No soggy underdone toast, no scraping, it cannot burn. "Strite" Toastmasters are successfully in use in many of the leading eating places throughout the country, in large hotels, restaurants, hospitals, railroads and steamships.

## The Famous Strite TOASTMASTERS

**HOW THEY OPERATE:** The waiter or other attendant simply places bread in slots, depresses two levers and goes on about other duties. Toast pops up when done and current automatically shuts off. Oven heat keeps toast hot until served. Adjustable timing assures perfect toast from any bread, fresh or dry, automatically. It toasts evenly and quickly, without watching, without burning and gives the toast a flavor that is impossible to obtain any other way. It sells toast in surprising quantities by making the toast right before the patrons.

### FOUR-SLICE TOASTMASTER

This is an ideal machine for use in small restaurants, or at lunch counters where 200 slices per hour is the maximum amount of toast served. In many large places a battery of two or more 4-slice toasters is preferred rather than a single large machine. In many ways it proves a more flexible outfit and insures somewhat more continuous service. Current consumption, 2,750 Watts. Makes toast in 80 seconds.

**10E4835** Illustrated at top of page. Size 11¼x12x10 in. high. Shpg. wt. 32 lbs.

We Pay Transportation Charges

**\$100<sup>00</sup>**

Each,

### THREE-SLICE TOASTMASTER

For the small lunch counter and soda fountain lunch, and those places where provision is desired for only a comparatively small amount of toast. Will turn out three slices every minute and a quarter, and will produce a dozen orders every ten minutes, which is a capacity sufficient for many of the larger places not making a specialty of toast service. Current consumption, 2,200 Watts. Makes toast in 80 seconds.

**10E4834** Size 9¾x12x10 in. high. Shpg. wt. 30 lbs.

**\$7000**

Each,

We Pay Transportation Charges.

### TWELVE-SLICE TOASTMASTER

This is the heavy duty toaster used by large restaurants, cafeterias and other public eating places, or at busy lunch counters where a large amount of toast must be served in a short time. Will make its full capacity of toast every minute and a quarter, and at this rate will supply in an hour 360 large slices of toast, or over 500 slices if each slice measures not over 3¼ in. wide. Current consumption, 5,500 Watts. Makes toast in 80 seconds.

**10E4836** Size 13½x15¼ in. high. Shpg. wt. 65 lbs.

**\$18000**

Each,

We Pay Transportation Charges.

### MASTER SANDWICH TOASTER

Toasts a complete sandwich to a delicious brown quickly and easily, which cannot be compared with the ordinary sandwich made with two pieces of toast and a cold filler. Sandwiches may be made up ahead and toasted before the customer's eyes when required, then served hot and delicious.

To toast the sandwich just place it in the slot and push down the two levers. The current is automatically turned on and when the sandwich is done it automatically pops up and the electricity is turned off. The slots will take a sandwich 1½ in. thick. Cap'y four sandwiches at one time. Will make 120 to 150 sandwiches per hour.

**10E4837** 12x12x10 in. high. Shpg. wt. 32 lbs. Each,

**\$11000**

We Pay Transportation Charges.

# GRISWOLD ELECTRIC WAFFLES and GRIDDLES

## We Pay Transportation Charges on These Griswold Waffles and Griddles

**Greaseless, Smokeless and Odorless!!**

Waffles or Griddle Cakes baked perfectly in a Griswold Electric Waffle Baker and Griddle and served in a clean atmosphere free from grease and smoke make many permanent customers. Waffles and griddle cakes are extremely popular and are therefore splendid profit makers. It is easy to make a reputation for wonderful waffles and griddle cakes with the Griswold Electric Waffle Baker and Griddle. It is absolutely the greatest improved article of its kind on the market. In 8 minutes from the time it is turned it is ready for use. When heated it bakes a perfect four-section waffle an even, crisp golden brown on both sides at once, in three minutes, without turning the pan, with an electric current cost of about 3½ cents an hour. It is greaseless, smokeless and odorless, and requires no experience to operate. Made in one, two and three unit sizes, in all-waffle or any waffle-griddle combination desired. Thorough insulation makes the heat flow directly into the waffle molds or griddle. Switches placed in front provide for "off," "low," and "high" heat. Each switch has convenient pilot light that tells when current is on. The waffle molds and griddles are made of purest cast aluminum, polished and easy to clean. Frames and legs are of heavy strip steel, heavily nickel plated. Legs welded to frame and frame itself is welded at joints, making a piece of equipment of very durable construction. **Furnished in 110 volts only. If special voltages are required write for information.**

### BARTH'S ELECTRIC TOASTERS

This general utility fixture toasts bread on both sides on one tray, while rolls or muffins may be toasted on one side on the tray below, at the same time heating the top for light frying and griddle cakes. Each tray holds 12 large, or 16 small slices. Time required to toast after fixture is warmed up—1¼ minutes; to heat fixture, about 6 minutes. Size of toaster, 18 in. wide, 19 in. deep, 17 in. high. **Voltage: 110 or 220. State which is wanted.**

**Shipped from Factory in New York.**

	Shpg. Wt.	Each
10E4975F 600 slices per hour	90 lbs.	\$100.00
10E4976F 1200 slices per hour	110 lbs.	125.00
	Shpg. Wt.	Each
10E4982F 600 slices per hour	95 lbs.	\$125.00
10E4983F 1200 slices per hour	115 lbs.	150.00

Same as above, but smaller. Size of toaster, 18 in. wide, 12 in. deep, 13 in. high. Toaster rack, 10x14 in.; holds 8 slices. Wattage, 1700. **110 volts only. Black finish. Shipped from Factory in New York.**

10E4977F Shpg. wt. 100 lbs.

Each, \$75.00

### EDISON TYPE ELECTRIC BROILER

This broiler combines the desirable features of the famous charcoal broiler with the cleanliness and convenience of the electric broiler. No grid raising or lowering device is required. Cover is of Monel metal and can be raised to any desired point, as it is perfectly balanced.

A three-heat switch controls the heating grid, medium heat giving broiling temperature at front only. Low heat maintains broiling temperature over entire area, with cover closed. Construction of this broiler makes it possible to bank several sections together where large capacity is required. Easily removable grease pan is located below the broiling surface. Body, finished in black with nickel-plated trims. Effective broiling area is 12x18 in. Capacity, four 1¼-lb. steaks; 6 1-lb. fish; five half chickens. Length, 23½ in. Depth, 20½ in. Height, with cover, 16 in. Wattage-Voltages—110, 120 or 220, 240. **State voltage wanted.**

10E4980F Shpg. wt. 175 lbs.

Each, \$97.50

# ELECTRIC COOKING APPLIANCES FOR THE LUNCH ROOM OR COFFEE SHOP

## "LIBERTY" HOT PLATE

Single burner. Inexpensive, heats quickly, economically. Nickel plated. Large radiating surface. Thick asbestos pad retains heat and reflects it upward. With 6 ft. of cord and 2-piece plug. Diam. 7 in. Ht. 4 in. Will fit any light socket. Will operate on 110 volt circuit only, either A. C. or D. C., 400 Watts. Shpg. wt. 2 lbs.

**10E4703** ..... Each, **\$2.25**

## 2 BURNER HOT PLATE

Frame and legs of cast aluminum, highly polished. Each burner with 3-heat switch, each burner consuming 660 watts on high, 330 on medium and 150 on low. 5 in. high, 21 in. across handles. With 7 ft. cord and half-plug. Will not operate from light circuit, but requires special separate circuit of 1320 Watt capacity. Shpg. wt. 10 lbs.

**10E4592** For 110 volts only, either A. C. or D. C. Each, **\$12.00**

## "L. & H." HOT PLATES

**Single Burner.** Burner 6 in. in diam., supported in cast frame 11x11x6 in., finished in light gray enamel. 3 heat switch control, consuming 660 watts on high, 330 on medium and 165 on low. Furnished with 7 ft. standard heater cord.

**10E4594** Shpg. wt. 22 lbs. Each, **\$10.00**

**2 and 3 Burner.** Compact and sturdy, with range efficiency. Unexcelled for use where space is limited. Finished in light gray porcelain enamel. Heating units 8 in. in diam. 3 heat switch control, consuming 1250 watts on high, 625 on medium, and 313 on low.

**10E4595F** 2 burner. Cooking surface 11x21 in. Ht. 6 in. Shpg. wt. 42 lbs. Each, **\$20.25**

**10E4596F** 3 burner. Cooking surface 11x32 in. Ht. 6 in. Shpg. wt. 58 lbs. Each, **\$30.00**

**Note:** These hot plates will not operate from light sockets and must be connected to a separate line from fuse box. Wired for 110 volts only. Provided with connection box suitable for either rigid or flexible conduit.

## "HOTPOINT" ELECTRIC COFFEE PERCOLATORS

**Aluminum**—An electric percolator especially suited for light lunch service. Made of polished aluminum with ebonized wood handle. Equipped with standard "Hotpoint" heating element, safety switch and valveless percolating apparatus. Furnished complete with cord and plug. For 110 volts only, either A. C. or D. C. Shpg. wt. 2½ lbs.

**10E9106** Cap'y 6 cups. Each, **\$8.25**

**Heavy Copper, Nickel**—Just the thing for the soda fountain or luncheonette that desires to serve their trade good fresh coffee in an attractive way. Made of heavy copper, highly nickel plated, with ebonized wood handle. Equipped with standard "Hotpoint" heating element, safety switch and valveless percolating apparatus. Furnished complete with cord and plug. For 110 volts only, either A. C. or D. C. Shpg. wt. 3½ lbs.

**10E9105** Cap'y 8 cups. Each, **\$15.00**

## "TURNSIT" ELECTRIC TOASTER

**Has Special Device for Mechanically Turning Toast**

Equipped with switch on cord, making it possible to turn current on and off without leaving table.

**10E4702** Substantially made, neat appearing.

Slices may be toasted on both sides of toaster at same time.

Highly nickel plated. Ht. 7¼ in. Base 5x7 in. 6 ft. of cord and plug. Shpg. wt. 3 lbs. Will fit any light socket but is wired for 110 volts only, either A. C. or D. C. Wattage 500.

Each, **\$6.50**

## ELECTRIC URN HEATER

Base of extra heavy enameled iron, 6 in. diam. with rod in center for adjusting from 5 in. to 10 in. heights. One-piece porcelain disc heating plate, diam. 8½ in., set in heavy iron casting which protects disc and prevents breaking. 3-heat snap switch, low, medium and high, securely attached

to iron wire housing which covers all wiring except lead-in wires. Operates on either A. C. or D. C. If special voltage is required write for prices.

	Watts	Volts	Shpg. Wt. About	Each
<b>10E4530</b>	2,000	110	14 lbs.	<b>\$12.00</b>
<b>10E4531</b>	2,000	220	14 lbs.	<b>12.00</b>

**FOR OTHER ELECTRICAL EQUIPMENT—See Pages 97 to 99**

## WELLS ALL-ALUMINUM WAFFLE BAKER

Built of highly polished enduring aluminum that holds its polish. It is free from angles and as easy as a china dish to keep clean.

The hinge construction, which is fully covered by patents, completely protects wires and elements and permits the waffle to raise evenly all around. The pilot lamps are protected and are instantly replaceable without tools. The grids are thoroughly insulated from the supports by extremely heavy gaskets to conserve heat and protect the heating elements.

The Wells' Waffle Baker bakes perfect waffles to a uniform, tempting golden brown without grease. Its temperature is always correct. High heat maintains it

when baking — low heat when standing ready but idle. Its operation is so simple that it is possible for even unskilled help to turn out delicious waffles. The electrical connection can be plugged in or out instantly and because of its extreme portability, it fits anywhere. The cost of operation is exceedingly low.

The base of the Wells' Waffle Baker is 18 in. long and 12 in. wide. When closed, it stands 6¼ in. high. When open, it stands 17 in. high. It bakes two 7 in. diameter waffles at a time. Rating: 1320 watts for baker of two irons.

**10E4877**—110 volts. .... Each, **\$70.00**

**10E4878**—220 volts. .... Each, **\$70.00**

**BE SURE TO SPECIFY WHETHER BAKER IS FOR 110 OR 220 VOLTS**

If you are not sure of this information, get it from your local light company as Bakers will not function except on correct voltage.

## "EDISON" PORTABLE ELECTRIC WAFFLE BAKER

**We Pay Transportation Charges On This Baker**

A new portable electric waffle iron for counter or window use. Can be connected with any electric light socket. Requires no special wiring. Is light in weight, but rugged, and will give speedy service. The waffle pans are of aluminum, requiring little or no grease, fitted with patented cast-in helical core sheath wire elements, which are much better than the ordinary type of heating elements. The upper pan is equipped with a nickel plated wire handle and vertical lift in the hinge connecting pans, eliminating the tendency to pinch the waffle at the back of pan. Each pan provided with individual cord and plug. Equipped with all-bakelite reversible 2 heat switch for each pan. Waffle pans mounted on an all white enameled base with nickel plated feet, providing clearance underneath frame. Top of base recessed to catch overflow of batter. Width of baker 22 in., depth 15¼ in., ht. 8½ in.

**We Pay Transportation Charges.**

**10E4880** Bakes 6½ in. waffles. Shpg. wt. 38 lbs. .... Each, **\$52.50**

**10E4881** Bakes 7 in. waffles. Shpg. wt. 38 lbs. .... Each, **57.50**

## SANITARY TRIANGULAR STOOLS No Screw Holes in Base

A new and unique design sanitary lunch counter and soda fountain stool.

Base is triangular in shape and seat is panelled around edge as shown above. Bases are not defaced with screw holes. Finished entirely in heavy white porcelain enamel with brass foot-rest.

**6E6582P** Triangular Stool. Ht. 25 in. Each, **\$10.75**

**6E6583P** Triangular Stool. Ht. 27 in. Each, **\$11.00**

Showing How Above Stool is Attached to Floor

### Patent Pending

Drill 2 in. hole in tile or cement floor and place a wooden block with 1 in. hole in same. Insert expansion shell in the hole in wooden plug and screw lag screw down so that the under side of the head is 1/4 in. from floor. Lag screws should be set 18 in. from the base of counter. Next loosen screw inside of stool and place stool over lag screw so that the prong comes under head of bolt. Then tighten screw in side of stool.

## ROUND BASE REVOLVING STOOLS

**\$2<sup>60</sup> Each**

## TABLE TOPS FOR ROUND AND SQUARE TABLES

NOTICE THE THICKNESS OF THESE TABLE TOPS.

Sani-Onyx Top— $\frac{3}{4}$  in. thick, with raised edge  $\frac{1}{2}$  in. thick (see illustration), or  $\frac{3}{4}$  in. thick throughout. Has a fire polished, smooth surface which is impervious to liquids, even the strongest acid.

Carrara Glass Top— $\frac{3}{4}$  in. thick, possesses all the qualities, which recommend a table top of this nature. It is acid proof, strictly sanitary, and unaffected by moisture or atmospheric conditions. In addition, it is tempered to enhance its strength, ground and gauged to a uniform thickness, thus eliminating any and all imperfections, and then polished to a crystal-like smoothness. Can be supplied snow white or jet black.

Construction supplied for wood or metal bases. Tops to be used on wood table bases are furnished without dowel holes. Wood bases equipped with strips of corrugated rubber, which are glued and bradded on top of apron and supports (the number of corrugated rubber strips depending entirely on size of table). Two strips placed  $2\frac{1}{4}$  in. in from each corner, the ribs running in opposite directions, so as to give the greatest amount of resistance in removing top. The weight of the top itself against the corrugation forms a vacuum or suction which causes the top to adhere sufficiently for all requirements of ordinary service. No screws or bolts are required. Tops for metal bases are furnished with anchor bolts imbedded in the under side of top at points corresponding with the openings in base. As there are different styles of metal bases, it is necessary that a paper pattern showing exact location of anchor bolts be furnished with order for tops. If order does not specify otherwise, tops for wood base tables will be shipped.

## With New, Long Wearing Finish

These tables and chairs, graceful reproductions of the Colonial period, are particularly well adapted for soda fountains and tea rooms where a decorative, colorful effect is desired.

Through the use of a new, long-wearing lacquer enamel, an endless variety of striking color combinations are available, as well as mahogany and walnut, in a finish that will well withstand the unusual wear and tear of public service.

This type of lacquer is being widely used as a finish on automobiles, etc., where its fine appearance is unaffected by heat, cold, frost, snow, rain or dust. It is the ideal finish for public service furniture as it will not easily mar, scratch, check or chip, is not affected by hot liquids or hot dishes and may be washed with hot water and soap.

Both table and chair are carefully constructed of thoroughly seasoned, selected birch and may be had in any solid color enamel, in any color enamel with harmonizing stripe, or in mahogany or American walnut finish. When decorated, table has stripe around outside edge of top, on apron and on turnings of legs; chair has broad stripe on back rail, narrow stripe on back banister, on seat and on turnings of legs and back spindles. **We do not depart from this plan of decoration.** Send us samples of colors desired or write us your ideas and we will submit color samples. Shipped direct from our stock in about three weeks' time.

## The New Rubber Top Table

**Decidedly different and distinctive.** Absolutely noiseless and long-wearing. The new rubber top tables are attaining great popularity with the better class lunch rooms, hotels and cafeterias. They present a beautifully figured, marble effect rubber surface (in a variety of colors to match table base) that is securely cemented to a specially prepared wood top. The edges are then protected by a wood molding that eliminates all danger of the rubber becoming loose. **Colonial style tables with these tops are listed below in 24 and 30 in. sizes.**

### Tables with New Style Wood Tops with Mottled Rubber Top Surface

**CAUTION:** Although we use the most modern and scientific method of applying finish to decorated furniture, in our painting department, a little care is necessary in handling if it is to retain its attractive, new, appearance. Avoid knocking legs of tables and chairs together when possible and do not permit your cleaning staff to stack chairs or to place seats of chairs on tables as this is apt to mar the finish and destroy the effect.

## Black Decorated Table Tops—Attractive, New Designs

Featuring exquisite designs that make an instant appeal to your patrons, the beautifully etched glass table tops shown here bring an atmosphere of richness and distinction to soda fountain and lunch room. They retain their attractive surface and original beauty. Impervious to liquids and grease and instantly cleaned with a damp cloth. These tops are supplied on Colonial Pattern Furniture as listed above.

## *For the Soda Parlor of Distinction*

The desire for striking interiors, for rooms of distinctiveness and atmosphere, has led to the widespread use of soda parlor fixtures of unusual design and finish. It has led also to a realization that to be truly "different," the room must be designed and planned as a whole—so that each detail harmonizes and combines in forming the desired effect.

For this work we are particularly well fitted. We have a staff of artists and designers, well versed in the planning of decorative treatments. They can design the general scheme of the room, create the individual fixtures and suggest the style of wall decorations, lighting fixtures and floor coverings. To transform these designs into actual equipment, we operate a large woodworking plant employing scores of skilled craftsmen. Here we manufacture all the special Wall Panelling, Booths, Back-Bars, Wall Cases, Display Cases and other fixtures for Soda Parlors.

Whether you contemplate the opening of a new establishment or just toning up your present one, we can offer you a complete service that is without an equal. The best proof of this is that among our complete installations we number many of the finest places in the country.

If you are considering the opening of a Soda Parlor, or if you are interested in special fixtures, write us, stating your plans in full. Give us in particular all the information concerning the space at your disposal, and the type of equipment you have in mind. We will then be glad to present designs and estimates without obligating you in any way.

# Something New! A Decided Advance

## SEMI-FRAMELESS COUNT

### For Pastry, Candies, Cigars and Cigarettes

Semi-frameless Show Cases are made with bulbed edged crystal glass which gives the effect and strength of much higher priced glass. They have no top frames or front frames. The narrow end frames afford almost the same visibility as the more expensive frameless plate glass construction. The special bulbed edge strengthens and protects the edge by preventing chipping.

#### SEMI-FRAMELESS DISPLAY CASES

30E420F Mahogany finish.

Shipped set up from factory in Southern Ohio.

Made of birch, finished in mahogany. Top is double strength glass with bulbed edge, which strengthens it and gives the effect of heavier glass. Front and ends of clear sheet glass. Wood door, spring hinged at bottom and with knob at top. Bottom covered with silk velour. Width 10 in., ht. 7½ in., length 15 in. Shpg. wt. 12 lbs.

**\$4<sup>50</sup>**  
Each

Each, **\$4.50**

#### SEMI-FRAMELESS PASTRY AND SANDWICH CASES

**\$12<sup>00</sup>**  
Each

Made of either oak, finished in golden oak, or birch finished in mahogany. Double strength top with bulbed edge, the bulb being ¼ in., giving the effect and strength of heavier glass. Front, end and door are clear sheet glass. Hinged door with wooden frame and bullet catch and knob. Has five shelves, not adjustable, of double strength glass, with bulbed edge, supported on notched strips. Length 12 in., width 12 in., ht. 23¼ in. Shpg. wt. 32 lbs.

# PASTRY CASES, DISPLAY STANDS COUNTER PROTECTORS, SET-UPS, COFFEE URNS

## "SANITARY" PASTRY CASES FOR USE ON BACK COUNTERS

USED FOR COMPLETELY ENCLOSING ALL PASTRY GOODS, CUT PIES, ETC., AND IS **\$103<sup>00</sup>** AND UP  
MADE TO SET ON BACK COUNTER.

Very strong construction; made with offset joints, not soldered. Ht. 24 in., depth 16 in. Top is clear plate glass with polished edges, resting on green felt. Ends are heavy plate glass in framework. Interior is equipped with plate glass shelf 12 in. wide, on adjustable nickel plated brackets and standards. Front enclosed with heavy plate glass doors, without wood frames, that slide on rollers set in lower framework, perfect sliding action. All framework, except back, is covered with nickel-silver sheet metal, giving a very rich appearance. Furnished without bottoms so they can be used on counters with white glass tops or finished wood tops that serve as bottoms. Made to order in about 4 weeks. Shpg. wt. per running ft. about 20 lbs.

Made also with wood framework and back with wood frame, doors on one side, without nickel-silver covering and in other styles and finishes. See list below.

**Nickel-Silver, with Doors on One Side**  
64E1900 5 ft. long. Each, **\$116.00**  
64E1901 6 ft. long. Each, **140.00**  
64E1902 8 ft. long. Each, **188.00**

**Nickel-Silver, with Doors on Both Sides**  
64E1905 5 ft. long. Each, **\$154.00**  
64E1906 6 ft. long. Each, **185.00**  
64E1907 8 ft. long. Each, **246.00**

**Oak Framework, with Doors on One Side**  
Made of quarter-sawed oak, golden oak finish.  
64E1910 5 ft. long. Each, **\$103.00**  
64E1911 6 ft. long. Each, **124.00**  
64E1912 8 ft. long. Each, **165.00**

Special sizes of these pastry cases can be furnished if required. Prices on application. Usually, however, any greater lengths are made by combining two of the above sizes, and at less cost than for special construction.

**Oak Framework, with Doors on Both Sides**  
Made of quarter-sawed oak, golden oak finish.  
64E1915 5 ft. long. Each, **\$139.00**

**Birch, Mahogany Framework, with Doors on One Side**  
64E1920 5 ft. long. Each, **\$103.00**  
64E1921 6 ft. long. Each, **124.00**  
64E1922 8 ft. long. Each, **165.00**

**Birch, Mahogany Framework, with Doors on Both Sides**  
64E1925 5 ft. long. Each, **\$139.00**  
64E1926 6 ft. long. Each, **167.00**  
64E1927 8 ft. long. Each, **222.00**

## PLATE GLASS DISPLAY STANDS

FOR  
PASTRIES,  
FRUITS,  
SALADS,  
ETC.

**\$10<sup>90</sup>** AND UP

Especially adapted to the display of pastry, fruits and salads in cafeterias and lunch rooms.

Display shelves are of polished plate glass, with all edges polished and ground. Shelves are supported on 1 in. square 18 gauge metal standards, fitted with ornamented top and flanges. Standards are supported by 3/4 in. tubing cross bars extending under all four edges of each shelf. Standard width of shelves is 18 in. All standards are furnished with bolts for supporting stand by means of bolting through counter top.

Made to Order Shelves in Lengths of 6 ft. or Over

With Nickel Plated Brass Framework.  
70E529 Single Shelf. Ht. 15 in. Running ft. **\$10.90**  
70E530 Double shelf. Ht. 19 in. Running ft. **\$15.50**

70E532 Single shelf. Ht. 15 in. Running ft. **\$13.00**  
70E533 Double shelf. Ht. 19 in. Running ft. **\$19.00**  
70E534 Triple shelf. Ht. 26 in. Running ft. **\$25.00**

Special sizes and widths can be furnished for unusual cafeteria and lunch room arrangements, if required. Prices on application.

## COUNTER PROTECTORS

FOR DAIRY  
LUNCHES,  
CAFETERIAS AND  
CANDY STORES

**\$4<sup>90</sup>** AND UP

For use in dairy lunches, cafeterias and candy stores. Prevents customers touching the stock and at the same time puts merchandise in view for inspection.

Constructed of 3/4 in. polished plate glass, securely held in polished nickel-plated brackets with clamp attachments to fasten them to the counter top, provided the top overlaps 1 1/2 in. or more. If there is no overlap of counter top, brackets can be furnished to fasten with screws to the top. Can be furnished with full return ends or with ends that return as far as the rear edge of the top glass. Will ship with brackets that clamp to edge of counter and return ends same width as top glass unless otherwise specified. Shpg. wt. approx. 30 lbs. per run. ft.

Prices quoted per ft. in lengths of 6 ft. and over.

## STAINED GLASS PAPER

For Glass Doors, Transoms, Windows, Etc.

Admits light and shuts off vision. Persons or objects cannot be distinguished through windows or transoms where Stained Glass Paper is used—yet the light comes in. It is quite decorative and costs less than frosted glass. This Stained Glass Paper is also the most durable, artistic and transparent glass decoration, and when properly applied is not affected by water or washing. Guaranteed not to fade or blister, and will last many years. Full directions sent with each roll for applying and removing. No additional expense necessary, as the roll is already prepared for attaching. Rolls 18½ in. wide by 8½ yards long. Shpg. wt. 20 oz. All these patterns are lithographed on a white background.

**15E4174** White Net effect. A true lace copy. Rich in appearance. Rolls 18½ in. wide by 8½ yds. long. Wt. 20 oz. Roll, **\$1.10**

# A WORD ABOUT QUALITY

As you look through the pages in this catalog, bear in mind that all of our merchandise is **made expressly for public service**—under no circumstances to be confused with the ordinary grades sold for domestic use. Our business is equipping and supplying Soda Parlors, Restaurants, Hotels and other Public Service Establishments. Our merchandise **must**, therefore, be of an extra durable quality to stand the wear and tear of public use. In buying from us you are assured of dependable—**proven**—quality in merchandise and of lowest prices backed by our enormous resources and efficient organization.

# CHANGEABLE SIGNS AND BULLETIN BOARDS

## INTERCHANGEABLE SIGNS

A popular priced sign that will meet the need of those who cannot afford the more elaborate signs. A strongly built Mission frame, enclosing a series of velvet finished black enameled steel bars so placed that space between bars is practically invisible. Metal letter plates are lithographed in white on black background. Can be instantly inserted or removed from sign without tools. Simply place letters where wanted on the steel bars. Cannot fall or get out of place. Sign has easel back, also hanging plates for wall use. Letter plates include an ample supply of alphabetical letters, numerals, punctuation marks, dollar and cent signs, etc. Packed in special box which keeps each group of letters separate in its individual compartment.

**15E3246** Width 16 in., ht. 20 in. Cap'y 15 lines. Complete with 260 1½ in. letter plates. Shpg. wt. 9 lbs. **\$4.95**

**15E3455** Width 17 in., ht. 28 in. Cap'y 15 lines. Complete with 260 1½ in. letter plates. Shpg. wt. 9 lbs. **\$7.25**

**15E880** Package of 100 black cardboard strips. Shpg. wt. 2½ lbs. **\$2.00**

## CHANGEABLE ANNOUNCEMENT

### OR MENU BOARDS

The grooved board is made from kiln-dried, clear white pine lumber, has grooves ¼ in. apart, so as to permit the perfect alignment of letters used in words or sentences. The board is covered with best quality all-wool, black felt. Board illustrated has a glass door over the lettering, and is fitted with lock and key. Can also be had without the glass door if desired. By the use of these bulletin boards you are able to set up announcements in a very attractive manner. Recognized as part of the necessary equipment of the modern Hotel, Club, Restaurant, Theater or Office Building. Boards can be had in either oak or mahogany finish. Specify when ordering what finish is desired, otherwise mahogany will be sent.

Numbers listed below are for signs with grooves running width of board. If you wish grooves to run the long way, advise us accordingly.

**We Make Any Style or Size of Changeable Letter Board or Sign** for Hotels, Restaurants, Theatres, Clubs or Banks. Also Office Building Directory Boards. If you do not find the style or size of changeable letter sign you desire listed on this page, send us a description or drawing of what you wish and we will submit price and specifications.

# ARTIFICIAL DECORATIONS

There are few things which make an establishment more attractive and inviting than artificial trees, palms, vines and flowers when properly placed. The numbers we show on this and the following pages are very natural appearing and realistically colored.

## ARTIFICIAL TREES

They are natural in appearance and hold their color for a long period of time. Our Palmetto and Sago Tree reproductions possess all the beauty of the natural plants. They are not affected by heat or cold and require no attention beyond an occasional dusting. For these reasons they are preferable to live trees and cost but a fraction as much. The trunks are made of heavy wood covered with brown palm fibre, in which are concealed the tin tubes which hold the leaves. This trunk is mounted in a green wooden pail, the top of which is covered with moss. The leaves are natural appearing and dark green in color. Can be easily bent to droop naturally. Leaves can be removed for cleaning or replacement. Prices include trunk, pail and leaves, ready to set up.

### PALMETTO TREES

15E9101	Ht. 5 to 6 ft. No. of leaves 12.	Shpg. wt. 14½ lbs....	Each, \$ 4.50

ROUND

## MINIATURE ARTIFICIAL TREES

The uses for these plants are innumerable. They can be used singly or in pairs with excellent results in any decorative scheme, and are also attractive in themselves. For show case, window or back bar decoration, they are hard to beat. The illustrations cannot do justice to these beautiful miniature trees. The full green branches give the effect of evergreens. Made of natural preserved green Lycopodium, full and plump, trimmed with moss. Come round or conical shape, mounted on wire frames and set in square wood boxes. Will last indefinitely and require little attention. Size, round 12 in. diam.; conical, 9 in. diam.; both 24 in. high. Shpg. wt. 5 lbs.

15E9165	Round Shape.....	} Each, \$5.95
15E9166	Conical Shape.....	

**NOTE**—Above trees are also made to order in larger sizes from 3 to 10 ft. high. The larger sizes are suitable for floor use, for entrances and for inside decoration. Prices on application.

CONICAL

### CARNIVAL HUMMER

Made of paper tube colored in red, white and blue. Has fibre paper on end through which a string attaches to a small handle. By whirling it makes a humming sound. Tube 2 1/4 x 3 in. Wt. doz. 1 1/2 lbs.

**15E55** Doz. **50c**  
(Gro. \$5.50)

### CONFETTI

Guaranteed to be free from dirt and dust. Made up in assorted brilliant colors.

**15E4149** 2 oz. transparent "Good Luck" tube, 50 tubes in a box **\$1.35**  
Box of 50 tubes. **\$1.35**  
**15E381** 1 1/2 oz. paper bags. 50 bags in box. Box of 50 bags. **\$1.00**

### COLOR ROUND BALLOONS

**15E78** Diam. 9 in. With wooden twister valve. Asstd. colors. Gro. **\$3.50**

### AIRSHIP BALLOONS

**15E79** Airship balloon. Inflated size about 5x22 in. Asstd. colors. 3 doz. in box. (Gro. \$4.25) Box (3 doz.) **\$1.15**

### SAUSAGE SQUEAKER BALLOONS

Good quality rubber. Can be blown up to 6 in. long. 1 gro. in box. Wt. not pkd. 8 oz. No less than 1 gross sold.

**15E59** Gross, **\$1.35**

### SOUVENIR MOTTOES

Paper decoration pasted on each motto. Each tube contains a paper verse and a tissue paper cap. 1 gro. in box. Shpg. wt. 7 1/4 lbs.

**15E442** (Gro. \$5.00) Doz. **50c**

# HOW TO ORDER AND HOW TO CARE FOR LINOLEUM

## How to Order Linoleum

Always give exact size of room, as it often helps to save waste in cutting. Pattern Linoleum cannot be cut without waste. If the pattern you want comes in more than one width, consider carefully and order the width that will work out to your best advantage with the least waste. For instance, if your space is 6x12 ft., you will require 8 sq. yds. 6 ft. wide. In cutting to size of room we always allow 2 or 3 inches excess in length to allow for possible differences in measurements in case room is not exactly square. This extra length is charged for and should not be considered as waste. We make special concessions when linoleum is ordered in roll lots, because we do not have to cut, and therefore do not have remnants. If your order calls for more than one roll, full roll price will be charged for the amount ordered. We cannot accept returned linoleum after being cut from roll, if shipped as ordered. At least one-third of purchase price must accompany all C. O. D. orders.

**Note:** Excessive demand may sometimes cause a temporary shortage of some patterns; therefore it is advisable to mention a second choice.

## Square Yards Needed For Rooms of Various Sizes

Size of Room, Feet	Sq. Yds. Needed	Size of Room, Feet	Sq. Yds. Needed	Size of Room, Feet	Sq. Yds. Needed	Size of Room, Feet	Sq. Yds. Needed
9 x 9	9 1/2	10 x 15	18 1/2	12 x 18	25	16 x 20	38
9 x 10 1/2	11 1/4	10 x 16 1/2	20 1/4	13 x 13	20 3/4	16 x 24	45 1/2
9 x 11 1/2	12 1/2	10 x 17	20 3/4	13 x 15 1/2	24 1/4	17 x 17	35 1/2
9 x 12	12 3/4	11 x 11	15 3/4	13 x 16 1/2	26	17 x 20	41 1/2
9 x 13	13 3/4	11 x 12	17	13 x 18	28 1/4	17 x 24	49 1/2
9 x 14	14 3/4	11 x 13 1/2	19	14 x 14	24 3/4	18 x 18	37 1/2
9 x 15	15 3/4	11 x 15	21	14 x 15 1/2	27	18 x 21	43 1/2
9 x 16 1/2	17 1/4	11 x 16	22 1/4	14 x 17	29 3/4	18 x 24	49 1/2
9 x 17 1/2	18 1/4	11 x 18	25	15 x 15	26 1/4	19 x 19	43
9 x 18	18 3/4	12 x 12	17	15 x 16 1/2	28 3/4	19 x 23	51 1/2
10 x 10	12 1/2	12 x 13 1/2	19	15 x 17	29 3/4	20 x 20	48 3/4
10 x 10 1/2	13	12 1/2 x 13 1/2	21 1/4	15 x 19	33	20 x 22	53 1/4
10 x 12	15	12 1/2 x 15	23 3/4	15 x 22	38	21 x 21	50 3/4
10 1/2 x 13 1/2	19	12 x 15	21	16 x 16	30 3/4	22 x 22	57
10 x 14 1/2	17 3/4	12 x 16	22 1/4	16 x 18	34 1/2	24 x 24	66

These estimates are approximate as some patterns require more than others owing to the matching—but these yardages can be depended on as sufficient.

## How To Care For Linoleum

**CAUTION:** Don't unroll linoleum when cold or chilled. If you do, it is apt to crack. Therefore it is very important that linoleum be kept in a heated room at a temperature of 70 degrees or over for at least 24 hours before unrolling.

**STORING:** Don't store linoleum near leaky radiators or pipes, in damp or cold cellars. Always keep linoleum in a warm dry place.

**CLEANING:** Don't clean linoleum with soda, lye, potash or strong scouring soap. The acids they contain ruin the surface. The easiest and most satisfactory way to clean linoleum is to use warm (not hot) water and a good grade of soap—free from alkali, such as Ivory. A linseed oil soap is also to be recommended.

**VARNISHING AND WAXING:** Don't varnish an inlaid or plain linoleum—wax it. It is important that the first waxing be well rubbed in. (Use very little wax.) After that an occasional going over with a weighted polisher will keep the floor looking new and fresh. A mere mopping is all that is required to keep the floor clean. A coat of a good grade of linoleum varnish or shellac applied to printed linoleum every six months will add years to its life.

**CASTERS:** Don't equip heavy furniture with metal casters—they cut and crease the linoleum. Use instead either flat shaped glass or metal shoes. These have a wide bearing surface and slide easily without marking the floor.

## How To Lay Linoleum

The length of service and the amount of satisfaction derived from a linoleum floor depends a great deal on the way it is laid. If the laying is done by experienced workmen, you will be assured of a better floor, both in appearance and length of service. The small charge involved is quickly forgotten in view of the greater satisfaction.

Do not lay linoleum on unseasoned wood, or on concrete that has not had time to properly set. The surface should be clean and dry. Moisture causes the linoleum to bulge, and has a bad effect on the burlap backing. All cracks in the concrete should be filled; on wooden floors all uneven places should be planed smooth. Otherwise there will be excessive wear at these points. For cementing linoleum to wood or concrete use linoleum paste, 1 pound to every 2 square yards. Apply paste to floor with brush. We recommend the following method for laying linoleum:

### ON CEMENT FLOOR

After the linoleum has been thoroughly warmed in 70 degrees or over for 24 hours, unroll and cut to proper lengths. Allow about 1/2 inch extra on the ends for shrinkage. In the case of plain or battleship linoleum all seams should be lapped about 1/2 inch to allow for double cutting. This can also be done in linoleum with a pattern but care must be taken to have the pattern match. Then cement the body down by applying the cement to the floor and laying the linoleum on top. Roll with a 200 lb. roller to make sure that the linoleum sticks to the cement. On the following day trim the edges, double cut the seams, cement and roll. Then the job is complete. No weights are required unless the floor is uneven or bumpy. Where there is a floor moulding, it should be removed and the linoleum cemented right up to the edge and the moulding then replaced. This makes a good job and prevents water from getting underneath the edges. By cementing linoleum to the floor you will keep the edges from curling and make the seams watertight.

### ON WOOD FLOOR

**Another method for laying:** Warm linoleum at least 24 hours before unrolling. Cut to the proper lengths, cutting about 1/2 inch short on the end to allow for stretching. Lay the linoleum and let it remain, unfastened, about two weeks, so that it can stretch. Then trim the edges to make it fit closely; cut the seams and brad them to the floor. The ends and sides should not be fastened to allow the linoleum to stretch still further. For fastening use headless steel brads (No. 18 1/2) spaced about 4 inches apart. Never use carpet tacks or nails. Where there is a moulding, remove and insert linoleum underneath. When replacing moulding, drive nails into base, not into the floor, so that linoleum can stretch.

On Battleship linoleum, plain goods, and cork carpet, seams should be lapped about a half inch and cut through the center with a good sharp knife. This will give a good close seam. Care should be taken that knife is held in a perfectly straight line. If knife is held to one side, it cuts on a bevel, which will cause linoleum to raise. When knife is held straight, seams will cut together. In goods with a pattern care should be taken to see that patterns match.

## "SHEDWATER" LINOLEUM VARNISH-WHITE

### Will Not Darken Light Patterns

Best waterproof varnish made. Will not darken light patterns. Will not crack, check, peel or blister when properly applied. The film formed from this varnish adds elasticity to the linoleum. Will not stain or turn white. Waterproofs linoleum to prevent tracking and dirt grinding into surface. Dries sufficiently over night to walk on. Allow 48 hours for first coat to harden through, then apply second coat.

**17E1637** 1/4 gal. Wt. 2 lbs. Covers 175 sq. ft. one coat..... Price, **\$1.05**  
**17E1638** 1/2 gal. Wt. 4 lbs. Covers 350 sq. ft. one coat..... Price, **1.90**

**LINOLEUM PASTE.** Used by us. Powder form, mixed with luke warm water. Stir until lumps disappear. 1 lb. required for every two square yards of linoleum.

**17E1640**..... Per lb. **11c**

## INLAID RUBBER TILING

Especially Suitable for Entrances, Stair Landings and Aisles in Billiard Rooms, Soda Parlors, Offices and Kitchens

For club entrances, vestibules of stores, office buildings, hotels, etc., a center panel inlaid with name or street address is very effective. Made in one-piece by vulcanizing high grade rubber, in various colors with border lines and patterns, into a solid black rubber back. 36 inches is the standard width, made up in any length desired. It is noiseless and non-slippery. Can be mopped up easily and absolutely impossible for moisture or dirt to get beneath it. A space covered with this tiling will wear indefinitely. For stair use be sure to give exact size. For marble or wood stairs glue to step with waterproof linoleum cement.

**17E1896** 1/4 in. thick, 1/8 in. top and 1/8 in. bottom with indentations forming vacuum which makes tiling stick to floor. Like illustration in green, gray, blue, red, black or any other color desired. Shpg. wt. per sq. ft. 2 3/4 lbs. .... Sq. ft.

**\$1 10**

**EXTRAS:** Inlaid line border 1/4 in. to 1 1/4 in. wide, add 5c per foot. Inlaid line border 1 1/2 in. to 3 in. wide, add 6c per ft. Areas under 7 sq. ft., 35c per sq. ft. extra. Irregular shapes 45c per sq. ft. extra. Illustration of other patterns and quality sample on request. Can be supplied also in 1/4, 1/2 and 1/8 in. thicknesses. Price on inlaid name or initial on request.

Showing actual 1/4 in. thickness. Sample of different patterns and colors, also other thicknesses, furnished on request.

# Public Service Inlaid Linoleum

Our inlaid linoleum will give years of service and retain its original appearance as long as it lasts. Our line comprises the highest qualities, which give the longest wear. We have the desirable designs, colorings and qualities, at the right prices. We guarantee to give you complete satisfaction on your purchase. All inlaid linoleums on this page are straight-line tile. Each block or individual section of pattern set in separately. The patterns extend clear through to the back and cannot wear off. The composition is ground cork and oxidized pure linseed oil, subjected to tremendous pressure. The backing is heavy burlap to which the reverse side of the composition is securely cemented.

**IMPORTANT—WRITE FOR SAMPLES**—We are glad to send samples on request. The illustrations are true to color and style, but they cannot show the superior weight, thickness and quality of the merchandise. If you are not already acquainted with our linoleum, by all means secure samples.

**Wilds' Marble Floor Effects** Superior quality inlaid linoleum in a variety of attractive patterns. Patterns go through to the back.

**Note:** Our No. 17E5100 shows how borders may be used to show off a pattern and improve the appearance of the room. Borders are set on separately and mitered around fixtures, etc., with little extra expense, but must be laid carefully by skilled workmen. Borders regulated according to size of room. Estimates for bordered spaces furnished upon request.

**17E5095** Mahogany, black and gray marble, with solid black corner piece. 9 in. block.

**17E5094** Black and gray marbledized blocks. 8 1/2 in. block.

**17E5098** Light and dark gray with touch of black, gray, light and dark brown and rose coloring in alternating block. 9 in. block.

**17E5093** Blue, taupe and gray marble. 4 1/2 in. block.

**17E5099** Black and gray marbledized. 4 in. block. Any of the above numbers, 6 ft. wide, about 1/2 in. thick. In roll lots.....Sq. yd. **\$2.85** Less than roll lots.....Sq. yd. **\$2.95**

**17E5100** Light and medium gray and black block, rose and gray block with 1/2 in. black lines. 6 1/2 in. block. In roll lots, each roll containing from 55 to 60 yds. Wt. sq. yd. about 8 lbs. In roll lots.....Sq. yd. **\$2.85** Less than roll lots.....Sq. yd. **\$2.95**

**17E5092** Mahogany, black and gray marble. 4 1/2 in. block.

## Staines' Supreme Marble Inlaid Linoleum

This grade of imported English linoleum has stood the test for years. Full 1/4 in. thick, made with very smooth waxed finish. Particularly adapted to the needs of those who require a first class floor covering.

**17E5104** A new marbledized pattern in shades of green, blue, marbledized gray and a touch of mahogany.

**17E5105** Black marbledized blocks, black and mahogany blocks, gray, marbledized blocks in black and gray and black and mahogany panel effects in marbledized gray, green and mahogany. Any of the above numbers, 6 ft. wide, full 1/4 in. thick. In roll lots, each roll containing about 50 sq. yds. Wt. sq. yd. about 8 lbs. In roll lots.....Sq. yd. **\$2.85** Less than roll lots.....Sq. yd. **2.95**

## "Greenwich" Imported Inlaid Linoleum "A" Grade

One of the oldest brands and considered the most durable linoleum made. The ingredients used in the composition have been perfected after years of manufacturing experience. We are offering an assortment of new patterns.

**17E5102** Medium and dark gray blocks with black lines and corners. Any of the above numbers, 6 ft. wide, about 1/4 in. thick. In roll lots.....Sq. yd. **\$2.30** Less than roll lots.....Sq. yd. **\$2.40**

**17E5106** Black, dark and light gray marble effect. Repeats every 9 in.

**17E5101** Medium gray ground, with blue stripes and corners.

**17E5103** Mahogany shade with black lines and corners.

**17E5097** Black and taupe tile with dark and light gray in pattern.

# Domestic Inlaid Linoleum

## Wilds' Wide Width Inlaid Linoleum

Straight Line Tile.  
12 Ft. Wide

12 ft. width is splendid for public service, because large rooms can be covered with fewer seams. Slightly lighter than our heaviest weights, but of the same superior quality. Pattern goes through to the back.

17E5064 Blue and gray tile. 4 1/2 in. pattern.

17E5086 Black and gray rubber effect. 4 1/2 in. pattern.

17E5087 Blue, mahogany and gray. 3 in. pattern.

Any of the above styles, 12 ft. wide, full 1/2 in. thick. Rolls contain approximately 100 sq. yards. Wt. about 7 lbs. per sq. yd. Sq. yd. \$2.40

## "A" Grade Straight-Line Marble Effect Inlaid Linoleum

Not the highest priced, but full value for the money. Full 1/2 in. thick, color goes clear through to the back and cannot wear off.

17E5233 Black and gray marble. 6 in. block.

17E5234 Marbleized green with medium gray and light gray. 4 1/2 in. block.

17E5227 Marbleized blue and taupe tile pattern. 3 1/2 inch block.

17E5229 Gray, taupe and black marble effect. 3 1/2 inch block.

Any of above numbers, 6 ft. wide, about 1/2 in. thick. Rolls contain from 55 to 60 square yards. Wt. per sq. yd. about 6 1/2 lbs.

Any of above styles in roll lots.....Sq. yd. \$2.10  
Any of above styles in less than roll lots.....Sq. yd. 2.20

## Embossed Hand Craft Tile Inlaid Linoleum

A Grade, molded, full 1/2 in. thick. A distinctive and new departure in linoleum.

17E5235 Light and dark terra cotta, with dark gray green mortise lines. Emblem insets in green and blue.

17E5236 Green, brown or tiffany colored background, with dark gray mortise lines. Emblem insets of blue, mahogany, red and green.

Any of the above numbers, 6 ft. wide, full 1/2 in. thick. In roll lots, each roll containing about 50 sq. yds. Wt. sq. yd. about 8 lbs.

In roll lots.....Sq. yd. \$2.15  
Less than roll lots.....Sq. yd. 2.25

## Jaspe Linoleum

2-tone effects, making very effective floors. Serviceable, yet inexpensive, color goes through to the back. Can be used with a black edge to give a bordered effect.

17E5528 2-tone gray.

17E5529 2-tone blue.

17E5530 2-tone brown.

Any of the above numbers, 6 ft. wide, about 1/2 in. thick. In roll lots, each roll containing from 50 to 60 yds. Wt. sq. yd. about 6 lbs.

In roll lots.....Sq. yd. \$1.40  
Less than roll lots.....Sq. yd. 1.50

## Armstrong's Marble Inlaid Linoleum

Straight line, full 1/2 in. thick. A grade that has stood the test and patterns that have proved popular.

17E5237 Marbleized black and gray. 6 in. block.

17E5238 Marbleized green. 9 in. block.

17E5239 Marbleized gray, black and mahogany and plain black block. 6 in. block.

Any of the above numbers, 6 ft. wide, full 1/2 in. thick. In roll lots, each roll containing from 50 to 60 yds. Wt. sq. yd. about 8 lbs.

In roll lots.....Sq. yd. \$3.05  
Less than roll lots.....Sq. yd. 3.15

## Second Grade—Straight-Line Linoleum

Same quality as our "A" Grade except that it is lighter in weight. Possesses the wearing quality expected of linoleum at this price. Genuine straight-line tile, the pattern extends clear through to the back. For public places seeking a lighter weight high quality, durable linoleum at an especially low price, we recommend this grade.

17E5332 Black and gray marbleized pattern. 4 in. block.

17E5333 Marbleized inlaid wood pattern, mahogany black and gray. 4 in. block.

17E5334 English tile, black, gray and taupe. 4 in. block.

17E5336 Mahogany, tan and black coloring. 4 in. tile.

17E5337 Mottled taupe, gray lines, plain blue, taupe tile. 5 in. block.

17E5338 Black and light taupe, 4 1/2 in. square block tile.

Any of the above numbers, 6 ft. wide, about 1/4 in. thick. In roll lots, each roll containing from 50 to 60 square yards. Wt. sq. yd. about 5 1/2 lbs.

Any of above styles in roll lots.....Sq. yd. \$1.40  
Any of above styles in less than roll lots.....Sq. yd. \$1.50

## High Grade Reversible Cocoa Matting

Cocoa Matting cut from roll cannot be returned, if shipped as ordered. All matting should be bound with zinc or rubber ends. BE SURE TO STATE IF YOU WISH US TO FURNISH THEM. SEE ANOTHER PAGE FOR PRICES.

# MATS, MATTING, BINDING AND SUPPLIES

## CORRUGATED RUBBER MATTING

FULL  $\frac{1}{8}$  AND  $\frac{3}{16}$  IN. THICKNESSES

For use in front of elevators, in soda fountains, around billiard tables, or wherever a secure, elastic and pleasant tread is wanted. Saves floor covering in places where wear is severe.

We quote here a quality of rubber matting especially suitable for public use. It is much heavier and of better quality than matting generally illustrated and quoted in other catalogs due to the fact that it is made from solid rubber without insertion in center and is moulded over a heavy cloth back, rubberized so it will not slip. Be convinced of this by sending for samples. We can furnish the light weight and less expensive rubber matting, but recommend this quality only.

17E1866	About $\frac{1}{8}$ in. thick.	2 Ft. Wide	Wt. $\frac{3}{4}$ lbs. per sq. ft.	Run. Foot, 32c
17E1889	About $\frac{3}{16}$ in. thick.	Wt. $1\frac{1}{4}$ lbs. per sq. ft.	Run. Foot, 57c	
17E1887	About $\frac{1}{8}$ in. thick.	2 $\frac{1}{2}$ Ft. Wide	Wt. $\frac{3}{4}$ lbs. per sq. ft.	Run. Foot, 40c
17E1890	About $\frac{3}{16}$ in. thick.	Wt. $1\frac{1}{4}$ lbs. per sq. ft.	Run. Foot, 70c	

NOTE—All Above Numbers of Rubber Matting have Rubberized Cloth Backs Except No. 17E1878.

## ENDS FOR COCOA MATTING

Rubber Ends

Rubber ends are the best for matting; while a little higher priced than metal they are more satisfactory as they will not bend out of shape or mar floor.

Galvanized Metal Ends

To prevent matting from curling and raveling. Prices include attaching ends to matting. If you order them at the time you order matting.

## "KEystone"

### ALL-STEEL MATTING

**36c**  
Per Sq. Ft.

This steel matting represents the highest attainment in steel mats. Made of crimped flat, galvanized steel,  $\frac{3}{8}$  in. high by  $\frac{1}{2}$  in. thick, reinforced by

pin rods. The best steel enters into the making and because of expert workmanship it can be depended upon to give years of satisfactory service. "Keystone" Flexible Galvanized Steel Matting is durable, light in weight and can be rolled up into a close bundle when not in use. To find number of square feet in mat, multiply length by width. Result will give exact number of square feet. Example: Mat 16 ft. long, by 2 ft. wide contains 32 sq. ft.; computed at 36c per sq. ft., cost will be \$11.52. Order as much or as little as desired. Wt. not pkd. sq. ft. 2 lbs.

## REVERSIBLE

### WOODEN MATTING

"Rolamat" Reversible Flexible Wooden Matting, For Back of Soda Fountain, Hotel Kitchen, Etc.

A sanitary wooden matting, built for service and satisfaction. Made of selected hard maple slats  $1\frac{1}{2}$  in. wide and  $\frac{3}{8}$  in. thick, thoroughly seasoned and solidly bound together with galvanized steel connections. It is the same on both sides, and is therefore reversible. Slats are removable and can be replaced. Extra slats and connections can be supplied at any time. Rolls up like a carpet and is easily removed for cleaning. Keeps the feet dry and comfortable because it elevates from all moisture on floor. Has resiliency of tread that is restful to the feet. It answers every demand for a tread mat. May be had 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 40 or 42 in. wide, and any length desired. Where long lengths are required, we suggest ordering sections of from 10 to 12 feet, as they are easier to handle. To find cost of mat, multiply width by length, to get total square feet. Then multiply by price of one square foot, and result will be total cost.

17E1936 Wt. not pkd. sq. ft. 2 $\frac{3}{4}$  lbs..Sq. ft. 45c

#### STOCK SIZE REVERSIBLE WOODEN MATS

Box of 75 ft. Shpg. wt. 7 $\frac{1}{2}$ lbs.....		\$3.50

#### BRASS EDGE

For Cork Carpet and Battleship Linoleum

$\frac{1}{4}$  in. high,  $\frac{1}{2}$  in. wide. Used for a nosing to protect the edges of Battleship linoleum and Cork carpet. Also prevents tripping.

Size	Wt. not pkd. (about)	Each
17E1506 Nails included. Shpg. wt. per ft. 2 oz.		Per ft. 25c

# LEATHER, COCOA AND RUBBER MATS

## "LEATHERSTEEL" MATS

THE STEEL MAT THAT ROLLS UP LIKE A CARPET  
Made in any length, width or shape

With the patented steel protecting rod

View shows construction

### INDESTRUCTIBLE—SANITARY

"Leathersteel" Mats are practically indestructible—reversible—two mats in one—sanitary—dirt cannot cling—sifts through meshes to floor—easily brushed away. Rolls up like a carpet—no beating, shaking, sweeping nor vacuum cleaning. No slipping—shoe grips mat and mat clings to floor. No exposed metal. Reinforcing Rod prevents edges from curling up or buckling of center. You can't trip. Canes and umbrellas will not catch. Natural tan leather color, improving with age to a rich walnut tone. Made to fit snugly in any space. The first expense is the last. Reinforced "Leathersteel" Mats and Runners are made from genuine oak-tanned, selected sole leather. It is the same leather you get in the soles of the most expensive shoes. When soles and heels are stamped from hide, there are many remnants left. It is the control of this leather remnant output in the United States that makes it possible to manufacture mats of such a high grade material. The uniform pieces stamped from these remnants are threaded together on Galvanized Bessemer Steel Wire of extra heavy gauge. The feature which distinguishes the "Leathersteel" Mats and Runners from all others is the patented Reinforcing Rod, which is placed at each end of every mat, and in long runners, at intervals of every 3 feet. Made in any length, width or shape. "Leathersteel" Mats are used in hotels, office buildings, railroads, theatres, clubs, churches, banks, apartment houses, factories, hospitals, restaurants, schools, steamships, stores, shops, cafes, auto salesrooms from coast to coast. Shpg. wt. 2½ lbs. per sq. ft.

Made in corrugated and flat surface. SEND FOR SAMPLES.

### SPECIAL SIZE—CARRIED IN STOCK

Ready for immediate delivery from Chicago stock. Flat surface only.

**17E2338** Regular shapes and stock widths, 2, 2½, 3, 3½, 4, 5 and 6 ft. in any length up to 50 ft. Specify width and length. . . . . Sq. ft. **\$1.00**

### SPECIAL SIZES—MADE TO ORDER

They can be made in any width up to 9 ft. All mats ½ in. thick. When ordering specify whether flat surface or corrugated surface is wanted. All mats should be approached from the steel rod, therefore, when ordering mats advise whether approach will be from width or length of mat so that rods can be regulated.

**17E2334F** Special sizes. Regular shapes. Shipped direct from factory. On orders for 100 sq. ft. or over. . . . . Sq. ft. **\$1.00**

### COCOA MATS

In All Popular Sizes

Cocoa mats are furnished in two grades: "Best Standard" and "Extra Brush." We specialize on quality for public service.

### "Best Standard" Cocoa Mat

Closely woven of selected fibre and strictly high class

Size	Wt. not pkd.	Each
<b>17E1611</b> 14x24 in.	2½ lbs.	<b>\$1.00</b>
<b>17E1612</b> 16x27 in.	3 lbs.	<b>1.15</b>
<b>17E1613</b> 18x30 in.	5 lbs.	<b>1.50</b>
<b>17E1587</b> 22x36 in.	7½ lbs.	<b>2.25</b>

### "Extra Brush" Cocoa Mats

Finest quality cocoa fibre. This is the closest weave of all cocoa mats. Extremely high class and durable. Especially built for public service where wear is hard.

Size	Wt. not pkd.	Each
<b>17E1614</b> 16x27 in.	4 lbs.	<b>\$ 1.75</b>
<b>17E1615</b> 18x30 in.	6 lbs.	<b>2.00</b>
<b>17E1616</b> 22x36 in.	7 lbs.	<b>2.85</b>
<b>17E1617</b> 26x42 in.	12 lbs.	<b>4.15</b>
<b>17E1618</b> 30x48 in.	15 lbs.	<b>5.85</b>
<b>17E1619</b> 36x60 in.	18 lbs.	<b>11.15</b>
<b>17E1620</b> 36x72 in.	21 lbs.	<b>12.15</b>

### COCOA CHAIN MATS

This style of mat is often preferred to the cocoa brush style, as the dirt sifts through and can be easily swept up. Very serviceable and can be easily cleaned by washing with hose.

### Stock Sizes

Size	Wt. not pkd.	Each
<b>17E1624</b> 18x30 in.	3½ lbs.	<b>\$2.20</b>

## RUBBER MATS

SPECIAL MADE-TO-ORDER PLAIN OR LETTERED PERFORATED RUBBER MATS  
Pattern "J"

Extra quality rubber for public service. Material is tough, durable and resilient. Made to order. To determine exact cost of mat, multiply length by width, which gives total square feet. For example: Mat 10 ft. long by 2 ft. wide contains 20 sq. ft.; multiply total square feet by cost of sq. ft. and result will be total cost.

### Unlettered

**17E1946F** Wt. sq. ft. 1¼ lbs. . . . . Sq. ft. **.70**

**17E1947F** Wt. sq. ft. 2 lbs. . . . . Sq. ft. **.90**

**17E1948F** Wt. sq. ft. 2½ lbs. . . . . Sq. ft. **\$1.15**

We advise you to specify short lengths, as they are easier to handle and less liable to break than long pieces. Two 6 ft. lengths are preferable to one 12 ft. length, and three 8 ft. lengths to one 24 ft. length. Give exact length, width and thickness.

Special sized mats can be had with beveled edges if requested on order, also can be made with smooth surface or corrugated surface. We recommend smooth surface for neater appearance. All made to order sizes shipped from factory in Ohio. Shipments in about 3 weeks after receipt of order. C. O. D. shipments must be accompanied by one-half the cost of the mat.

### Special Lettered Perforated Mats

The above perforated rubber mats can be furnished with molded lettering in red or white, as shown in illustration, at following additional charges. Red letters, each letter 75c. White letters, each letter, 75c. Black letters, each letter, 45c. Size of letters is determined by dimensions of mat ordered. Lettering other than block letters shown above or monograms carry special prices.

### PERFORATED RUBBER MATS

Regular Sizes. For Special Sizes for Doors, Halls, Elevators, Etc., See Pattern "J" Above.

Made of extra quality rubber for public service. We can furnish immediately from stock in following sizes, ¾ in. thick only, and with beveled edges.

<b>17E1940</b> 17x27 in.	Wt. about 6 lbs.	Each, <b>\$2.90</b>
<b>17E1941</b> 20x30 in.	Wt. about 8 lbs.	Each, <b>3.75</b>
<b>17E1942</b> 22x36 in.	Wt. about 11 lbs.	Each, <b>4.95</b>
<b>17E1943</b> 24x42 in.	Wt. about 14 lbs.	Each, <b>6.30</b>
<b>17E1944</b> 30x48 in.	Wt. about 20 lbs.	Each, <b>9.00</b>
<b>17E1945</b> 36x60 in.	Wt. about 30 lbs.	Each, <b>13.50</b>
<b>17E1946</b> 36x72 in.	Wt. about 36 lbs.	Each, <b>16.20</b>
<b>17E1945</b> 36x60 in.	¾ in. thick. . . . .	Each, <b>8.50</b>

### "DIAMOND" RUBBER DOOR MAT

Good quality rubber. Has beveled edge and stiff diamond shaped tread. The indentations are extra deep and easily cleaned. **17E1939** Size 18x30 in. Wt. 4½ lbs. . . . . Each, **.85**

### WOOL BORDERED COCOA BRUSH MATS

Extra Quality

Extra fine quality. With green, gold, mahogany or blue wool borders.

This register is a perfect working "Detail Adding" machine, priced amazingly low. It is especially adapted for use in soda fountains, billiard parlors, cigar stores and places where space is limited; being 9 in. wide it occupies very little room.

Made of heavy steel, oak or mahogany finish. All working parts are made of steel, machined and milled, nickel plated finish. The numbers are plainly lithographed on the metal indicators, adding wheels and keys. Has 9 registering keys, nickel plated and polished. The detail adding feature enables you to tell at a glance, at any time, number and amount of sales registered on each key. A polished marble slab is placed over the cash drawer for testing coins. Full French plate glass top. Cash drawer is made of well seasoned stock, nicely finished. Divided into 5 compartments—4 for coins and 1 for paper. Equipped with lock on lid. Size 16 in. high, 9 in. wide, and 16 in. deep. Shpg. wt. 50 lbs. Choice of two keyboard arrangements.

## MERCHANTS' INCOME TAX AND BUSINESS RECORD

Especially valuable in computing income tax returns

An aid to every line of business. Takes the place of ledger, journal, cash book and day book. Does not require an experienced bookkeeper. Good for 2 years. Tells you instantly the condition of your business. Binding of heavy board, covered with fine grade cloth, front cover stamped in gold. Size, 8 1/2 x 11 in.

15E5828 Loose Leaf Book. 148 pages. (2 years record.)... Each, **\$3.25**

**MONEY CAN BE SAVED** by ordering enough merchandise to make up a 100 lb. freight shipment thus receiving the benefit of the full 100 lb. rate.

**THERE IS MONEY IN OPERATING VENDING MACHINES**  
See Page 126

# CIGAR LIGHTERS AND CIGAR CASE NEEDS

## "GLOBE" ELECTRIC

### CIGAR LIGHTER

The "Globe" Electric Cigar Lighter has been used for years with complete satisfaction. A big favorite with smokers and dealers everywhere. It burns gasoline and is furnished with a set of dry batteries which ignites the gasoline and gives a steady thin blue flame. It is trouble-proof and costs very little to operate. Attractive in appearance, quick and convenient in use. Made of brass, finely nickel plated. Sent complete and ready for use with an excellent set of dry batteries and 18 feet of green cotton covered twisted copper wire. Burns gasoline only. Directions are furnished with each lighter. Shpg. wt. 19½ lbs.

**15E7296.....Each, \$7.50**

## "RUTZ" CIGAR LIGHTER

Made of brass, nickel plated. Nothing to get out of order. Cannot blow out or go out. Just press the button. Always ready. Operates by small, continuously-burning "Pilot" gas jet and is adjustable to any length flame. Standard ¾ in. coupling supplied with each lighter. Shpg. wt. ½ lb.

**15E7297.....Each, \$2.75**

## GAS CIGAR LIGHTER

Flame burns very low—globe protects flame. Made of brass, nickel plated finish. Complete with 2 ft. tubing with goose-neck and connections for standard jet. Total length 36 in. Shpg. wt. 1 lb.

**15E7298.....Each, \$3.50**

## CIGAR LIGHTER TUBING

Length	Wt. not pkd.	Each
15E7310 18 in.	2 ¼ oz.	30c
15E7311 24 in.	3 ¼ oz.	40c
15E7312 36 in.	5 oz.	50c

## "MIDLAND" JUMP SPARK CIGAR LIGHTER

Lights by the wireless method. The spark jumps to the wick, lights it, then automatically extinguishes. No friction points to wear out. Will give one hundred thousand lights from a set of three dry batteries, enough to last a year.

Complete in itself. All that is required is a little gasoline. No outside wires or connections. Metal parts, including the gasoline holder, are made of brass, heavily nickel plated. Gasoline holder has screw cap and asbestos wick. Strong dovetailed hardwood cabinet, in oak or mahogany finish, as listed below. Total ht. 15 in.; cabinet 6 ½ x 6 ½ x 8 ½ in. high. Comes complete with auto coil. Fully guaranteed. Shpg. wt. 12 lbs.

	Each,
<b>15E7302</b> Golden oak...	<b>\$15.00</b>
<b>15E7303</b> Mahog'y finish	

## "SANIFACIENT" ELECTRIC HUMIDIFIER

Keeps Cigars in Perfect Condition

Intermittent circulation of moist air in the cigar case by a special 1 in. electric fan that operates in accordance with humidity of case above a receptacle holding water. A cloth distributor absorbs the water, which is blown by the fan. When the current is on a red light flashes behind a sign reading: "Our Cigars Always in Perfect Condition." One machine is sufficient for a 16 ft. case and will last for years. Guaranteed for one year against defects in material and workmanship. Made of non-corrosive metal, will not rust. Japanese bronze finish. Complete with cord and plug. Shpg. wt. 12 lbs. Operates on any 110 volt circuit.

**15E7395** Length 10 in., ht. 10 ½ in. depth 5 in. Each, **\$38.00**

## "PIX" CIGAR CASE MOISTENERS

Made of a combination of clay and minerals that absorb and hold water, discharging it according to the humidity of the cigar case. Only need to be soaked in water and they are ready for use. Give best results when placed one to each 3 ft. of cigar case. With proper care will last for years.

Plain clay cylinder with oxidized metal ends, without wire mesh covering. Size 16x2 ½ in. Wt. not pkd. 3 ½ lbs.

**15E7381.....Each, \$1.25**

"MILWAUKEE"  
CIGAR MOISTENER

Made of zinc filled with the best sterilized absorbent material. The moistener is quickly wet by letting water run over the outside cover or through opening on the end. One filling will last 7 days. Size 2x16 in. Shpg. wt. 3 lbs.

**15E7382.....Each, \$1.75**

Same high grade material and workmanship as Cigar Moisteners listed at left. Bottom and edges covered with brass, nickel-silver finish.

Size in.	Wt.	Each
<b>15E7384</b> 7x9x¼	1 ¼ lbs.	<b>\$1.15</b>
<b>15E7385</b> 9x15x¼	3 ½ lbs.	<b>1.50</b>

Clay cylinder covered with nickel plated wire mesh and nickel plated metal ends. Size 16x2 ½ in. Wt. not pkd. 3 ½ lbs.

**15E7383.....Each, \$2.00**

## CHANGEABLE CIGAR BOX LID HOLDER AND PRICE TAG

Made of cold steel, nickel finish. Holds box lid at a straight angle and will not slip. Easily attached. Price tags are made of aluminum, printed in black with different denomination on each side. Fit in frame and can be quickly changed by pulling out and sliding in another. Shield 1 ½ x 1 in., total ht. 3 ¾ in. Packed 1 doz. in box, complete with tags with prices on both sides, which contain one or more of the following.

2 for 5c, 3 for 5c, 5c, 6c, 7c, 3 for 10c, 10c, 11c, 12c, 3 for 25c, 2 for 25c, 25c, 20c, 6 for 25c, 35c, 3 for \$1.00, 50c. Shpg. wt. per doz. 1 lb.

No less than 1 doz. sold

**15E7396 (Gro. \$12.50) Doz. \$1.25**

## "PELICAN" CIGAR CUTTER

Decorated ash tray, match holder and cigar cutting attachment. Made of steel nickel plated and has rubber feet. Tray 7 in. long, 5 in. wide. Shpg. wt. 3 lbs.

**15E7391**

Each, **\$2.95**

## "CLIMAX" TOBACCO CUTTER

Malleable iron, adjustable steel blade. Blade k. enameled, trimmed in gold. Has gauge for various size cuts. Handle is 12 in. long. Total length 18 ½ in. **15E7322** Wt. not pkd. 7 ½ lbs.

Each, **\$2.75**

## CIGAR BOX OPENER

A necessity at every cigar counter. For opening cigar boxes, tacking, etc. Cast steel, finely nickel plated. Length 3 ¾ in. Wt. not pkd. 2 oz.

**15E7324.....Each, 25c**

## LEE'S COUNTER STAND

### CIGAR LIGHTER

A very handsome and serviceable addition to any cigar counter. Pushing lever causes small flame to rise from top of lighter. Will not blow out. Made of brass, nickel plated. Rubber bumpers are inserted in base of stand to prevent marring of cigar case. Can be connected from above, back or end of cigar case with either pipe or fittings. Pipe and tubings make stand stationary. Ht. 13 ½ in., diam. base 5 ½ in. Directions are furnished with each lighter. Shpg. wt. 5 lbs.

**15E7102.....Each, \$7.75**

## LEE'S FLOOR STAND CIGAR LIGHTER

A fine appearing and dependable floor stand cigar lighter. Operates with push lever same as lighter shown above. All parts are brass, highly polished and nickel plated. Can be very easily installed as all sections fit perfectly. Directions for installing furnished with every stand. Total ht. 56 in. Diam. of upper casting 1 ½ in., upper tube 1 ½ in., center casting 2 in., lower tube 1 ½ in., floor base 4 ¼ in. Shpg. wt. 8 lbs.

**15E7101 Each, \$12.75**

## RUBBER CHANGE MATS

Round Corrugated Rubber Mats. Circular corrugated mat ¼ in. thick. Made in 2 sizes as listed below.

<b>15E2814</b> Diam. 5 in. for glasses. Wt. 15c per doz. 1 ½ lbs. (Doz. \$1.25) Each,	<b>15c</b>
<b>15E2815</b> Diam. 8 in. Wt. not pkd. 5 oz. (Doz. \$2.00) Each,	<b>20c</b>

Round Change Mat. Made of soft, durable, black rubber with pegs.

**15E2822** Diam. 8 in. Wt. not pkd. 4 oz. (Doz. \$5.50) Each, **50c**

Oval Change Mat. Made of red rubber. Handsome pattern, very durable, 10x6 ¼ in. **15E2821** Wt. not pkd. 6 lbs. per doz. (Doz. \$9.75) Each, **85c**

### USE THIS EFFECTIVE ADVERTISING

**At Practically No Cost To You!**

### BOOK MATCHES

**With Your "Ad" On The Front Cover**

Many of our individual restaurant, lunch room, confectionery, and drug store customers are doing successful and satisfactory advertising at a very small cost or no cost at all, by using our "Book Matches" with their "Ads" printed on the front cover. It's the cheapest and best advertising they can use for their local trade. Try it yourself! The cost is slight and the results more than satisfactory.

If you do as a number of our customers do—sell these book matches,—you make a profit and your advertising costs you nothing. If you hand them out with cigar or cigarette purchases, you put your advertising where you know it will do you the most good, and at the cost of only a fraction of a penny per customer.

Entire book is printed in three attractive colors.

Your "Ad" appears on the front cover in plain type. No illustration or fancy type will be used. In ordering, specify "Ad" desired on front cover. Be brief, as a few words properly displayed are better than a crowded Ad. Bear in mind that your "Ad" is on the front cover only. Our Trade-mark "Ad" appears on the back cover.

Send in your order now! It requires three to four weeks to fill orders. Goods shipped F.O.B. Factory, New York City. No less than 2,500 of one imprint sold. Packed 50 books to a paper box. 2,500 books in a wood case.

### 50 LB. PARCEL POST SCALE

Instantly Computes Weight and Postal Rates

Handy and reliable. Saves time and trouble for anyone who handles postal matter. Figures on the dial show the latest revised postal rates for all classes of mail by zones. Find the zone in which the shipping point is located to which the package is addressed; upon placing the parcel on the scale the indicator instantly gives rate, weight and classification. All rates are printed in red ink and can be told at a glance.

This scale is unusually useful in connection with box trade to be supplied by parcel post.

This scale is constructed of the best materials throughout, and is guaranteed absolutely accurate. Weighs by ounces up to 50 pounds. Made entirely of metal, finished in black japan with gold decorations. White enamel dial is 8 in. in diam. and can be read quickly and easily. Ht. 10 in., width 8 in., depth 6¼ in.

**15E4267** Shpg. wt. 5 lbs.....Each, **\$4.25**

# RESTAURANT CHECKS AND PUNCHES

## STANDARD PUNCHLESS CHECKING SYSTEM

A Perfect Checking System For Use in Soda Fountains, Restaurants and Lunch Rooms.

The metal holder is a combined check holder and punch and weighs less than 3 oz. together with a pad of checks. Can be carried in pocket or attached to apron band. Operation is very simple. Place check at amount wanted underneath the raised V shape metal point (see illustration above), pull check towards you and the sharp point perforates check at denomination. The complete operation is almost instantaneous; no lever to press. Checks are  $1\frac{1}{4} \times 3\frac{1}{2}$  in., put up in pads of 50, printed with waiter's numbers in red and serial numbers in blue. Packed in cardboard boxes, containing 5,000 checks of one waiter number, consecutively numbered. Checks may be had ready to use, or specially printed with your name, as listed below. The Cashier Report Sheets will give you an accurate record of business as well as a complete check on each waiter. Holders will be replaced free of charge if defective upon return of damaged holder.

### Checks Carried in Stock

No less than 5,000 or exact multiple of 5,000 sold for each waiter number wanted. Be sure and specify waiter numbers desired. Shpg. wts.: 10,000, 15 lbs.; 25,000, 35 lbs.; 50,000, 70 lbs.; 100,000, 150 lbs.

15E7175	1c to \$1.00.....	Per 5,000, \$ 2.75
15E7176	5c to \$5.00.....	Per 10,000, 5.50
		Per 25,000, 13.00
		Per 50,000, 23.00

### Special Printed Checks

Your "ad" printed on face of check. Specify wording desired and waiter numbers wanted. No orders accepted for less than 50,000 of specially printed checks. 2 weeks to fill orders. Shpg. wts.: 50,000, 70 lbs.; 100,000, 150 lbs.

15E7182F	1c to \$1.00.....	Per 50,000, \$25.00
15E7183F	5c to \$5.00.....	Per 100,000, 45.00

Combination Check Holder and Punch. Made of steel, nickel plated. Wt. not pkd. 1 oz.

15E7174.....Each, 25c

Check Rack. Made of steel, green finished. 10 compartments, each  $1\frac{1}{2}$  in. wide. Made so racks will fit one on top of the other. Space on back for ad. Size  $14 \times 3\frac{3}{4} \times 3\frac{3}{4}$  in. Wt.  $1\frac{1}{2}$  lbs.

## ROLL TICKETS

Made of cardboard, size  $1 \times 2$  in., perforated and printed with the words "Good for 5c in Trade." Can be issued to customers before they eat or drink, or after. Put up in rolls of 2,000 tickets, consecutively numbered. Weight per roll 1 lb.

15E7193F	3	$5 \times 9 \times 6\frac{1}{2}$	3 lbs. 4.00
15E7194F	4	$8 \times 9 \times 6\frac{1}{2}$	$4\frac{1}{2}$ lbs. 5.00
15E7195F	5	$8 \times 9 \times 6\frac{1}{2}$	$4\frac{1}{2}$ lbs. 6.00

Wall holder for one roll of tickets. Made of gray iron; black enameled.

15E7190 Weight 13 oz. ....Each, 50c

## LOCK-STUB "KLEAN KUT" HOLDER AND CHECKS

A new check holder with combination punch that is fast gaining favor. Can be used without any extra attachments, fits in apron or coat pocket. The check holder is  $1\frac{1}{4} \times 6$  in. Made of spring steel, nickel plated finish, has loop at top for attaching to belt hooks if desired; also spring attachment that clamps pad of checks in place quickly. The punching device is a steel hardened die which will last indefinitely. To punch check place under die at denomination wanted and press. Paper scraps fall in receptacle which can be emptied as desired. The checks that fit this holder are stitched 50 to a pad. They are made of white cardboard, size  $3\frac{3}{4} \times 1\frac{1}{4}$  in., printed in blue ink. Can be had with waiter's numbers 1 to 12. Packed 60 pads (3,000 checks) of a waiter's number, numbered consecutively, to a box. We do not break boxes. Holders will be replaced free if broken or out of order upon receipt of damaged holder.

15E7245	"Klean Kut" Holder. Wt. not pkd. 4 oz.....	Each, 60c

# A POPULAR LINE OF TRADE CHECKS

Special finish makes our checks smooth and brilliantly polished—no grease or grime. We aim to fill all orders in 10 days. Illustrations show actual sizes. Checks can be had with any wording desired embossed on the face of check such as your firm name, business, etc., the reverse side to be stamped with what are commonly known as "stock dyes" reading such as: "Good for 5c in Trade," "Good for 5c in Merchandise," "Pay Cashier," etc., the denomination desired being substituted for 5c. In ordering state plainly style of check desired, also metal, and lettering on face and reverse. No orders accepted for less than 100 checks of a kind and lettering, unless otherwise specified. NOTE—Prices quoted are for one size, one style, one lettering of checks. Orders cannot be assorted to make quantity price.

## ROUND CHECKS

The five designs listed below are the most popular lines of checks, since the sizes correspond closely with regular coins, but will not operate slot machines. Made of 16 B. & S. gauge metal. Brass or aluminum. Your firm name, business, etc., on face side, and "Good for—in Trade," "Good for—in Merchandise," etc., on reverse side. In ordering specify quantity, and number of checks desired, writing plainly wording desired on face and reverse side.

# OSCILLATING AND STATIONARY ELECTRIC FANS

NOTE—All fans listed on this page are priced for 110 volts only. Write for prices of other voltage Fans.

## "G-E SPECIAL" 9 IN. OSCILLATING FAN

A Superior, Medium Sized Fan—Almost Noiseless

For private offices, hotel rooms, or the home. Readily adjustable for desk or wall use by simply turning a thumbscrew. Made of metal throughout, highly finished in green enamel, fan blades of polished brass. **Alternating current only.** Shipped complete with cord and plug. Shpg. wt. about 15 lbs.

**15E5647**..... Each,  
(Lots of 6, Each, **\$12.00**)

**FAN WITH LARGER MOTOR**

In addition to the above, we also have our regular fan with larger type motor; made in both alternating and direct currents. Ship. wt. about 17 lbs.

<b>15E5643</b> Direct current..... Each, (Lots of 6, Each, <b>\$19.35</b> )	<b>\$21.50</b>	<b>15E5644</b> Alternating current..... Each, (Lots of 6, Each, <b>\$19.35</b> )	<b>\$21.50</b>
--	----------------	---	----------------

With Medium Size Motor

## "G-E" NON-OSCILLATING FAN

A REAL "G-E" FAN FOR ONLY **\$5.00**

WITH 6 INCH BLADES

These fans are especially adapted for small rooms, such as kitchens, bedrooms, small hotel rooms, etc. They give a big steady cool breeze and can be adjusted to throw the breeze at any angle upward or downward. They receive the same high grade quality of workmanship and materials as is put into the large "G-E" fans and are guaranteed to give satisfaction. Equipped with motor that can be used on any 110 volt, A. C. or D. C. circuit. Complete with cord and plug ready to attach. Shpg. wt. 5 1/2 lbs.

**15E5633** "G-E" 6 in. Fan, Each,  
(Lots of 6, Each, **\$4.75**)

**\$5.00**

## "G-E WHIZ" NON-OSCILLATING FAN

WITH 9 IN. BLADES

A well made yet low priced fan—small in size but delivers a breeze that is a genuine comfort in hot weather. Made of metal throughout, finished in green enamel. Can be used as either a desk or wall fan by turning a thumbscrew. Four 9 in. blades. Ht. 12 in. Working parts include a well made induction motor equipped with oil cups. **Alternating current only, 110 volt, 60 cycle only. Not made for any other current.** Shipped complete with cord and plug ready for use. Wt. not pkd. 7 lbs.

**15E5642** Each **\$9.00**  
(Lots of 6, Ea. **\$8.10**)

## "G-E" NON-OSCILLATING FAN

A Powerful Large Size Fan. Three Speeds.

The most popular fan on the market. Mechanically perfect, motors of the best type. Operates on a 4 point regulating switch—3 speeds. Requires only an occasional oiling. Made of metal throughout, finished in green enamel with 4 lacquered brass fan blades. 12 in. or 16 in. sizes for alternating or direct current. Readily adjustable for desk or wall use by merely turning a thumbscrew. Shpd. complete with cord and plug ready for use.

<b>15E5635</b> 12 in. Direct current. Shpg. wt. 34 lbs. Each, (Lots of 6, Each, <b>\$20.70</b> )	<b>\$23.00</b>	<b>15E5639</b> 16 in. Direct current. Shpg. wt. 49 lbs. Each, (Lots of 6, Each, <b>\$24.30</b> )
<b>15E5634</b> 12 in. Alternating current. Shpg. wt. 34 lbs. Each, (Lots of 6, Each, <b>\$20.70</b> )		<b>\$27.00</b>

## "G-E" CEILING FANS

For use where it is desirable to move a large volume of air at a moderate velocity. The best type of motor is used. Practically noiseless. Motors have four point regulating switch which provides three running speeds. Made of metal throughout (except blades which are of seasoned hardwood). Shaft and motor finished in green enamel; blades are finished in mahogany. Supplied for direct or alternating current, both styles have four blades, having a 52 in. sweep. Shipped complete with insulated hanger, hook, canopy and tubing.

In ordering, specify voltage, current and height of ceiling.

<b>15E5646</b> 52 in. Direct current. Shpg. wt. 90 lbs. Each, (Lots of 6, Each, <b>\$46.80</b> )	<b>\$52.00</b>	<b>15E5645</b> 52 in. Alternating current. Shpg. wt. 91 lbs. Each, (Lots of 6, Each, <b>\$46.80</b> )

Where height of ceiling exceeds 12 ft. there will be an extra charge of 50c per additional foot for each fan.

## "G-E" 12 and 16 In. OSCILLATING FANS

"General Electric" Oscillating Fans are of the geared type, and do not depend upon air reaction for their oscillation. Have an adjusting nut which throws the oscillator "in" or "out" and a lower adjusting nut which changes the arc of oscillation. The quiet, steady and positive operation throughout the entire range is due to a two-bearing support for the motor body, straight connecting rod and a correctly designed train of gears. The mechanism is packed in a high grade non-fluid oil which requires renewal but once a season. All oscillating fans can be adapted to wall mountings by merely turning screw in base, also each one has a carrying handle. Can be had in 12 in. or 16 in. sizes; alternating or direct current. Finished in green enamel; brass lacquered fan blades. Shipped complete with cord and plug, ready for use.

Specify voltage and current when ordering.

<b>15E5637</b> 12 in. Direct current. Shpg. wt. 35 lbs. Each, (Lots of 6, Each, <b>\$27.00</b> )	<b>\$30.00</b>	<b>15E5641</b> 16 in. Direct current. Shpg. wt. 51 lbs. Each, (Lots of 6, Each, <b>\$31.50</b> )	<b>\$35.00</b>
<b>15E5636</b> 12 in. Alternating current. Shpg. wt. 35 lbs. Each, (Lots of 6, Each, <b>\$27.00</b> )		<b>15E5640</b> 16 in. Alternating current. Shpg. wt. 51 lbs. Each, (Lots of 6, Each, <b>\$31.50</b> )	

# WITT GUARANTEED CORRUGATED SHEET STEEL CANS

**Substantial and Sanitary—Rust-Resisting, Odorless and Water-Tight**

Wall of each can or pail is one piece, corrugated to give it great strength. Bound top and bottom with heavy one piece solid beaded steel bands, securely riveted. One-piece riveted bottom, raised completely off the floor. Snug-fitting one-piece steel cover with handle. Hot galvanized after manufacturing, makes them rust-resisting and water-tight.

# Remember These Things When Ordering From Our Catalog

This catalog is published for the convenience it gives our customers. It is a handbook for daily use—always ready when you want it, always truthful and very comprehensive. You are invited to use it to the fullest extent, and in order to help you benefit by it to the greatest degree, we are giving you the following hints on how to use it and order from it:—

- 1 Write your name and address very clearly. Do not use your trade name alone, but give the name of the proprietor, followed by the trade name, if any. For instance, John Smith, Proprietor, Elite Confectionery.
- 2 State all shipping directions clearly. If ordering by freight, be sure to make up a 100 lb. shipment if possible, in order to get the full benefit of the rate.
- 3 If remittance accompanies your order, state the amount, and what it is intended to cover. Unless impossible to avoid it, do not send currency, but use Drafts, Checks, P. O. or Express money order, or stamps. Where currency must be sent use registered mail.
- 4 Order by our catalog number. This is an extremely important detail which when overlooked is a frequent cause of delay and disappointment.
- 5 State clearly both quantity and denomination of the items ordered. Where there are prices quoted for several quantities, be certain you are applying the correct price for the amount you order.
- 6 Where Colors, Finishes, Sizes, Measurements or other specifications are needed be sure you state these clearly.
- 7 Where your name is to be placed upon the item purchased, by stamping, embroidering, printing or other means, follow instructions to the letter, and always PRINT the desired wording.
- 8 When your order calls for goods to be made to order, check all measurements and specifications carefully before ordering, and be sure you have overlooked nothing that is necessary for us to know. Always read directions carefully, and if you are not then clear how to proceed, write for information, which will be promptly supplied.
- 9 Notice the place from which shipment is to be made. In some cases shipment will be made direct from the factory only; in some you have the option of shipment from the factory or from our stock. Sometimes factory shipments are made only in large quantities, and sometimes in any quantity desired. This is always clearly stated,—read carefully and be sure you understand everything clearly.
- 10 Wherever possible use our order blank. It will be more convenient for you, and we can fill orders better and quicker if you do. A supply of these blanks will be mailed you at your request.
- 11 Read the catalog descriptions before ordering. They are truthful, and if carefully read will give you a clear conception of the article.
- 12 Use the index. It will save you time and will always tell you quickly where to find what you want.
- 13 When the item you want is not listed in this catalog, but is shown in one of our special books this will be stated in the index, or in other parts of this catalog. In such cases, a request for the desired book will bring it to you by return mail.
- 14 Bear in mind that in many cases we list only part of our line. This may be because a large part of it is made-to-order goods, or because space will permit only a partial showing. Where you are in need of something not illustrated, or not listed in any of our other catalogs, write us, describing the item desired, and we will respond promptly.
- 15 When in doubt about any detail as to the merchandise itself, or how to order it, write us for information. Your inquiry will be given instant attention.

*If What You Want Is Not In This Book, Write For Special Catalog*

## \$1,000 GUARANTEED

### ROACH KILLER

\$1,000 is offered by the manufacturers to any one who can prove that this powder cannot rid any building of roaches and water bugs when it is properly used. It does not contaminate food-stuffs, is tasteless to the human tongue, yet the roaches are attracted to it and greedily devour it. The live roaches in the walls, especially the young ones, feed on the bodies of the roaches that have died, and this in turn kills the little ones. No hotel or institution should be without it. 1 lb. can with sifter top. Wt. not pkd. about 1 1/4 lbs.

**\$1.25**  
Each

15E4316 Doz. **\$10.00**

## PURE HORSEHAIR FLOOR BRUSHES

## PIX HERCULES MOP WRINGERS

The best mop wringer ever made—known all over the country.

Has 3/8 in. frame, aluminum painted—no cast iron parts. Mop rollers are 16 gauge galvanized sheet steel, properly perforated. When rollers are turned mop head is forced out—no pulling required. Roller bearings are of solid brass, minimizing wear and keeping rolls always true. Frame mounted on rollers and casters. Pressing foot pedal brings rollers together and also moves the metal feet to the floor, preventing wringer from slipping about. Price does not include mop pail.

15E5625	Without pail. Shpg. wt. 25 lbs.	Each, \$5.65
15E5622	Pix Twin "Hercules" Mop Wringer. Made with extended platform to hold 2 pails; one for clean and one for dirty water.	Each, \$8.50
15E8507	Heavily galvanized pail to be used with above wringers. Cap'y 16 qt. Wt. 4 1/2 lbs.	Each, 75c

## YACHT MOPS

Used on high class floors as well as for heavier work. Made of a fine soft cotton twine, securely attached to a heavy stick. Popular for steamship work. Mop head is about 15 in. long. Shpg. wt. per doz. 24 lbs.

15E1178... (Each, 55c) . Doz. \$6.00

## JANITORS' MOP STICK

Will outlast several cheap ones. Frame of heavy steel wire, firmly fastened to a 50 in. hardwood handle; the thumbscrew operates mop holder, which can be made to take a mop of any width or thickness. Shpg. wt. 2 1/4 lbs.

15E1104... Each, 65c (Doz. \$6.95)

## LIGHT WEIGHT MOP STICK

For mops weighing up to 12 lbs. to the doz. Made of steel with strong spring clamp that holds mop securely. 4 ft. handle. Shpg. wt. about 1 lb.

15E1161 Each, .25c (Doz. \$2.50)

## "HOLZ-EM" COMBINATION SCRUB BRUSH AND MOP HOLDER

Will hold either mop or scrub brush and is the only practical holder of its kind made. Its strong jaws take a vise-like grip on the brush or mop and won't let go. Jaws are made of pressed steel, nicely japanned and can't break, crack or become loose. Rust proof throughout and securely fastened to hard maple handle, 54 in. long, 1 in. thick. Wt. not pkd. 1 1/2 lbs.

15E4167... (Doz. \$4.50) Each, 40c

## OBLONG SCRUB BRUSHES

Made of extra stiff palmetto, the most durable fibre used in scrub brushes.

15E719	Size 2 1/2 x 10 in. Shpg. wt. per doz. 8 lbs.	(Doz. \$3.10) Each, 30c
15E720	Size 2 1/2 x 8 in. Shpg. wt. per doz. 7 lbs.	(Doz. \$2.60) Each, 25c

## "JANITOR" MOP PRESS

Extra Large Size

Will dry mops better than any other press on the market, fits any pail; works very easily. Springs keep press open ready to receive the mop. Made of selected hardwood and best pressed steel. Will last for years. Wt. not pkd. 13 lbs.

15E1149	Without pail.	Each, \$3.85
15E1112	Special oval galvanized pail for above mop press.	Each, \$2.50

## "CLIMAX" MOP WRINGER

Easily moved around, yet stands firmly in operation. Guard inside the frame prevents mop strands from catching in rollers. Any pail will fit in this wringer. Made entirely of Bessemer rolled steel, excepting the 10 in. rollers which are of hardwood. Ht. 21 1/4 inch. Shpg. wt. 17 1/2 lbs.

15E1159 Wringer without pail. Each, \$3.25

## "NEW POWER" MOP WRINGER

Supplies a greater pressure on the mop than the crankless or press wringers do. The frame is made of steel, the roller of maple. Has handle for carrying. Shpg. wt. 13 lbs.

15E1140	Complete with 14 qt. cedar pail.	Each, \$2.75
15E1156	Same as above but with galvanized pail.	Each, \$2.75

## EXTRA HEAVY JANITORS' PAILS

The bail is an exclusive feature enabling pail to be turned over and used as a stool. Convenient for porters when polishing brass on lower part of doors, cleaning baseboards, etc. Pail made of extra heavy galvanized iron, strong reinforced bottom, heavy wired edge around the top and bottom. Cap'y qts. Wt. lbs. Each Doz.

15E8505	12	1 1/2	55c	\$6.00

## WEIGHTED FLOOR WAX BRUSHES

Easy to Handle

The ideal brush for waxing and polishing hardwood and inlaid floors. The weighted feature in this brush has the same effect as a hand rubbing in giving the floor a sparkling polished surface. A strip of thick felt around the metal base protects the furniture from becoming marred and scratched when it comes in contact with the brush. Wt. not pkd. 25 lbs.

**\$4.25** Each

**15E668** Weighted Floor Brush. Complete with full length handle. Each, **\$4.25**

## ROYAL MARBLE CLEANER

A Stain Remover. Cleans and brightens. Quickly removes all stains and dirt without injury. Only one application necessary. Wt. not pkd. 1 1/4 lbs.

**15E207** 1 lb. can. Each, **25c** (Doz. \$2.75)

## JOHNSON'S FLOOR WAX

(Powdered) For waxing floors of dance halls. Equally effective on new or old canvas covered floors. Just sprinkle over the floor—the dancers do the rest. Put up in cans.

**15E4404** 1 lb. can. Each, **75c** (Doz. \$7.00)

**15E4406** 84 oz. can. (Doz. \$34.50) Each, **\$3.00**

(Prepared) For polishing floors of all kinds—wood, linoleum, tile, marble, etc. Put up in paste form. Can be applied with either weighted brush or ordinary cloth.

**15E4405** 1 lb. can. (Doz. \$7.00) Each, **75c**  
**15E4408** 4 lb. can. Each, **\$2.60** (Doz. \$28.50)

## ENAMEL CLEANER

For Enameled Bath Tubs, Sinks, Etc.

A high grade product. Will not injure fine glazed surfaces. Contains no acids, will do the work quickly.

**15E1478** 1 lb. can. Each, **25c** (Doz. \$2.75)

## "ABSORBO" OVAL DRY FLOOR DUSTER

Needs No Oil or Polish

Can Be Washed

Made of best quality black cotton yarn, padded to prevent marring furniture or baseboards. Mounted on spring steel frame, the yarn being sewed securely on it. Chemically prepared, requires no oil or polish. Can be washed. With 4 1/2 ft. handle. Approx. shpg. wt. per doz. 20 lbs.

EACH **\$1.10** 10 in. size

**15E1182** 10 in. (Doz. \$12.25) Each, **\$1.10**  
**15E1185** 16 in. (Doz. \$19.30) Each, **1.80**

# RESTAURANT CHECKS at LOW PRICES

Because we have these checks made to our own specifications, we can guarantee them to be absolutely uniform in quality. By printing them in tremendous quantities we effect a large saving which we automatically pass on to you in the form of lower prices. Thus by ordering your requirements from us you are assured of the best quality checks at the lowest possible prices.

## FINE QUALITY COUPON CHECKS

Made In Two Sizes

These checks are printed on manila paper in multiples of 5c, perforated between amounts so each can be torn quickly and evenly. Put up in pads of 100 checks, numbered consecutively and tabbed at one end. Hole is punched at lower end, so that pad may be attached to holder if desired. Do not confuse these checks with the ordinary coupon checks. They are made of extra quality heavy manila paper; the printing is well done, and the perforations are excellent. These coupon checks are well adapted to soda fountains, lunch rooms, restaurants, tea rooms, etc. Made in 2 sizes, denominations 5 cents to \$1.00 and 5 cents to 60 cents.

**15E7163 Denominations 5c to \$1.00.** Size 1½x7 in. Wt. not pkd. 11 lbs. per 100 pads.

# The Popular "2-in-1" CHECKS & PUNCHES

## Neat--Convenient--Efficient

**WE** especially recommend the "2-in-1" checks for first-class restaurants and soda parlors. They are very neat and make a good impression whenever used. The "2-in-1" Restaurant and Soda Parlor Check is now made with red backs. This new feature is heralded as a decided improvement over the old style check. With the red back the "2-in-1" check is absolutely cheat-proof. The cashier can see at a glance the highest amount punched. Also check will never be lost among the dishes because it can always be seen. Printed in either red and white or blue and white, as shown on this page. All "2-in-1" checks have red backs. Checks are shown actual size. Put up in tabs of 50 checks each, perforated at the end. 200 pads in a box. We do not break boxes. Shipping weight, 200 pads, 10½ lbs.

**15E268E** Length 50 ft. Wt. not pkd. 50 lbs. .... Each, **15.00**

## \$1,000 TOILET BOWL CLEANER

Restores Bowls to Original Purity

A compound that safeguards health by deodorizing and disinfecting closet bowls, connections and invisible traps. Gets to the root of disagreeable odors originating in hidden traps. Easy to use—just shake powder into the water, let solution stand a few minutes and the stains, discolorations and scales will be loosened. By the use of a toilet bowl brush all impurities will readily come off. Does not injure the porcelain, but removes every trace of stain or soil. Packed in 1½ lb. friction top can with full instructions.

**15E3900** .... Each, **30c**  
(Case of 1 doz. cans, shpg. wt. 20 lbs. Case **\$2.25**)

## COMBINATION OFFER: \$1,000 Toilet Bowl Cleaner and Brush

For the convenience of our customers we offer a first quality Chinese bristle brush with a 27 in. curved handle and a 1½ lb. can of \$1,000 Toilet Bowl Cleaner, as described above, at a special price. The brush will last for a long time, therefore in the future it will only be necessary to order the cleaner. Shpg. wt. 6 lbs.

**15E3901** 1½ lb. can of \$1,000 Toilet Bowl Cleaner and Brush. .... Complete, **79c**

## OUR TERMS:

### Cash With Order

This is the most satisfactory method, because it does away with bookkeeping, clerical work and other unnecessary red tape and expense—not only to us but to yourself. When goods are ordered to be shipped C. O. D., then the express company or bank must be paid by you for handling the invoice or draft. Where bills are contracted to be paid for in 30 days, and not remitted at maturity, a draft is drawn and the bank must be paid for its trouble. Cash with order insures the quickest delivery of goods to you—there is no chance of delay in the credit department, incurred by looking up past dealings, commercial ratings, and the investigation of references.

A great many customers object to their packages being marked "C. O. D.," or the making of drafts through their local bankers. This can be easily overcome by sending the amount of your purchase in advance. You can then secure every advantage when dealing with a responsible house. We are responsible, and you assume not the slightest possibility of loss or disadvantage.

### Part Cash—Balance C. O. D.

Everyone desires to save all they can by sending full payment with their order; however, if you prefer a C. O. D. shipment, we will gladly send you any goods amounting to \$5.00 or more, collect on delivery, if you send one-third of the amount with your order, as evidence of good faith. The balance together with transportation charges, to be paid when the goods arrive. C. O. D. goods can be shipped by freight, express or parcel post.

Balances due on C. O. D. freight shipments are collected by draft through your local bank or express company.

Balances due on C. O. D. express shipments are collected by your express agent.

Balances due on C. O. D. parcel post shipments are collected by your Postmaster.

The charges made for the collection and return of the money due to us are paid by the purchaser.

**Orders under \$5.00 will not be sent C. O. D.**

### Thirty Days' Time

We will open an account with you on our regular terms of net thirty days from date of invoice, upon receipt of satisfactory references. When opening a credit account, it is customary and necessary to submit references with your first order—that is, the names of your bank and other houses with whom you have already established credit relations. Should you fail to send the desired information with your order, we will hold shipment and write you for such additional information as we deem necessary. **To avoid delay in shipment, we suggest that you send cash with your first order and make application at that time for an open account. ALL INVOICES ARE SUBJECT TO SIGHT DRAFT WITH EXCHANGE AT END OF THIRTY DAYS WITHOUT NOTICE.**

We reserve the right to restrict quantities, withdraw prices or eliminate from sale, any item listed in our catalogs or circulars.

## Your Money Back If You Are Not Pleased

Every article listed in our catalog is covered by our liberal guarantee.

If you receive goods from us that are not entirely as represented, we will gladly refund your money, including amount of transportation charges you have paid, or exchange same for other merchandise, provided you notify us within five days after receipt of the goods.

Where goods ordered by mail are shipped exactly as represented, but do not prove satisfactory through no fault of ours, we will refund the full amount paid for the goods, deducting only the transportation charges which we may have paid, provided you notify us in advance of your reason for wishing to return the goods.

**In No Case Should Goods Be Returned to Us Without Our Instructions.**

Goods made to order; goods bearing customer's advertising; or goods that are advertised or sold as not returnable, cannot be accepted for refund or exchange. This applies, however, **ONLY** where the order is filled correctly. Under **ALL** circumstances we take back goods and make refund if the error is ours.

## Substitutions, Omissions and Deferred Shipments

When you find that an item ordered was not included in your shipment, an explanation will appear on the bill. We carry an immense stock and handle thousands of different articles. At times the sale of an article will be greater than we anticipate, and notwithstanding our watchfulness, we find it impossible to get goods in fast enough to replenish our stock. When entirely out of an item ordered, we endeavor to use our best judgment in your favor, especially when you indicate anxiety for immediate shipment. At such times we do one of three things—substitute, defer shipment or cancel the item from your order.

If temporarily out of an item ordered and we have no good substitute, and article weighs enough to make a shipment by itself, we will ship as soon as we receive it—advising you accordingly. If permanently out of an item wanted and we have no substitute to offer, we will write you promptly.

**IN EVERY INSTANCE WE HAVE YOUR BEST INTEREST IN MIND.** We assume the responsibility of substituting and we stand ready to take back such goods, if unsatisfactory, pay transportation charges both ways and refund amount charged.

## Returned Goods

**Before returning any merchandise to us, be sure to write for shipping instructions, explaining fully why you desire to return the merchandise, so we can give you shipping directions. This must be done within 5 days of the date the goods were delivered.** Be sure to mark all returned goods plainly and to write your own name and address on each package. All goods returned must be properly packed and shipped back the cheapest way. If in doubt as to the cheapest method of shipment, ask your railroad agent.

If necessary to enclose a sample with returned goods mark it "sample" and write your name and address on the article, to insure the matter receiving prompt attention. Do not enclose any letters in packages you send us.

## Errors

Should we make an error in the filling of your order, kindly notify us immediately and we will promptly adjust the matter to your entire satisfaction, without any expense to you.

DO NOT WRITE IN THIS SPACE

Please ship to

Name \_\_\_\_\_

Do not send in order under trade name of your business alone—always give name of proprietor, followed by trade name, if any. For instance: John Smith, Proprietor, U. S. Hotel. Write name very plainly.

## Special Terms on Complete Equipment

## We Can Help You Get Into Business or Help You Extend Your Present Business

Many of our customers have promoted their prosperity by availing themselves of our ability to help them finance their propositions. The installation of a complete equipment for a Hotel, Restaurant, Lunch Room, Cafeteria, Soda Parlor or similar establishment runs well into money—hence our offer to help our customers

finance the deal when necessary. Write us and tell us your plans. We will then give you full details of our offer, either by mail or through the medium of a personal representative.

Not only are our terms especially favorable, but the assurance of merchandise of absolutely dependable quality and the economy of time and money through centralized purchases make it advisable to come to Albert Pick & Company for **everything** you require.

**If you do not use this order blank at once, keep it for future use. Additional order blanks will be mailed you on request.**

We can fill orders better and quicker if written on our regular order blanks, and they are more convenient for you.

**American Mail-O-Blank Corp., Chicago, Ill.**

## HOW TO FIGURE EXPRESS CHARGES:

First, ascertain the weight of your order, using catalog weights when shown, or by estimating the weights when catalog does not specify.

Next, ascertain rate per 100 lbs. to your city or the city nearest yours as shown in table on page 142, and the amount shown opposite the weight and beneath the rate in the graduated table above will be the express charges.

Example: 10 lbs. to Birmingham, Ala., rate \$3.60 per cwt., opposite 10 lbs., beneath \$3.47 (use the nearest rate shown) equals 66c.

**Note:** Customers located near Chicago, at points where they receive the benefit of free express wagon delivery will find it advantageous to order goods weighing about 100 lbs. shipped by express when the charges are not more than 60 cents per 100, as the minimum freight charges from Chicago to nearby points, added to your drayage charges, will usually equal or exceed the express charges.

## PARCEL POST INFORMATION

Effective April 15, 1925, the Postoffice Department will add a service charge of 2 cents per parcel to be added to the regular parcel post charges. If shipment comprises 1 or more parcels, the Service Charge will be 2 cents for each parcel, in addition to the regular parcel post charges.

Everything listed in this Catalog with the exception of liquids and matches can be profitably and safely shipped by Parcel Post, where shipping weight and size of container comes within the required weight and size limit, established by the government. (See table on this page.)

**How to Figure Charges** Under all articles listed in this Catalog you will find the weight given, from which you can estimate the Parcel Post shipping weight very closely. Please refer to the table here-with showing the rates from Chicago to the different zones and also the prescribed weight and size limit of packages. If you do not know in what zone you are located, please consult your local postmaster. When you have ascertained the zone you live in, then by referring to the table of rates here shown you can easily determine the Parcel Post charges.

**EXAMPLE:** If you live in Terre Haute, Indiana, and wish to purchase an order of goods which will weigh about 7 pounds, you will find that Terre Haute, Indiana, is located in zone 3, and table of rates shows that the postage on 7 pounds to zone 3 is 18 cents. You would therefore remit

Price of merchandise (let us say).....	\$2.10
Parcel Postage.....	.18
Service Charge.....	.02
<b>Total remittance.....</b>	<b>\$2.30</b>

If you desired the delivery of above shipment guaranteed, as per explanation under **Safe Delivery** on this page, it would cost you 5 cents additional.

**PLEASE REMEMBER that you must send in sufficient money to cover Parcel Post Charges. If over-remittance is made, same will be refunded with your invoice. Customers having charge accounts need not remit these charges in advance.**

## SAFE DELIVERY

Merchandise shipped by Parcel Post may be guaranteed against loss while in transit for any amount up to \$100; the cost of this guarantee is 5c for each order up to \$5; 8c for each order between \$5 and \$25; 10c for each order between \$25 and \$50 and 25c for each order between \$50 and \$100.

## C. O. D. PARCEL POST SHIPMENTS

Provision has been made to handle C. O. D. shipments through Parcel Post service, on shipments valued not higher than \$100.00, when shipped to a Money Order Post Office. **We will not make C. O. D. shipments of orders amounting to less than \$5.00.** Orders of \$5.00 or under must be accompanied by cash in full. Orders over \$5.00 will be sent C. O. D. provided you remit with your order at least one-third cash.

In addition to the regular Parcel Post rates and regular money order fees, the government makes an extra charge of 10 cents for each package on C. O. D. shipments, and this amount also insures the shipment up to \$50.00.

**Example of figuring cost of C. O. D. shipments:** Suppose you live in Dubuque, Iowa, and you desire to purchase \$16.00 worth of merchandise, weighing approximately 20 pounds. It will be necessary that you remit about \$6.00 cash with your order, and the charges will be figured as follows:

Amount of order.....	\$16.00
Remittance in cash.....	6.00
<b>Balance.....</b>	<b>\$10.00</b>
Parcel Postage and Service Charge.....	.46
Government fee for C. O. D.....	.12
<b>Balance to be collected.....</b>	<b>\$10.58</b>

On this \$10.58 you will have to pay the regular money order fee to the postmaster which in this instance would amount to 12 cents. In ordering goods shipped by Parcel Post always state whether you wish delivery guaranteed or not. Account customers will be charged in accordance with above unless we are instructed by them to ship by open mail. We take this liberty in the interest of our customers, as we feel that they prefer to be protected where the cost is so small. Where the delivery of goods is not guaranteed, shipment is made entirely at the risk of the customer.

**House deliveries** will be made to persons living on Rural and Star Routes, and in cities and towns having carrier service. Where there is no carrier or wagon delivery a Parcel Post package will go to the Post Office as in the case of ordinary mail matter. Please note the Parcel Post shipments up to 70 pounds in weight can only be made to points within the first three zones, and the weight limit for the further distant zones is 50 pounds. From time to time, the Government, profiting by its experience, is making changes in the Parcel Post system, and all statements made by us herein will be subject to revision.

Parcels must not be greater in size than 84 inches in length and girth combined, nor in form or kind likely to injure the person of any postal employee, or damage the mail equipment or other mail matter and not of a character perishable within a period reasonably required for transportation and delivery.

## IF YOU DO NOT FIND WHAT YOU WANT IN THIS CATALOG—WRITE US!

We issue many catalogs and books on merchandise and subjects not covered in this catalog. If what you want is not shown here, ask for our special catalogs, or write us fully regarding your needs—we will be very glad to give you full information.

## Here is the Way to All-the-Year Profits

### Serve Light Lunches and Hot Drinks!

It is not hard. It requires no special experience. No big outlay in money is necessary. You can start in a very modest way serving only the simplest drinks and specialties. You can go a little farther, putting in more elaborate fixtures, and extending your service to include sandwiches and other simple dishes. Or you can install a small kitchen and serve regular meals. No matter what your means are, there is a way you can start, and that way will be the way to all-the-year prosperity. Let us help you—we will furnish you with plans and estimates without obligating you in any way.

If you are at a loss as to how to start a Luncheon Service, write us and we will be very glad to give you full information.

Our Catalog AL48, listing a complete line of Light Lunch and Hot Drink Equipment will be sent you upon request.

# HOW WE DO BUSINESS

## OUR TERMS

### Cash With Order

This is the most satisfactory method, because it does away with bookkeeping, clerical work and other unnecessary red tape and expense—not only to us but to yourself. When goods are ordered to be shipped C. O. D., then the express company or bank must be paid by you for handling the invoice or draft. Where bills are contracted to be paid for in 30 days, and not remitted at maturity, a draft is drawn and the bank must be paid for its trouble. Cash with order insures the quickest delivery of goods to you—there is no chance of delay in the credit department, incurred by looking up past dealings, commercial ratings, and the investigation of references. A great many customers object to their packages being marked "C. O. D.", or the making of drafts through their local bankers. This can be easily overcome by sending the amount of your purchase in advance. You can then secure every advantage when dealing with a responsible house. We are responsible, and you assume not the slightest possibility of loss or disadvantage.

### Part Cash—Balance C. O. D.

A considerable saving can be effected by sending full payment with your order. However, if you prefer, we will gladly send you any goods amounting to \$5.00 or more, collect on delivery, if you send one-third of the amount with your order as evidence of good faith, the balance, together with transportation charges, to be paid when the goods arrive. These C. O. D. orders can be shipped by freight, express or parcel post.

Balances due on C. O. D. freight shipments are collected by draft through your local bank or express company.

Balances due on C. O. D. express shipments are collected by your express agent.

Balances due on C. O. D. parcel post shipments are collected by your Postmaster.

The charges made for the collection and return of the money due to us are paid by the purchaser. **Orders under \$5.00 will not be sent C. O. D.**

**GOODS MADE UP SPECIALLY TO YOUR ORDER CANNOT BE SHIPPED C. O. D.**

### Thirty Days' Time

We will open an account with you on our regular terms of net thirty days from date of invoice, upon receipt of satisfactory references. When opening a credit account, it is customary and necessary to submit references with your first order—that is, the names of your bank and other houses with which you have already established credit relations. Should you fail to send the desired information with your order, we will hold shipment and write you for such additional information as we deem necessary. **To avoid delay in shipment, we suggest that you send cash with your first order and make application at that time for an open account. ALL INVOICES ARE SUBJECT TO SIGHT DRAFT WITH EXCHANGE AT END OF THIRTY DAYS WITHOUT NOTICE.**

### Making Out Your Order

Every article in our catalog is described in simple language, and in most cases an illustration of the article will be found. Each article has a separate lot number and it is advisable that both the name of the article and its size, color, finish, etc., be given, in addition to the lot number.

### How To Send Money

In making remittances to us we suggest the use of the Bank Draft or Check, Express Order, or Post Office Money Order. Private checks will be accepted, but checks from customers not known to us are sent to the bank on which they are drawn for collection before shipment is made. This delay may be avoided by having your bank cashier certify your check before sending it.

### Substitutions, Omissions and Deferred Shipments

When you find that an item ordered was not included in your shipment, an explanation will appear on the bill. We carry an immense stock and handle thousands of different articles. At times the sale of an article will be greater than we anticipate and, notwithstanding our watchfulness, we occasionally find it impossible to get goods in fast enough to replenish our stock. When entirely out of an item ordered, we use our best judgment in your favor, especially when you indicate anxiety for immediate shipment. At such times we do one of three things—substitute, defer shipment, or cancel the item from your order.

If temporarily out of an item ordered and we have no good substitute, and article weighs enough to make a shipment by itself, we will ship as soon as we receive it, advising you accordingly. If permanently out of an item wanted and we have no substitute to offer, we will write you promptly.

IN EVERY INSTANCE WE HAVE YOUR BEST INTEREST IN MIND. We assume the responsibility of substituting and we stand ready to take back such goods if unsatisfactory, pay transportation charges both ways and refund amount charged.

## We Guarantee

**To Deliver Merchandise Conforming Exactly To Our Illustrations and Descriptions.**

### Special Terms on Complete Equipment

We Can Help You Get Into Business or Help You Extend Your Present Business. Many of our customers have promoted their prosperity by availing themselves of our ability to help them finance their propositions. The installation of a complete equipment for a Soda Parlor, Hotel, Restaurant, Lunch Room, or Cafeteria, runs well into money—hence our offer to help our customers finance the deal when necessary. Write us and tell us your plans. We will then give you full details of our offer, either by mail or through the medium of a personal representative. Not only are our terms especially favorable, but the assurance of merchandise of absolutely dependable quality and the economy of time and money through centralized purchases make it advisable to come to Albert Pick & Company for **everything** you require.

**PRICES** in this Catalog **NET—NO DISCOUNTS** and are quoted **F. O. B. Chicago**, (or in some instances, where specified, **F. O. B. factory**) unless otherwise stated. **Prices quoted herein are based on the present market and are subject to change without notice.**

### Your Money Back If You Are Not Pleased

Every article listed in our catalog is covered by our liberal guarantee.

If you receive goods from us that are not entirely as represented, we will gladly refund your money, including amount of transportation charges you have paid, or exchange same for other merchandise, provided you notify us within five days after receipt of the goods.

Where goods ordered by mail are shipped exactly as represented, but do not prove satisfactory through no fault of ours, we will refund the full amount paid for the goods, deducting only the transportation charges which we may have paid, provided you notify us in advance of your reasons for wishing to return the goods.

**In No Case Should Goods Be Returned to Us Without Our Instructions.**

Goods made to order; goods bearing customer's advertising; or goods that are advertised or sold as not returnable, cannot be accepted for refund or exchange. This applies, however, **ONLY** where the order is filled correctly. Under **ALL** circumstances we take back goods and make refund if the error is ours.

**Returned Goods** Before returning any merchandise to us, be sure to write for shipping instructions, explaining fully why you desire to return the merchandise, so we can give you shipping directions. **This must be done within 5 days of the date the goods were delivered.** Be sure to mark all returned goods plainly and to write your own name and address on each package. All goods returned must be properly packed and shipped back the cheapest way. If in doubt as to the cheapest method of shipment, ask your railroad agent. If necessary to enclose a sample with returned goods mark it "Sample" and write your name and address on the article, to insure the matter receiving prompt attention. Do not enclose any letters in packages you send us.

**Errors** Should we make an error in the filling of your order, kindly notify us immediately and we will promptly adjust the matter to your entire satisfaction, without any expense to you.

**We Reserve** the right to restrict quantities, withdraw prices or eliminate from sale any item listed in our catalogs or circulars.
